SUPPLEMENTARY INFORMATION:

I. Background

ACCSH advises the Secretary of Labor and the Assistant Secretary of Labor for Occupational Safety and Health (Assistant Secretary) in the formulation of standards affecting the construction industry, and on policy matters arising in the administration of the safety and health provisions under the Contract Work Hours and Safety Standards Act (Construction Safety Act (CSA)) (40 U.S.C. 3701 *et seq.*) and the Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) (see also 29 CFR 1911.10 and 1912.3). In addition, the CSA and OSHA regulations require the Assistant Secretary to consult with ACCSH before the agency proposes any occupational safety and health standard affecting

construction activities (40 U.S.C. 3704); 29 CFR 1911.10.

ACCSH operates in accordance with the Federal Advisory Committee Act (FACA), as amended (5 U.S.C. App. 2), and its implementing regulations (41 CFR 102–3 *et seq.*); and Department of Labor Manual Series Chapter 1–900 (8/31/2020). ACCSH generally meets two to four times a year.

II. Appointment of Committee Members

ACCSH consists of 15 members appointed by the Secretary. ACCSH members generally serve two-year terms, unless they resign, cease to be qualified, become unable to serve, or the Secretary removes them (29 CFR 1912.3(e)). The Secretary may appoint ACCSH members to successive terms. The allocation of members for each category of ACCSH membership is:

- Five members who are qualified by experience and affiliation to present the viewpoint of employees in the construction industry;
- Five members who are similarly qualified to present the viewpoint of employers in the construction industry;
- Two public members, qualified by knowledge and experience to make a useful contribution to the work of ACCSH, such as those who have professional or technical experience and competence with occupational safety and health in the construction industry;
- Two representatives of State safety and health agencies; and
- One representative designated by the Secretary of the Department of Health and Human Services.

OSHA received nominations of highly qualified individuals in response to the agency's request for nominations (85 FR 79221, December 9, 2020). Nationally Recognized Testing Laboratory Program Regulation; Extension of the Office of Management and Budget's (OMB) Approval of Information Collection (Paperwork) Requirements

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Request for comments.

SUMMARY: OSHA requests comments concerning the proposed extension of the information collection requirements specified by the Program Regulation for Nationally Recognized Testing

Laboratories (the Regulation). The Regulation specifies procedures that organizations must follow to apply for, and to maintain, OSHA's recognition to test and certify equipment, products, or material for safe use in the workplace.

DATES: Submit comments, information, and documents in response to this notice, or requests for an extension of time to make a submission, on or before July 27, 2021.

ADDRESSES:

Electronically: You may submit comments, including attachments, electronically at <http://www.regulations.gov>, the Federal eRulemaking Portal. Follow the instructions online for submitting comments.

Docket: To read or download comments or other material in the docket, go to <http://www.regulations.gov>. Documents in the docket are listed in the <http://www.regulations.gov> index; however, some information (e.g., copyrighted material) is not publicly available to read or download through the website. All submissions, including copyrighted material, are available for inspection through the OSHA Docket Office. Contact the OSHA Docket Office for assistance in locating docket submissions.

Instructions: All submissions must include the agency name and the OSHA docket number for this **Federal Register** notice (OSHA-2017-0014). OSHA will place comments and requests to speak, including personal information, in the public docket, which may be available online. Therefore, OSHA cautions interested parties about submitting personal information such as Social Security numbers and birthdates. For further information on submitting comments, see the "Public Participation" heading in the section of this notice titled **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT:

Seleda Perryman or Theda Kenney, Directorate of Standards and Guidance, OSHA, U.S. Department of Labor, Washington, DC; telephone (202) 693-2222.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of the continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA-95) (44

U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection from employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires OSHA to obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

A number of standards issued by OSHA contain requirements that specify employers use only equipment, products, or material tested or approved by a Nationally Recognized Testing Laboratory (NRTL). These requirements ensure that employers use safe and efficacious equipment, products, or materials in complying with the standards. Accordingly, OSHA promulgated the Program Regulation for Nationally Recognized Testing Laboratories, 29 CFR 1910.7 (the Regulation). The Regulation specifies procedures that organizations must follow to apply for, and to maintain, OSHA's recognition to test and certify equipment, products, or material for safe use in the workplace.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

1. Whether the proposed information collection requirements are necessary and useful for the proper performance of the agency's functions;
2. The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
3. The quality, utility, and clarity of the information collected; and
4. Ways to minimize the burden on organizations that must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA proposes to extend the Office of Management and Budget's (OMB) approval of the collection of information requirements specified by the Regulation. The agency revised the

estimate of the number of audits it conducts each year upward, from 44 to 47, because the agency has recognized three additional NRTLs, bringing the total number of recognized laboratories to 23. This revised estimate accounts for the increased burden hours to complete paperwork, from 1,523 to 1,571 and the increased total costs to respondents resulting from collections of information, from \$728,352 to \$757,440. The agency also revised its average hourly rate estimate for an electrical engineer upward, from \$47.41 to \$74.18, based on current BLS data. This revised estimate and the agency's revised estimate for the number of audits it conducts each year accounts for the increased cost estimates to complete paperwork, from \$72,205.43 to \$116,589.45. The agency will summarize the comments submitted in response to this Notice, and will include this summary in the request to OMB to revise the approval of these information collection requirements.

Type of Review: Extension of a currently approved information collection.

OMB Control Number: 1218-0147.

Affected Public: Business or other for-profit.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows: (1) Electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by facsimile (fax); or (3) by hard copy. Please note: While OSHA's Docket Office is continuing to accept and process submissions by regular mail, due to the COVID-19 pandemic, the Docket Office is closed to the public and not able to receive submissions to the docket by hand, express mail, messenger, and courier service. All comments, attachments, and other material must identify the agency name and the OSHA docket number for the ICR (Docket No. OSHA-2010-0007). You may supplement electronic submissions by uploading document files electronically. If you wish to mail

additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled **ADDRESSES**).
