b. 3M™ 4-Station Battery Charger Kit TR–644N, which includes four 3M™ Charger Cradles TR–640 and one 3M™ 4-Station Battery Charger Base/Power Supply TR–944N.

   iii. The CleanSpace EX Power Unit is to be charged only by the CleanSpace Battery Charger EX, Product Code PAF–0066.

   iv. The batteries must not be allowed to get wet. This does not preclude incidental exposure of sealed battery packs.

   v. The batteries shall not be used, charged or stored in locations where the manufacturer’s recommended temperature limits are exceeded. The batteries must not be placed in direct sunlight or used or stored near a source of heat.

   (p) Personnel engaged in the use of the 3M™ Versaflo™ TR–800 and CleanSpace EX PAPRs shall be properly trained to recognize the hazards and limitations associated with the use of the equipment in areas where methane could be present. Additionally, personnel shall be trained regarding proper procedures for donning Self Contained Self Rescuers (SCSRs) during a mine emergency while wearing the 3M™ Versaflo™ TR–800 or CleanSpace EX. The mine operator shall submit proposed revisions to update the Mine Emergency Evacuation and Firefighting Program of Instruction under 30 CFR 75.1502 to address this issue.

   (q) Within 60 days after the Decision and Order becomes final, the operator shall submit proposed revisions for its approved 30 CFR part 48 training plans to the Mine Safety and Health Enforcement District Manager. These proposed revisions shall specify initial and refresher training regarding the terms and conditions stated in the Decision and Order. When training is conducted on the terms and conditions in the Decision and Order, an MSHA Certificate of Training (Form 5000–23) shall be completed. Comments shall be included on the Certificate of Training indicating that the training received was for use of the 3M™ Versaflo™ TR–800 or CleanSpace EX PAPR.

   (r) All personnel who will be involved with or affected by the use of the 3M™ Versaflo™ TR–800 or CleanSpace EX shall receive training in accordance with 30 CFR 48.7 on the requirements of the Decision and Order within 60 days of the date the Decision and Order becomes final. Such training must be completed before any 3M™ Versaflo™ TR–800 or CleanSpace EX can be used on the longwall face or within 150 feet of pillar workings. The operator shall keep a record of such training and provide such record to MSHA upon request.

   (s) The operator shall provide annual retraining to all personnel who will be involved with or affected by the use of the 3M™ Versaflo™ TR–800 or CleanSpace EX in accordance with 30 CFR 48.8. The operator shall train new miners on the requirements of the Decision and Order in accordance with 30 CFR 48.5 and shall train experienced miners on the requirements of the Decision and Order in accordance with 30 CFR 48.6. The operator shall keep a record of such training and provide such record to MSHA upon request.

   (t) The operator shall post the Decision and Order in unobstructed locations on the bulletin boards and/or in other conspicuous places where notices to miners are ordinarily posted, for a period of not less than 60 consecutive days.

   The petitioner asserts that the alternate method proposed will at all times guarantee no less than the same measure of protection afforded the miners under the mandatory standard.

Jessica Senk,
Director, Office of Standards, Regulations, and Variances.

Decision of the Governors of the United States Postal Service on Mail Classification Schedule Changes Related to the Outbound Commercial Provider Initiative (Governors’ Decision No. 21–4)

May 6, 2021

Statement of Explanation and Justification

Pursuant to our authority under section 404(b) and Chapter 36 of title 39, United States Code, the Governors establish classification changes related to the Outbound Commercial Provider Initiative (OCPI).

The OCPI would allow the Postal Service to offer outbound international service for package shipments through the use of a supplier in lieu of the destination country postal operator. OCPI is designed to help the Postal Service remain competitive in the cross-border shipping market, by providing the ability for delivery in the destination country of certain outbound international products by a third-party supplier, instead of the designated foreign postal operator of the destination country. This provides the Postal Service the option of selecting providers that may be able to offer either superior service or better destination delivery prices, or both.

In order to implement the OCPI, revisions to the Mail Classification Schedule (MCS) should be made. These changes to the MCS would not mandate the use of the OCPI, but rather maintain flexibility to allow its use in particular outbound international traffic lanes.

We have evaluated the classification changes related to the OCPI for the Outbound Single-Piece First-Class Package International Service product in this context in accordance with Title 39 of the United States Code. We approve the changes, finding that they are appropriate, and are consistent with the applicable criteria.

Order

We direct management to provide the required public notice, and to file with the Postal Regulatory Commission the required documents and supporting documents consistent with this Decision. The changes in classification to the Mail Classification Schedule set forth herein are intended to be effective thirty days after the material MCS changes are filed with the Postal Regulatory Commission, or as soon as practicable thereafter.

By The Governors:

Ron A. Bloom,
Chairman, Board of Governors.
