B. Annual Reporting Burden

Affected Public: Collections will be targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future. For the purposes of this request, “customers” are individuals, businesses, and organizations that interact with a Federal Government agency or program, either directly or via a Federal contractor. This could include individuals or households; businesses or other for-profit organizations; not-for-profit institutions; State, local or tribal governments; Federal government; and Universities.

Estimated Number of Respondents: 2,001,550.

Estimated Time per Response: Varied, dependent upon the data collection method used. The possible response time to complete a questionnaire or survey may be 3 minutes or up to 1.5 hours to participate in an interview.

Estimated Total Annual Burden Hours: 101,125.

Estimated Total Annual Cost to Public: $0.

C. Public Comments

The Department invites comments on:

(a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) the accuracy of the agency’s estimate of the burden (including hours and cost) of the proposed collection of information;

(c) ways to enhance the quality, utility, and clarity of the information to be collected; and

(d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

been no comparable assessment of knowledge and skills conducted to date. The Advisory Committee developed the collection tool to ensure its language is accessible and understandable to advocates; its questions will result in collection of data needed to identify gaps in knowledge and skills; and its structure is streamlined to ease burden. The information will be used by NCVLI to determine what training and technical assistance (TTA) is needed to ensure that communities have collaborative relationships between community-based and system-based advocates and other service professionals in order to provide trauma-informed and survivor-centered services regarding victims’ rights. This information will be used by OVW to ensure grantees are received targeted, informed training and technical assistance from NCVLI to ensure that grantees’ professional and community needs are being met. The collection will be national in scope and will inform the development of TTA for NCVLI’s national Project as well as future OVW criminal justice response programs.

The affected public are victim advocates (both system-based and community-based).

Explain Why Information Is Necessary, How It Will Be Collected (Electronically), How It Will Be Used

(5) An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond/reply: It is estimated that it will take the hoped for 150 respondents approximately 10 minutes each to complete this one-time online survey, which will ask respondents about their knowledge of existing victims’ rights laws as well as to evaluate their collaborative relationships. The survey will be a mix of multiple-choice, Likert scale and short narrative response questions. The information gathered will identify skill and knowledge gaps that can be addressed by OVW’s Improving Criminal Justice Response TTA Program.

(6) An estimate of the total public burden (in hours) associated with the collection: The total hour burden of this one-time data collection is 25 hours (150 respondents each taking 10 minutes each). Respondents will be responding to this information collection once.
