additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled ADDRESSES). The additional materials must clearly identify electronic comments by your name, date, and the docket number so that the agency can attach them to your comments.

Due to security procedures, the use of regular mail may cause a significant delay in the receipt of comments.

Comments and submissions are posted without change at http://www.regulations.gov. Therefore, OSHA cautions commenters about submitting personal information such as social security numbers and dates of birth. Although all submissions are listed in the http://www.regulations.gov index, some information (e.g., copyrighted material) is not publicly available to read or download through this website. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the http://www.regulations.gov website to submit comments and access the docket is available at the website’s “User Tips” link. Contact the OSHA Docket Office at (202) 693–2350, (TTY (877) 889–5627) for information about materials not available through the website, and for assistance in using the internet to locate docket submissions.

V. Authority and Signature

James S. Frederick, Acting Assistant Secretary of Labor for Occupational Safety and Health authorized the preparation of this notice. The agency is issuing this notice pursuant to Section 8(g)(2) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 657(g)(2)), Secretary of Labor’s Order No. 1–2012 (77 FR 3912, Jan. 25, 2012), OSHA’s Program Regulation for Nationally Recognized Testing Laboratories, 29 CFR 1910.7, and the Paperwork Reduction Act of 1995 (44 U.S.C. 3506 et seq.).

Signed at Washington, DC, on May 21, 2021.

James S. Frederick,
Acting Assistant Secretary of Labor for Occupational Safety and Health.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

Name of Information Collection: KSC COVID–19 Vaccine Scheduling Application

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of information collection.

SUMMARY: The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections.

DATES: Comments are due by June 28, 2021.

ADDRESSES: Written comments and recommendations for this information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Claire Little, NASA Clearance Officer, NASA Headquarters, 300 E Street SW, JF0000, Washington, DC 20546 or email claire.a.little@nasa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

Kennedy Space Center (KSC) has been tasked by National Aeronautics and Space Administration (NASA) to prepare to provide COVID–19 vaccines to a prioritized set of employees. These vaccines could be provided to KSC by either the State of Florida Department of Health (via the Florida State Health Online Tracking System (SHOTS) program) or directly by the Federal Government.

Employee data and other medical data related to the vaccination, is required by the State of Florida to be uploaded to the Florida SHOTS website within 24 hours of vaccination. This data is also required by NASA to be entered into the Agency’s CORITY electronic health records system, and subsequently be provide to the Centers for Disease Control and Prevention (CDC).

II. Methods of Collection

Eventbrite will be used to gather a subset of this data electronically directly from the employee during registration in lieu of manual entry based on a completed paper form.

III. Data

Title: KSC COVID–19 Vaccine Scheduling application.

OMB Number: 2700–.

Type of review: New.

Affected Public: Government Contractors and Civil Servants.

Estimated Annual Number of Activities: 1

Estimated Number of Respondents per Activity: 3,336.

Annual Responses: 3,336.

Estimated Time per Response: 5 minutes.

Estimated Total Annual Burden Hours: 278 hours.

Estimated Total Annual Cost: $11,073.60.

IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA’s estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

Lori Parker,
NASA PRA Clearance Officer.

NUCLEAR REGULATORY COMMISSION

[NUC–2020–0231]

Risk-Informed, Performance-Based Fire Protection for Existing Light-Water Nuclear Power Plants

AGENCY: Nuclear Regulatory Commission.

ACTION: Regulatory guide; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing Revision 2 to Regulatory Guide (RG), RG 1.205, “Risk-Informed, Performance-Based Fire
Protection for Existing Light-Water Nuclear Power Plants.” This RG describes an approach that is acceptable to the NRC staff to meet the regulatory requirements in the NRC’s regulations and the National Fire Protection Association (NFPA) Standard 805, “Performance-Based Standard for Fire Protection for Light Water Reactor Electric Generating Plants,” 2001 Edition, which is incorporated by reference in the NRC’s regulations.

DATES: Revision 2 to RG 1.205 is available on May 28, 2021.

ADDRESSES: Please refer to Docket ID NRC–2020–0231 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- **Federal Rulemaking Website:** Go to https://www.regulations.gov and search for Docket ID NRC–2020–0231. Address questions about Docket IDs in Regulations.gov to Stacy Schumann; telephone: 301–415–0624; email: Stacy.Schumann@nrc.gov. For technical questions, contact the individuals listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- **NRC’s Agencywide Documents Access and Management System (ADAMS):** You may obtain publicly available documents online in the ADAMS Public Documents collection at https://www.nrc.gov/reading-rm/adams.html. To begin the search, select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.

- **Attention:** The PDR, where you may examine and order copies of public documents, is currently closed. You may submit your request to the PDR via email at pdr.resource@nrc.gov or call 1–800–397–4209 or 301–415–4737, between 8:00 a.m. and 4:00 p.m. (EST), Monday through Friday, except Federal holidays.

Revision 2 to RG 1.205 and the regulatory analysis may be found in ADAMS under Accession Nos. ML21048A448 and ML20231A891, respectively. Regulatory guides are not copyrighted, and NRC approval is not required to reproduce them.

SUPPLEMENTARY INFORMATION:

I. Discussion

The NRC is issuing a revision in the NRC’s “Regulatory Guide” series. This series was developed to describe and make available to the public information regarding methods that are acceptable to the NRC staff for implementing specific parts of the agency’s regulations, techniques that the NRC staff uses in evaluating specific issues or postulated events, and data that the NRC staff needs in its review of applications for permits and licenses.

Revision 2 to RG 1.205 was issued with a temporary identification of Draft Regulatory Guide, DG–1360. This revision of the guide (Revision 2) addresses new information identified since the guide was previously revised in 2009. This RG updates the previous staff positions and endorsements made regarding earlier versions of Nuclear Energy Institute (NEI) guidance documents, NEI–04–02, “Guidance for Implementing a Risk-Informed, Performance-Based Fire Protection Program Under 10 CFR 50.48(c),” and NEI 00–01, “Guidance for Post Fire Safe Shutdown Circuit Analysis.” This revision endorses NEI 00–01, Revision 4, issued 2019, and includes guidance concerning fire-induced circuit failures.

II. Additional Information

The NRC published a notice of the availability of DG–1360 in the Federal Register on November 16, 2020 (85 FR 73088) for a 45-day public comment period. The public comment period closed on December 31, 2020. Public comments on DG–1360 and the staff responses to the public comments are available in ADAMS under Accession No. ML21048A449.

III. Congressional Review Act

This RG is a rule as defined in the Congressional Review Act (5 U.S.C. 801–808). However, the Office of Management and Budget has not found it to be a major rule as defined in the Congressional Review Act.

IV. Backfitting, Forward Fitting, and Issue Finality

RG 1.205, Revision 2, would incorporate the latest information concerning risk-informed, performance-based fire protection programs and supporting guidance. Issuance of RG 1.205, Revision 2, would not constitute backfitting, as that term is defined in section 50.109 of title 10 of Code of Federal Regulations (CFR).

“Backfitting,” and as described in NRC Management Directive (MD) 8.4, “Management of Backfitting, Forward Fitting, Issue Finality, and Information Requests”; constitute forward fitting, as that term is defined and described in MD 8.4; or affect the issue finality of any approval issued under 10 CFR part 52. As explained in RG 1.205, Revision 2, applicants and licensees would not be required to comply with the positions set forth in RG 1.205, Revision 2.

Dated: May 24, 2021.

For the Nuclear Regulatory Commission.

Meraj Rahimi,
Chief, Regulatory Guidance and Generic Issues Branch, Division of Engineering, Office of Nuclear Regulatory Research.

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[NRC–2020–0230]

Fire Protection for Nuclear Power Plants

AGENCY: Nuclear Regulatory Commission.

ACTION: Regulatory guide; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing Revision 4 to Regulatory Guide (RG), 1.189, “Fire Protection for Nuclear Power Plants.” This RG describes an approach that is acceptable to the NRC staff to meet the regulatory requirements in the NRC’s regulations governing a civilian nuclear power generating plant’s fire protection program.

DATES: Revision 4 to RG 1.189 is available on May 28, 2021.

ADDRESSES: Please refer to Docket ID NRC–2020–0230 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- **Federal Rulemaking Website:** Go to https://www.regulations.gov and search for Docket ID NRC–2020–0230. Address questions about Docket IDs in Regulations.gov to Stacy Schumann; telephone: 301–415–0624; email: Stacy.Schumann@nrc.gov. For technical questions, contact the individuals listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.
