AFCS MODE LIMITATIONS

If “F” symbol is displayed next to groundspeed readout (GS) at the bottom of the IAS tape on PFD, APP/NAV AFCS modes must not be used when the navigation source is VOR/ILS/LOC. Therefore VOR navigation and VOR/ILS/LOC approaches must not be coupled to AFCS but are allowed if manually flown by the pilot.

NOTE

The “F” symbol displayed next to groundspeed readout (GS) is due to:
- ADAHRS/GPS degradation
  or
- “DG” mode selection

In both cases the groundspeed (GS) data source is FMS instead of GPS.

U.S. Customs and Border Protection

19 CFR Chapter I

Termination of Arrival Restrictions Applicable to Flights Carrying Persons Who Have Recently Traveled From or Were Otherwise Present Within the Republic of Guinea

ACTION: Announcement of termination of arrival restrictions.

SUMMARY: This document announces the decision of the Secretary of Homeland Security to terminate arrival restrictions applicable to flights to the United States carrying persons who have recently traveled from, or were otherwise present within, the Republic of Guinea. These arrival restrictions were initiated due to outbreaks of Ebola virus disease (EVD) in the Democratic Republic of the Congo.
since April 3, 2021, there has been no new confirmed EVD cases reported in the Republic of Guinea and all contacts of cases that were being monitored for EVD have passed the 21-day incubation period. With no new hospitalized patients with EVD and no contacts of confirmed EVD cases still requiring monitoring, the potential risk for Ebola virus exposure in the Republic of Guinea has greatly diminished.

Therefore, flight restrictions are no longer required for flights carrying persons who have recently traveled from, or were otherwise present within, the Republic of Guinea.

Notice of Termination of Arrival Restrictions Applicable to All Flights Carrying Persons Who Have Recently Traveled From or Were Otherwise Present Within the Republic of Guinea

Pursuant to 6 U.S.C. 112(a), 19 U.S.C. 1433(c), and 19 CFR 122.32, and effective as of 12:01 a.m. Eastern Daylight Time on May 14, 2021, for all affected flights arriving at a United States airport, I hereby terminate the arrival restrictions applicable to flights carrying persons who have recently traveled from, or were otherwise present within, the Republic of Guinea announced in the Arrival Restrictions document published at 86 FR 12534 (March 4, 2021).

§ Section

II. Background Information and Regulatory History

The Captain of the Port Sector Ohio Valley (COTP) is amending 33 CFR 165.801 to update the table of annual fireworks displays and other events in Coast Guard Sector Ohio Valley Area of Responsibility (AOR). These events include air shows, fireworks displays, and other events requiring a safety zone.

On February 24, 2021, the Coast Guard published a notice of proposed rulemaking (NPRM) titled, “Safety Zones; Coast Guard Sector Ohio Valley Annual and Recurring Safety Zones Update” (86 FR 11198). There we stated why we issued the NPRM, and invited comments on our proposed regulatory action related to those recurring safety zones. During the comment period that ended on March 26, 2021, no comments were received.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the Federal Register. Delaying the effective date of this rule would be contrary to the public interest because immediate action is necessary to respond to the potential safety hazards associated with these events.

III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority in 46 U.S.C. 70034 (previously 33 U.S.C. 1231). The Coast...
