Seamless Carbon and Alloy Steel Standard, Line, and Pressure Pipe from the People’s Republic of China: Final Results of Expired Second Sunset Review of the Countervailing Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: As a result of this sunset review, the Department of Commerce (Commerce) finds that revocation of the countervailing duty (CVD) order on seamless carbon and alloy steel standard, line and pressure pipe (seamless pipe) from the People’s Republic of China (China) would likely lead to the continuation or recurrence of countervailable subsidies at the levels indicated in the “Final Results of Sunset Review” section of this notice.

SUPPLEMENTARY INFORMATION:

Background

On November 10, 2010, Commerce published the CVD Order on seamless pipe from China in the Federal Register. On February 16, 2021, BENTLELER Steel/Tube Manufacturing Corp., Tenaris Bay City, Inc., and IPSCO Tubulars Inc. (in combination, Tenaris USA), United States Steel Corporation (U.S. Steel), and Vallourec Star, L.P. (Vallourec) (collectively, domestic producers) filed timely notices of intent to participate in accordance with 19 CFR 351.218(d)(1). Each of these companies claimed interested party status under section 771(9)(C) of the Act, as U.S. producers of the domestic like product.

On March 3, 2021, Commerce received an adequate substantive response collectively from the domestic industry within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i). Commerce did not receive substantive responses from any other domestic or respondent interested parties in this proceeding, nor was a hearing requested.

On March 23, 2021, Commerce notified the U.S. International Trade Commission that it did not receive an adequate substantive response from respondent interested parties. Accordingly, Commerce conducted an expired (120-day) sunset review of the CVD Order, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(i)(B) and (C)(2).

Scope of the Order

The scope of this order consists of certain seamless carbon and alloy steel (other than stainless steel) pipes and redraw hollows, less than or equal to 16 inches (406.4 mm) in outside diameter, regardless of wall-thickness, manufacturing process (e.g., hot-finished or cold-drawn), end finish (e.g., plain end, beveled end, upset end, threaded, or threaded and coupled), or surface finish (e.g., bare, lacquered or coated). Redraw hollows are any unfinished carbon or alloy steel (other than stainless steel) pipe or “hollow profiles” suitable for cold finishing operations, such as cold drawing, to meet the American Society for Testing and Materials (ASTM) or American Petroleum Institute (API) specifications referenced below, or comparable specifications. Specifically included within the scope are seamless carbon and alloy steel (other than stainless steel) standard, line, and pressure pipes produced to the ASTM A–53, ASTM A–106, ASTM A–333, ASTM A–358, ASTM A–795, ASTM A–1024, and the API 5L specifications, or comparable specifications.

Specifically excluded from the scope of the order are: (1) All pipes meeting aerospace, hydraulic, and bearing tubing specifications; (2) all pipes meeting the chemical requirements of ASTM A–335, whether finished or unfinished; and (3) unattached couplings. Also excluded from the scope of the order are all mechanical, boiler, condenser and heat exchange tubing, except when such products conform to the dimensional requirements, i.e., outside diameter and wall thickness of ASTM A–53, ASTM A–106 or API 5L specifications.

Although the HTSUS subheadings are provided for convenience and customs purposes, our written description of the merchandise subject to this scope is dispositive.

Analysis of Comments Received

All issues raised in this sunset review are addressed in the Issues and Decision Memorandum. A list of the topics
discussed in the Issues and Decision Memorandum is attached as an appendix to this notice. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at http://access.trade.gov. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at https://enforcement.trade.gov/frn.

Final Results of Sunset Review

Pursuant to sections 751(c)(1) and 752(b) of the Act, we determine that revocation of the CVD Order on seamless pipe from China would be likely to lead to continuation or recurrence of a net countervailable subsidy at the following rates:

<table>
<thead>
<tr>
<th>Manufacturers/producers/exporters</th>
<th>Net countervailable subsidy (percent)</th>
</tr>
</thead>
<tbody>
<tr>
<td>All Others ...............................................................................................................</td>
<td>28.90</td>
</tr>
</tbody>
</table>

Notification Regarding Administrative Protective Order (APO)

This notice serves as the only reminder to parties subject to APO of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a). Timely notification of destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

Notification to Interested Parties

Commerce is issuing and publishing these final results and this notice in accordance with sections 751(c), 752(b), and 777(i)(1) of the Act and 19 CFR 351.218.

Dated: May 27, 2021.

Christian Marsh,
Acting Assistant Secretary for Enforcement and Compliance.

Circular Welded Carbon Steel Pipes and Tubes From the Republic of Turkey: Preliminary Results of Countervailing Duty Administrative Review and Intent To Rescind the Review, in Part; Calendar Year 2019

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) preliminarily determines that exporters/producers of circular welded carbon steel pipes and tubes from the Republic of Turkey (Turkey) received countervailable subsidies during the period of review (POR), January 1, 2019, through December 31, 2019.

SUPPLEMENTARY INFORMATION:

Background

On March 7, 1986, Commerce published in the Federal Register the countervailing duty order on circular welded carbon steel pipes and tubes from Turkey.1 On May 6, 2020, Commerce published a notice of initiation of an administrative review of the Order covering 37 companies.2 On June 2, 2020, Commerce selected the Borusan Companies3 as the sole mandatory respondent for individual examination in this administrative review.4 On July 21, 2020, Commerce tolled all deadlines in administrative reviews by 60 days.5 On December 7, 2020, Commerce extended the due date of the preliminary results of this administrative review until May 28, 2021.6

For a complete description of the events that followed the initiation of this review, see the Preliminary Decision Memorandum.7 A list of topics discussed in the Preliminary Decision Memorandum is included in the appendix to this notice. The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System.
