[MB Docket No. 21–72; RM–11888; DA 21–581; FR ID 28090]

Television Broadcasting Services Green Bay, Wisconsin

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: On March 4, 2021, the Media Bureau, Video Division (Bureau) issued a *Notice of Proposed Rulemaking* in response to a petition for rulemaking filed by WLUK Licensee, LLC (Licensee), the licensee of WLUK–TV, channel 12 (FOX), Green Bay, Wisconsin, requesting the substitution of channel 18 for channel 12 at Green Bay in the DTV Table of Allotments. As a result of the Commission’s Incentive Auction and repacking process, WLUK–TV was repacked from channel 11 to channel 12. For the reasons set forth in the *Report and Order* referenced below,

the Bureau amends FCC regulations to substitute channel 18 for channel 12 at Green Bay.

DATES: Effective May 25, 2021.

FOR FURTHER INFORMATION CONTACT: Joyce Bernstein, Media Bureau, at (202) 418–1647 or Joyce.Bernstein@fcc.gov.

SUPPLEMENTARY INFORMATION: The proposed rule was published at 86 FR 15885 on March 25, 2021. The Licensee filed comments in support of the petition reaffirming its commitment to applying for channel 18. No other comments were received. In support, the Licensee states that the Commission has recognized that VHF channels have certain propagation characteristics which may cause reception issues for some viewers, that the reception of VHF signals requires larger antennas relative to UHF channels, and that many of the WLUK–TV viewers experience difficulty receiving its signal. In addition, operation on channel 18 will not result in any predicted loss of service.

This is a synopsis of the Commission’s *Report and Order*, MB Docket No. 21–72; RM–11888; DA 21–581, adopted May 17, 2021, and released May 17, 2021. Provisions of the Regulatory Flexibility Act of 1980, 5 U.S.C. 601–612, do not apply to this proceeding.

SUPPLEMENTARY INFORMATION: The proposed rule was published at 86 FR 15451 on March 23, 2021. The Petitioner filed comments in support of the petition reaffirming its commitment to apply for channel 32. No other comments were received. According to the Petitioner, many of its viewers experience significant difficulty receiving KCRG-TV's signal. In addition, Gray demonstrated that the proposed channel change will result in no loss of service; while the traditional analysis of noise limited service contours show a de minimis population loss, analysis of the terrain limited service contours results in no loss.

Take of Marine Mammals Incidental to Specified Activities; Taking Marine Mammals Incidental to Seabird Research Activities in Central California

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule; notification of issuance.

SUMMARY: NMFS Office of Protected Resources, upon request from Point Blue Conservation Science (Point Blue), NMFS hereby issues regulations and a Letter of Authorization (LOA) to govern the unintentional taking of marine mammals incidental to seabird research activities in central California over the course of five years. These regulations, which allow for the issuance of Letters

of Authorization (LOA) for the incidental take of marine mammals during the described activities and specified timeframes, prescribe the permissible methods of taking and other means of effecting the least practicable adverse impact on marine mammal species or stocks and their habitat, as well as requirements pertaining to the monitoring and reporting of such taking.

DATES: Effective from July 1, 2021, through June 30, 2026.

ADDRESSES: Electronic copies of the application and supporting documents, as well as a list of the references cited in this document, may be obtained online at: <https://www.fisheries.noaa.gov/permit/incidental-take-authorizations-under-marine-mammal-protection-act>. FOR FURTHER INFORMATION CONTACT: Amy Fowler, Office of Protected Resources, NMFS, (301) 427-8401.

SUPPLEMENTARY INFORMATION:

Purpose and Need for Regulatory Action

NMFS received an application from Point Blue requesting five-year regulations and authorization to take multiple species of marine mammals. Take would occur by Level B harassment incidental to visual disturbance of pinnipeds during research activities and use of research equipment. Please see Background below for definitions of harassment. These regulations establish a framework under the authority of the MMPA (16 U.S.C. 1361 *et seq.*) to allow for the issuance of a LOA for the take of marine mammals incidental to Point Blue's seabird research activities in central California.

Legal Authority for the Proposed Action

Section 101(a)(5)(A) of the MMPA (16 U.S.C. 1371(a)(5)(A)) directs the Secretary of Commerce to allow, upon request, the incidental, but not intentional taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region for up to five years if, after notice and public comment, the agency makes certain findings and issues regulations that set forth permissible methods of taking pursuant to that activity and other means of effecting the "least practicable adverse impact" on the affected species or stocks and their habitat (see the discussion below in the *Mitigation* section), as well as monitoring and reporting requirements.
