

Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order 7400.11E, Airspace Designations and Reporting Points, dated July 21, 2020, and effective September 15, 2020. FAA Order 7400.11E is publicly available as listed in the ADDRESSES section of this document. FAA Order 7400.11E lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to 14 CFR part 71 by amending the Class E airspace extending upward from 700 feet above the surface to within an 8.7-mile (increased from a 7-mile) radius of Eveleth-Virginia Municipal Airport, Eveleth, MN; and updating the geographic coordinates of the airport to coincide with the FAA's aeronautical database.

This action is necessary due to an airspace review caused by the decommissioning of the Eveleth NDB.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.11E, dated July 21, 2020, and effective September 15, 2020, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

RIN 2120-AA66

Proposed Amendment of Class D and Class E Airspace and Revocation of Class E Airspace; Columbus, OH

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to amend the Class D airspace and Class E airspace at Columbus, OH, and revoke the Class E airspace extending upward from 700 feet above the surface at Dan Darby Airport, Columbus, OH. The FAA is proposing this action as the result of an airspace review caused by the decommissioning of the Rickenbacker International Airport runway 5R middle marker and the cancellation of instrument procedures at Dan Darby Airport. The name and geographic coordinates of various airports would also be updated to coincide with the FAA's aeronautical database.

DATES: Comments must be received on or before July 12, 2021.

ADDRESSES: Send comments on this proposal to the U.S. Department of Transportation, Docket Operations, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE, Washington, DC 20590; telephone (202) 366-9826, or (800) 647-5527. SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend the Class D airspace at Ohio State University Airport, Columbus, OH, and Rickenbacker International Airport, Columbus, OH, and the Class E airspace extending upward from 700 feet above the surface at John Glenn Columbus International Airport, Columbus, OH, and Rickenbacker International Airport, Columbus, OH, and revoke the Class E airspace extending upward from 700 feet above the surface at Dan Darby Airport, Columbus, OH, to support instrument flight rule operations at these airports.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2021-0385/Airspace

Docket No. 21-AGL-21." The postcard will be date/time stamped and returned to the commenter.

All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in light of the comments received. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRMs

An electronic copy of this document may be downloaded through the internet at <https://www.regulations.gov>. Recently published rulemaking documents can also be accessed through the FAA's web page at https://www.faa.gov/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see the **ADDRESSES** section for the address and phone number) between 9:00 a.m. and 5:00 p.m., Monday through Friday, except federal holidays. An informal docket may also be examined during normal business hours at the Federal Aviation Administration, Air Traffic Organization, Central Service Center, Operations Support Group, 10101 Hillwood Parkway, Fort Worth, TX 76177.

Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order 7400.11E, Airspace Designations and Reporting Points, dated July 21, 2020, and effective September 15, 2020. FAA Order 7400.11E is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11E lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to 14 CFR part 71 by:

Amending the Class D airspace at Ohio State University Airport, Columbus Ohio by removing the name of the airport from the header of the airspace legal description to comply with changes to FAA Order 7400.2M, Procedures for Handling Airspace Matters; removing the city associated with the airport in the airspace legal description to comply with changes to FAA Order 7400.2M; updating the geographic coordinates of the airport to

coincide with the FAA's aeronautical database; and replacing the outdated term "Airport/Facility Directory" with "Chart Supplement";

Amending the Class D airspace to within a 4.6-mile (increased from a 4.5-mile) radius of Rickenbacker International Airport, Columbus, OH; removing the airport name from the header of the airspace legal description to comply with changes to FAA Order 7400.2M; and removing the city associated with the airport to comply with changes to FAA Order 7400.2M;

And amending the Class E airspace extending upward from 700 feet above the surface to within a 7.5-mile (increased from a 7-mile) radius of John Glenn Columbus International Airport, Columbus, OH; updating the name of John Glenn Columbus International Airport (previously Port Columbus International Airport) to coincide with the FAA's aeronautical database; removing the cities associated with the airports to comply with changes to FAA Order 7400.2M; within a 7.1-mile (increased from a 7-mile) radius of Rickenbacker International Airport; within 4 miles each side of the 045° bearing from Rickenbacker International Airport extending from the 7.1-mile (previously 7-mile) radius to 12.6 miles (increased from 12.5 miles) northeast of the Rickenbacker International Airport; updating the geographic coordinates of Ohio State University Airport to coincide with the FAA's aeronautical database; removing Dan Darby Airport, Columbus, OH, and the associated airspace as the instrument procedures at this airport have been cancelled and the airspace is no longer required; and removing the exclusionary language from the airspace legal description as it is not required.

This action is necessary due to airspace reviews caused by the decommissioning of the Rickenbacker International Airport runway 5R middle maker and the cancellation of the instrument procedures at Dan Darby Airport, Columbus, OH.

Class D and E airspace designations are published in paragraph 5000 and 6005, respectively, of FAA Order 7400.11E, dated July 21, 2020, and effective September 15, 2020, which is incorporated by reference in 14 CFR 71.1. The Class D and E airspace designation listed in this document will be published subsequently in the Order.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.
