SUPPLEMENTARY INFORMATION: Throughout this document “we,” “us,” and “our” means EPA.

I. Background

The background for this action is discussed in detail in our February 26, 2021 (86 FR 11694) proposal. In that document we proposed to approve the State of Utah’s request to redesignate the Logan NAA to attainment for the 2006 24-hour PM\(_{2.5}\) NAAQS. We also proposed to approve related SIP revisions submitted on November 5, 2019 and January 13, 2020. The November 5, 2019 submittal included revisions to Utah’s R307–110–31 and R307–110–36 rulings, concerning SIP Sections X.A. and X.F. The January 13, 2020 submittal contained revisions to R307–110–10 and the maintenance plan for the Logan NAA.

II. Response to Comments

We received no comments on the February 26, 2021 (86 FR 11694) proposal.

III. Final Action

We are approving the Governor of Utah’s submittal of January 13, 2020, which contained revisions to R307–110–10, the Logan PM\(_{2.5}\) maintenance plan and redesignation request, the maintenance plan’s 2035 Motor Vehicle Emissions Budgets (MVEBs), and the nitrogen oxide (NO\(_x\))-to-direct-PM\(_{2.5}\) MVEB trading mechanism. We are also approving the Governor of Utah’s submittal of November 5, 2019, which revised R307–110–31, R307–110–36, Utah SIP Section X.A., and Utah SIP Section X.F. Upon the effective date of this final action, the status of the Utah portion of the Logan area under 40 CFR part 81 will be revised to attainment.

IV. Incorporation by Reference

In this document, EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, EPA is finalizing the incorporation by reference of R307–110–10; R307–110–31; R307–110–36. EPA has made, and will continue to make, these materials generally available through www.regulations.gov and at the EPA Region 8 Office (please contact the person identified in the FOR FURTHER INFORMATION CONTACT section of this preamble for more information). Therefore, these materials have been approved by EPA for inclusion in the SIP, have been incorporated by reference by EPA into that plan, are fully federally enforceable under sections 110 and 113 of the CAA as of the effective date of the final rulemaking of EPA’s approval, and will be incorporated by reference in the next update to the SIP compilation.}

V. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA’s role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

• Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
• Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 et seq.);
• Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.);
• Does not contain any unfunded mandate or significantly or uniquely affect small governments, described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4); and
• Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
