docket number for this rulemaking, indicate the specific section of this document to which each comment applies, and provide a reason for each suggestion or recommendation.

We encourage you to submit comments through the Federal eRulemaking Portal at https://www.regulations.gov. If your material cannot be submitted using https://www.regulations.gov, call or email the person in the "FURTHER INFORMATION CONTACT" section of this document for alternate instructions.

We accept anonymous comments. All comments received will be posted without change to https://www.regulations.gov and will include any personal information you have provided. For more about privacy and submissions in response to this document, see DHS’s eRulemaking System of Records notice (85 FR 14226, March 11, 2020).

Documents mentioned in this NPRM as being available in the docket, and all public comments, will be in our online docket at https://www.regulations.gov and can be viewed by following that website’s instructions. Additionally, if you go to the online docket and sign up for email alerts, you will be notified when comments are posted or a final rule is published.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

For the reasons discussed in the preamble, the Coast Guard is proposing to amend 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

1. The authority citation for part 165 continues to read as follows:

Authority: 46 U.S.C. 70034, 70051; 33 CFR 1.05–1, 6.04–1, 6.04–6, and 160.5; Department of Homeland Security Delegation No. 0170.1.

2. Add §165.708–0274 to read as follows:

§165T08–0274 Safety Zone; Cumberland River, Mile Markers 128.0–128.3, Clarksville, TN.

(a) Location. The following area is a safety zone: All navigable waters of the Cumberland River from mile marker 128.0 to mile marker 128.3.

(b) Period of enforcement. This rule will be enforced from 10 p.m. until 10:30 p.m. on July 3, 2021.

(c) Regulations.

(1) In accordance with the general regulations in §165.23 of this part, entry into this zone is prohibited unless specifically authorized by the Captain of the Port Sector Ohio Valley (COTP) or a designated representative. No vessel or person will be permitted to enter the safety zone without obtaining permission from the COTP or a designated representative. They may be contacted on VHF–FM radio channel 16 or phone at 1–800–253–7465.

(2) Persons and vessels permitted to enter the safety zone must transit at the slowest safe speed and comply with all lawful directions issued by the COTP or a designated representative.

(d) Informational Broadcasts. The COTP or a designated representative will inform the public of the enforcement times and date for this safety zone through Broadcast Notices to Mariners, Local Notices to Mariners, and/or Safety Marine Information Broadcasts as appropriate.

A.M. Beach,
Captain, U.S. Coast Guard, Captain of the Port Sector Ohio Valley.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

Air Plan Approval; California; San Diego County Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve a revision to the San Diego County Air Pollution Control District (SDCAPCD or District) portion of the California State Implementation Plan (SIP). This revision concerns emissions of volatile organic compounds (VOCs) from gasoline transfers into underground stationary storage tanks at gasoline dispensing facilities. We are proposing to approve a local rule to regulate these emission sources under the Clean Air Act (CAA or the Act). We are taking comments on this proposal and plan to follow with a final action.

DATES: Comments must be received on or before July 7, 2021.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–R09–OAR–2021–0366 at https://www.regulations.gov. For comments submitted at Regulations.gov, follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from Regulations.gov. The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (i.e. on the web, cloud, or other file sharing system). For additional submission methods, please contact the person identified in the "FURTHER INFORMATION CONTACT" section. For the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit https://www.epa.gov/dockets/commenting-epa-dockets.

FOR FURTHER INFORMATION CONTACT: Rebecca Newhouse, EPA Region IX, 75 Hawthorne St., San Francisco, CA 94105. By phone: (415) 972–3004 or by email at newhouse.rebecca@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document, “we,” “us” and “our” refer to the EPA.

Table of Contents

I. The State’s Submittal

A. What rule did the State submit?
B. Are there other versions of this rule?
C. What is the purpose of the submitted rule?

II. The EPA’s Evaluation and Action

A. How is the EPA evaluating the rule?
B. Does the rule meet the evaluation criteria?
C. The EPA’s Recommendations To Further Improve the Rule

D. Public Comment and Proposed Action

III. Incorporation by Reference

IV. Statutory and Executive Order Reviews

I. The State’s Submittal

A. What rule did the State submit?

Table 1 lists the rule addressed by this proposal with the dates that it was adopted by the local air agency and submitted by the California Air Resources Board (CARB).
On February 9, 2018, the submittal for Rule 61.3.1 was deemed by operation of law to meet the completeness criteria in 40 CFR part 51 Appendix V, which must be met before formal EPA review.

B. Are there other versions of this rule?

We approved Rule 61.3: Transfer of Volatile Organic Compounds Into Stationary Storage Tanks (revised October 16, 1990) into the SIP on June 30, 1993 (58 FR 34906). Rule 61.3 applies to gasoline transfers into aboveground and underground stationary storage tanks at gasoline dispensing facilities (GDFs). SDCAPCD adopted a separate rule, Rule 61.3.1, to update requirements for gasoline transfers to underground storage tanks at GDFs on March 1, 2006, and CARB submitted the rule to the EPA on August 9, 2017.

C. What is the purpose of the submitted rule?

Emissions of VOCs contribute to the production of ground-level ozone, smog, and particulate matter, which harm human health and the environment. Section 110(a) of the CAA requires states to submit regulations that control VOC emissions. SIP-approved Rule 61.3 regulates emissions from gasoline transfers at GDFs. Rule 61.3.1, adopted in 2006, further limits VOC emissions from gasoline transfers into underground storage tanks at GDFs, and requires underground storage tanks at GDFs to have CARB-certified vapor recovery systems meeting a vapor control efficiency of 98% and CARB-recovery systems meeting a vapor recovery rate of 98%. The District intends to re-number Rule 61.3.1, which together with Rule 61.3 would establish current RACT for this category. 2

The SDCAPCD submitted a supplement to the original submittal of Rule 61.3.1, which was transmitted by CARB to the EPA on December 28, 2020, and included updated public notice documentation that cured the public notice deficiency from the original submittal of Rule 61.3.1.4 The EPA’s TSD has more information about this rule.

II. The EPA’s Evaluation and Action

A. How is the EPA evaluating the rule?

Rules in the SIP must be enforceable (see CAA section 110(a)(2)), must not interfere with applicable requirements concerning attainment and reasonable further progress or other CAA requirements (see CAA section 110(l)), and must not modify certain SIP control requirements in nonattainment areas without ensuring equivalent or greater emissions reductions (see CAA section 193).

Generally, SIP rules must require reasonably available control technology (RACT) for each category of sources covered by a CTG document as well as each major source of VOCs in ozone nonattainment areas classified as moderate or above (see CAA section 182(b)(2)). The SDCAPCD regulates an ozone nonattainment area classified as a “Serious” nonattainment area for the 2008 8-hour ozone National Ambient Air Quality Standard (NAAQS) and a “Moderate” nonattainment area for the 2015 8-hour ozone NAAQS (see 40 CFR 81.305). Therefore, this rule must implement RACT. As this rule regulates only a subset of the sources covered by the CTG, our action evaluates whether Rules 61.3 and 61.3.1 together implement RACT for the entire Stage I Gasoline Transfer CTG source category.

Guidance and policy documents that we used to evaluate enforceability, revision/relaxation, and rule stringency requirements for the applicable criteria pollutants include the following:

B. Does the rule meet the evaluation criteria?

This rule is consistent with CAA requirements and relevant guidance regarding enforceability, RACT, and SIP revisions. Specifically, the rule requirements sufficiently ensure that affected sources and regulators can consistently evaluate and determine compliance. Additionally, our analysis finds that Rule 61.3.1 and Rule 61.3 together represent current RACT for the Stage I Gasoline Transfer CTG, because the rules are more stringent than the CTG, and are generally consistent with requirements in other air districts for gasoline transfers into stationary storage tanks at GDFs. Lastly, Rule 61.3.1 will

1 The District supplemented its submittal by providing additional proof of public notice, submitted by CARB to the EPA on December 28, 2020. Letter dated December 28, 2020, from Richard W. Corey, Executive Officer, CARB, to John W. Busted, Regional Administrator, EPA, Region IX, transmitting the proof of public notice in The Daily Transcript, and Minute Order No.1 from the SDCAPCD Board hearing on October 14, 2020.

3 85 FR 48127, 48131.

4 Letter dated December 28, 2020, from Richard W. Corey, Executive Officer, CARB, to John W. Busted, Regional Administrator, EPA, Region IX, transmitting the proof of public notice in The Daily Transcript, and Minute Order No.1 from the SDCAPCD Board hearing on October 14, 2020.
IV. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA’s role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this proposed action merely proposes to approve state law as meeting federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this proposed action:

• Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
• Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 et seq.);
• Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.);
• Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4).

III. Incorporation by Reference

In this rule, the EPA is proposing to include in a final EPA rule regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is proposing to incorporate by reference the SDCAPCD rule described in Table 1 of this preamble. The EPA has made, and will continue to make, these materials available through https://www.regulations.gov and at the EPA Region IX Office (please contact the person identified in the FOR FURTHER INFORMATION CONTACT section of this preamble for more information).

trivial implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

II. Statutory and Executive Order Reviews

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Ozone, Reporting and recordkeeping requirements, Volatile organic compounds.

Authority: 42 U.S.C. 7401 et seq.

Dated: June 1, 2021.

Deborah Jordan,
Acting Regional Administrator, Region IX.

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[40 CFR—Regulations; Final, 2008 Ozone NAAQS; California; Eastern Kern Nonattainment Area

SUMMARY: In the Rules and Regulations section of this Federal Register, the Environmental Protection Agency (EPA) is granting a request by the California Air Resources Board (CARB or “State”) to voluntarily reclassify the Eastern Kern nonattainment area (“Eastern Kern”) from “Serious” to “Severe” for the 2008 8-hour ozone National Ambient Air Quality Standards (NAAQS) under section 181(b)(3) of the Clean Air Act (CAA). In this action, the EPA is proposing a schedule for the State to submit revisions to the state implementation plan (SIP) addressing severe area requirements and to submit revisions to the title V operating permit rules for this area. Under the EPA’s proposed schedule, California would be required to submit SIP revisions addressing severe area requirements for Eastern Kern, including revisions to New Source Review (NSR) rules, no later than 18 months from the effective date of the EPA’s final rule reclassifying Eastern Kern to Severe. Submittal of any corresponding revisions to the title V rules that apply in Eastern Kern would be due within six months of the effective date of the reclassification.

Lastly, the EPA is proposing a deadline for implementation of new Reasonably
