Farm Service Agency

[Docket ID FSA-2020-0006]

Information Collection Request; Coronavirus Food Assistance Program

AGENCY: Farm Service Agency, U.S. Department of Agriculture (USDA).

ACTION: Notice; request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FSA is requesting comments from interested individuals and organizations on a revision and extension of a currently approved information collection request associated with the Coronavirus Food Assistance Program (CFAP 2.0). The initial notice for this information collection request was published on April 2, 2021. The burden hours from the previously approved OMB information collection request are to be increased in this request to account for new CFAP payments for contract growers and sod and pullet producers.

DATES: We will consider comments that we receive by July 27, 2021.

ADDRESSES: We invite you to submit comments on this notice. You may submit comments by any of the following methods:

- *Federal eRulemaking Portal:* Go to: www.regulations.gov and search for Docket ID FSA-2020-0006. Follow the online instructions for submitting comments.
- *Mail, Hand-Delivery, or Courier:* Director, SND, FSA, US Department of Agriculture, 1400 Independence Avenue SW, Stop 0522, Washington, DC 20250-0522. In your comment, specify the docket ID FS-2020-0006.

You may also send comments to the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503. Comments will be available for inspection online at <http://www.regulations.gov>. Copies of the information collection may be requested by contacting Brittany Ramsburg at the above address.

FURTHER INFORMATION CONTACT: For specific questions related to collection activities, contact Ms. Brittany Ramsburg at (202) 260-9303 (voice); or, by email at: BrittanyRamsburg@usda.gov. Persons with disabilities who require alternative means for communication should contact the USDA Target Center at (202) 720-2600 (voice).

SUPPLEMENTARY INFORMATION:

Title: CPAP 2.0.

OMB Control Number: 0560-0297.

Type of Request: Revision.

Abstract: This information collection is required to support CFAP 2.0 information collection activities to provide payments to eligible producers who, with respect to their agricultural commodities, have been impacted by the effects of the COVID-19 pandemic. The information collection is necessary to evaluate the application and other required paperwork for determining the producer's eligibility and assist in the producer's payment calculations. Producers must submit a completed CFAP 2 application and additional documentation for eligibility, such as certifications of compliance with adjusted gross income provisions and conservation compliance activities; those additional documents and forms must be submitted no later than 60 days

from the date a producer signs the application.

The annual burden hours increased by 65,281 in this collection because FSA estimated additional burden hours to account for the new CFAP payments for contract growers and sod and pullet producers that was previously approved under the OMB control number of 0560-0299. The initial notice for OMB 0560-0297 information collection request was published on April 2, 2020, (89 FR 17351); this notice needs to be published to include the added burden hours as indicated in the above.

For the following estimated total annual burden on respondents, the formula used to calculate the total burden hour is the estimated average time per response multiplied by the estimated total annual responses.

Public reporting burden for this information collection is estimated to include the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed and completing and reviewing the collections of information.

Type of Respondents: Producers or farmers.

Estimated Annual Number of Respondents: 1,248,901.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Responses: 1,248,901.

Estimated Average Time per Response: 0.741492 hours.

Estimated Total Annual Burden on Respondents: 926,051 hours.

FSA is requesting comments on all aspects of this information collection to help us to:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of FSA, including whether the information will have practical utility;

(2) Evaluate the accuracy of the FSA's estimate of burden including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this document, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the submission for Office of Management and Budget approval.

Zach Ducheneaux,

Administrator, Farm Service Agency.

Forest Service

Information Collection; Submission Requirements and Acceptance Testing Protocols and Requirements for New or Relocated Aerial Tramways, Aerial and Surface Lifts, Tows, Conveyors, and Funiculars

AGENCY: Forest Service, USDA.

ACTION: Notice; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Forest Service is seeking public comment on a new information collection, form FS-7300-0006, *Submission Requirements and Acceptance Testing Protocols and Requirements for New or Relocated Aerial Tramways, Aerial and Surface Lifts, Tows, Conveyors, and Funiculars*.

DATES: Comments must be received in writing on or before July 27, 2021 to be assured of consideration. Comments received after that date will be considered to the extent practicable.

ADDRESSES: Commenters are encouraged to submit comments by email, if possible. You may submit comments by any of the following methods:

Email: curt.panter@usda.gov.

Mail: Curt Panter, Intermountain Region, Regional Office—Engineering, 324 25th Street, Ogden, Utah 84401.

All comments, including names and addresses when provided, will be placed in the record and will be available for public inspection and copying. Comments submitted in response to this notice may be made available to the public through relevant websites and upon request. For this reason, please do not include in your comments information of a confidential nature, such as sensitive personal information or proprietary information. If you send an email comment, your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the internet. Please note that responses to this public comment request containing

any routine notice about the confidentiality of the communication will be treated as public comments that may be made available to the public notwithstanding the inclusion of the routine notice.

FOR FURTHER INFORMATION CONTACT: Curt Panter, Intermountain Region, Regional Office—Engineering, 801-726-2213 or curt.panter@usda.gov. Individuals who use telecommunication devices for the deaf may call the Federal Relay Service at 800-877-8339 between 8:00 a.m. and 8:00 p.m., Eastern Time, Monday through Friday.

SUPPLEMENTARY INFORMATION:

Title: Submission Requirements and Acceptance Testing Protocols and Requirements for New or Relocated Aerial Tramways, Aerial and Surface Lifts, Tows, Conveyors, and Funiculars.

OMB Number: 0596-NEW.

Type of Request: New.

Abstract: Existing form FS-2700-5b, Ski Area Term Special Use Permit, requires the permit holder to be responsible for the design, construction, maintenance, operation, and public safety of improvements authorized by the permit, including new or relocated aerial tramways, aerial and surface lifts, tows, conveyors, and funiculars (hereinafter “passenger ropeways”).

In particular, clause II.B of FS-2700-5b requires all plans for development, layout, construction, reconstruction, or alteration of improvements in the permit area, as well as revisions to those plans, to be prepared by a licensed engineer, architect, landscape architect, or other qualified professional acceptable to the authorized officer. Clause II.B further provides that these plans and plan revisions must have written approval from the authorized officer before they are implemented and that the authorized officer may require the holder to furnish as-built plans, maps, or surveys upon completion of the work. New form FS-7300-0006, Submission Requirements and Acceptance Testing Protocols and Requirements, would also be used for passenger ropeways authorized by other types of special use authorizations besides the Ski Area Term Special Use Permit. The submission requirements in new form FS-7300-0006 align with American National Standard Institute Standard B77.1 (ANSI B77.1) for passenger ropeways, which has been adopted by the Forest Service on National Forest System lands. ANSI B77.1 enumerates documentation, certification, and other requirements for ensuring the integrity of the design, construction, maintenance, and operational safety of passenger

ropeways. New form FS-7300-0006 is needed to ensure that holders of ski area permits or other types of special use authorizations authorizing passenger ropeways submit the requisite information and documentation for Forest Service engineers to assess whether new or relocated passenger ropeways meet design, construction, maintenance, and operational safety requirements in ANSI B77.1.

Estimated Annual Burden: 1 burden hour per response.

Type of Respondents: Businesses and other non-federal organizations and entities.

Estimated Annual Number of Respondents: 8.

Estimated Annual Number of Responses per Respondent: 8.

Estimated Total Annual Burden on Respondents: 72 hours.

Comment is Invited: Comment is invited on (1) whether this collection of information is necessary for the stated purposes and the proper performance of the functions of the Agency, including whether the information will have practical or scientific utility; (2) the accuracy of the Agency’s estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the submission request provided to the Office of Management and Budget for approval.

Deborah Oakeson,

Acting Director Engineering, Technology and Geospatial Services.
