The proposed action does not require changes to the ISFSI’s licensed routine operations, maintenance activities, or monitoring programs, nor does it require new construction or land-disturbing activities. The scope of the proposed action concerns only the NRC’s review and approval of SCE&G’s and Authority’s initial DFPs. The scope of the proposed action does not include, and will not result in, the review and approval of decontamination or decommissioning activities. The initial DFPs do not include, and will not result in, the review and approval of decontamination or decommissioning activities or license termination for the ISFSI or for other parts of Virgil C. Summer Nuclear Station Unit No. 1. Therefore, the NRC staff determined that approval of the initial DFPs for Virgil C. Summer Nuclear Station Unit No. 1 ISFSI will not significantly affect the quality of the human environment, and accordingly, the staff has concluded that a FONSI is appropriate. The NRC staff further finds that preparation of an environmental impact statement (EIS) is not required.

U.S. Nuclear Regulatory Commission. Final EA and FONSI for the SCE&G’s and South Carolina Public Service Authority’s Initial DFPs for Virgil C. Summer Nuclear Station Unit No.1 ISFSI, dated May 14, 2021. ADAMS Accession No. ML21055A398.

For the Nuclear Regulatory Commission.
John B. McKirgan,
Chief, Storage and Transportation Licensing Branch, Division of Fuel Management, Office of Nuclear Material Safety and Safeguards.

You may obtain publicly available information related to this document using any of the following methods:

- Federal Rulemaking Website: Go to https://www.regulations.gov and search for Docket ID NRC–2021–0097. Address questions about Docket IDs in Regulations.gov to Stacy Schumann: 301–415–0624; email: Stacy.Schumann@nrc.gov. For technical questions, contact the individual listed in the FOR FURTHER INFORMATION CONTACT section of this document.

- NRC’s Agencywide Documents Access and Management System (ADAMS): You may obtain publicly available documents online in the ADAMS Public Documents collection at https://www.nrc.gov/reading-rm/adams.html. To begin the search, select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.

- Attention: The PDR, where you may examine and order copies of public documents, is currently closed. You may submit your request to the PDR via email at pdr.resource@nrc.gov or call 1–800–397–4209 or 301–415–4737, between 8:00 a.m. and 4:00 p.m. (EST), Monday through Friday, except Federal holidays.

For further details with respect to these actions, see the NRC staff’s final EA and FONSI determinations which are available for public inspection in ADAMS and at https://www.regulations.gov under Docket ID NRC–2021–0097. For additional direction on accessing information related to this document, see the ADDRESSES section of this document.

<td>Vogtle Electric Generating Plant, Units 1 and 2, ISFSI.</td>
<td>Southern Nuclear Operating Company, Inc. (SNC). The NRC’s review and approval of SNC’s initial DFP submitted in accordance with 10 CFR 72.30(b). The NRC staff has determined that the proposed action, the review and approval of SNC’s initial DFP, submitted in accordance with 10 CFR 72.30(b), will not authorize changes to licensed operations or maintenance activities, or result in changes in the types, characteristics, or quantities of radiological or non-radiological effluents released into the environment from the ISFSI, or result in the creation of solid waste. Moreover, the approval of the initial DFP will not authorize any construction activity, facility modification, or other land-disturbing activity. The NRC staff has concluded that the proposed action is a procedural and administrative action that will not have a significant impact on the environment.</td>
<td>The proposed action does not require changes to the ISFSI’s licensed routine operations, maintenance activities, or monitoring programs, nor does it require new construction or land-disturbing activities. The scope of the proposed action concerns only the NRC’s review and approval of SNC’s initial DFP. The scope of the proposed action does not include, and will not result in, the review and approval of decontamination or decommissioning activities or license termination for the ISFSI or for other parts of Joseph M. Farley Nuclear Plant, Units 1 and 2. Therefore, the NRC staff determined that approval of the initial DFP for the Farley ISFSI will not significantly affect the quality of the human environment, and accordingly, the staff has concluded that a FONSI is appropriate. The NRC staff further finds that preparation of an environmental impact statement (EIS) is not required.</td>

SECURITIES AND EXCHANGE COMMISSION

I. Introduction

On August 28, 2020, NYSE Arca, Inc. (“Exchange” or “NYSE Arca”) filed with the Securities and Exchange Commission (“Commission”), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b–4 thereunder,² a proposed rule change to amend NYSE Arca Rule 5.3–E (Corporate Governance and Disclosure Policies) to exempt issuers of certain investment companies, including Exchange Traded Funds (“ETFs”), from the requirement to obtain shareholder approval prior to the issuance of securities in connection with certain acquisitions of the stock or assets of an affiliated registered investment company. The proposed rule change was published for comment in the Federal Register on September 17, 2020.³ On October 30, 2020, pursuant to Section 19(b)(2) of the Act,⁴ the Commission designated a longer period within which to approve the proposed rule change, disapprove the proposed rule change, or institute proceedings to determine whether to disapprove the proposed rule change.⁵ On December 1, 2020, the Exchange filed Amendment No. 1 to the proposed rule change, which superseded the proposed rule change as originally filed.⁶ On December 15, 2020, the Commission published notice of Amendment No. 1

For the Nuclear Regulatory Commission.

John B. McKirgan,
Chief, Storage and Transportation Licensing Branch, Division of Fuel Management, Office of Nuclear Material Safety.
