Utility Scale Wind Towers From Malaysia: Preliminary Determination of Sales at Not Less Than Fair Value and Postponement of Final Determination

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) preliminarily determines that utility scale wind towers (wind towers) from Malaysia are not being, or are not likely to be, sold in the United States at less than fair value (LTFV). The period of investigation (POI) is July 1, 2019, through June 30, 2020. Interested parties are invited to comment on this preliminary determination.

DATES: Applicable May 24, 2021.

FOR FURTHER INFORMATION CONTACT: Jerry Huang, AD/CVD Operations, Office V, Enforcement and Compliance, International Trade Administration, Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–4047.

SUPPLEMENTARY INFORMATION:

Background

This preliminary determination is made in accordance with section 733(b) of the Tariff Act of 1930, as amended (the Act). Commerce published the notice of initiation of this investigation on November 16, 2020.¹ For a complete

description of the events that followed the initiation of this investigation, see the Preliminary Decision Memorandum.² A list of topics included in the Preliminary Decision Memorandum is included as Appendix II to this notice. The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <http://access.trade.gov>. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn/>.

Scope of the Investigation

The products covered by this investigation are utility scale wind towers from Malaysia. For a complete description of the scope of this investigation, see Appendix I to this notice.

Scope Comments

In accordance with the *Preamble* to Commerce's regulations,³ we set aside a period of time in the *Initiation Notice* for parties to raise issues regarding product coverage (*i.e.*, scope).⁴ We did not receive comments concerning the scope of the investigation of wind towers as it appeared in the *Initiation Notice*.

Methodology

Commerce is conducting this investigation in accordance with section 731 of the Act. Commerce has calculated export price in accordance with section 772(a) of the Act. Normal value (NV) is calculated in accordance with section 773(e) of the Act. For a full description of the methodology underlying the preliminary determination, see the Preliminary Decision Memorandum.

Preliminary Determination

Commerce preliminarily determines that the following estimated weighted-average dumping margins exist:

² See Memorandum, "Decision Memorandum for the Preliminary Determination in the Less-Than-Fair-Value Investigation of Utility Scale Wind Towers from Malaysia," dated concurrently with, and hereby adopted by, this notice (Preliminary Decision Memorandum).

³ See *Antidumping Duties; Countervailing Duties, Final Rule*, 62 FR 27296, 27323 (May 19, 1997) (*Preamble*).

⁴ See *Initiation Notice*, 85 FR at 73024.

⁵ Commerce preliminarily determines that CS Wind Corporation and CS Wind Malaysia Sdn. Bhd. are a single entity (collectively, CS Wind). See Memorandum, "Less-Than-Fair-Value Investigation of Utility Scale Wind Towers from Malaysia: Preliminary Affiliation and Single Entity

Exporter/producer	Dumping margin (percent)
CS Wind Corporation/CS Wind Malaysia Sdn Bhd ⁵	0.00

Commerce preliminarily determines that CS Wind has not made sales of wind towers at LTFV. Further, because CS Wind is the only party for which an estimated weighted-average dumping margin has been calculated for this preliminary determination, Commerce preliminarily determines that wind towers from Malaysia have not been sold in the United States at LTFV during the POI.

Consistent with section 733(d) of the Act, Commerce has not calculated an estimated weighted-average dumping margin for all other producers and exporters because it has not made an affirmative preliminary determination of sales at LTFV.

Suspension of Liquidation

Because Commerce has made a negative preliminary determination of sales at LTFV with regard to subject merchandise, Commerce will not direct U.S. Customs and Border Protection to suspend liquidation or to require a cash deposit of estimated antidumping duties for entries of wind towers from Malaysia.

Disclosure

Commerce intends to disclose its calculations and analysis performed to interested parties in this preliminary determination within five days of any public announcement or, if there is no public announcement, within five days of the date of publication of this notice in accordance with 19 CFR 351.224(b).

Verification

As provided in section 782(i)(1) of the Act, Commerce intends to verify the information relied upon in making its final determination. Normally, Commerce verifies information using standard procedures, including an on-site examination of original accounting, financial, and sales documentation. However, due to current travel restrictions in response to the global COVID–19 pandemic, Commerce is unable to conduct on-site verification in this investigation. Accordingly, we intend to verify the information relied upon in making the final determination through alternative means in lieu of an on-site verification.
