Notice of Availability of the Whitewater River Groundwater Replenishment Facility Project Draft Environmental Impact Statement, Riverside County, CA

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability.

SUMMARY: In accordance with the National Environmental Policy Act (NEPA) of 1969, as amended, and the Federal Land Policy and Management Act of 1976, as amended, the Bureau of Land Management (BLM) has prepared a Draft Environmental Impact Statement (EIS) for the Whitewater River Groundwater Replenishment Facility Project (Project), and by this notice is announcing the opening of a 45-day public comment period.

DATES: To ensure that all comments will be considered, the BLM must receive written comments on the Draft EIS within 45 days following the date that the EPA publishes its Notice of Availability (NOA) in the **Federal Register**. The EPA usually publishes its NOAs every Friday. The BLM will announce future meetings and any other public involvement activities at least 15 days in advance through public notices, news releases, the project website, and/or mailings.

ADDRESSES: The public may submit comments related to the project during the public comment period by using any of the following methods:

- *Project Website:* <https://go.usa.gov/x6xUc>.

- *Email:* BLM_CA_WhitewaterRecharge@blm.gov.

- *Mail:* Whitewater River Groundwater Replenishment Facility Project, Bureau of Land Management

Palm Springs—South Coast Field Office, 1201 Bird Center Drive, Palm Springs, CA 92262.

Copies of the Draft EIS are available for viewing electronically on the project website.

FOR FURTHER INFORMATION CONTACT:

Miriam Liberatore, BLM project manager, telephone: (541) 618-2412; email: mliberat@blm.gov; address Bureau of Land Management, 3040 Biddle Road, Medford, OR 97504.

Persons who use telecommunication devices for the deaf may call the Federal Relay Service (FRS) at 1-800-877-8339 to contact Ms. Liberatore during normal business hours. The FRS is available 24 hours a day, 7 days a week, to leave a message or question. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The Coachella Valley Water District (CVWD) seeks a right-of-way (ROW) grant from the BLM for its existing groundwater replenishment facility in North Palm Springs that is partially located on public lands managed by the BLM. The existing facility consists of water control berms, intake structures, conveyance structures, and 19 infiltration ponds over approximately 690 acres of BLM-managed public lands. The facility also includes 1,480 acres of lands held by CVWD. No new construction and no change in operations are proposed. The change in volume represents CVWD's request that the BLM analyze environmental impacts for the full annual capacity of the facility, instead of the anticipated water allotments, as was done for the previous grant. The change in acreage represents CVWD's request to authorize the use of public lands for water control berms upstream of its intake structure.

The BLM is the lead agency under NEPA and will make Federal decisions regarding the proposed plan amendment and the ROW for the Project. The U.S. Fish and Wildlife Service is a Cooperating Agency and will issue a Biological Opinion for the project. The United States Bureau of Indian Affairs, Agua Caliente Band of Cahuilla Indians, Desert Water Agency, and Metropolitan Water District of Southern California are Cooperating Agencies in this environmental review, but do not have direct permitting roles in the project.

The Proposed Action (Alternative 1) would authorize the facility in its existing configuration and would review the environmental impacts of infiltrating up to 511,000 acre-feet per year, representing the maximum physical capacity of the facility. In addition to the Proposed Action, the Draft EIS considers a no action

alternative and three action alternatives. Alternative 2 (Partial Implementation) would authorize only the area of public lands on which the water control structures upstream of the intake are located. Alternative 3 (Reduced Volume) would authorize the same facility as described under Alternative 1 but the environmental review would be based on an annual infiltration volume of 220,000 acre-feet per year. Alternative 4 (Land Disposal) would authorize the sale or exchange of the public lands within the project footprint and would authorize the facility operation on public lands for a period of 10 years, sufficient to implement the disposal. Alternative 5 (No Action) would not authorize those portions of the facility that are located on public lands. Those portions would be removed, and the public lands rehabilitated. Alternative 1 is the BLM preferred alternative.

Public input on these alternatives or other issues is important and will be considered in the development of the Final EIS.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

National Register of Historic Places; Notification of Pending Nominations and Related Actions

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: The National Park Service is soliciting electronic comments on the significance of properties nominated before May 29, 2021, for listing or related actions in the National Register of Historic Places.

DATES: Comments should be submitted electronically by June 28, 2021.

ADDRESSES: Comments are encouraged to be submitted electronically to *National_Register_Submissions@nps.gov* with the subject line “Public Comment on <property or proposed district name, (County) State>.” If you have no access to email you may send them via U.S. Postal Service and all other carriers to the National Register of Historic Places, National Park Service, 1849 C Street NW, MS 7228, Washington, DC 20240.

FOR FURTHER INFORMATION CONTACT: Sherry A. Frear, Chief, National Register of Historic Places/National Historic Landmarks Program, 1849 C Street NW, MS 7228, Washington, DC 20240, *sherry_frear@nps.gov*, 202–913–3763.

SUPPLEMENTARY INFORMATION: The properties listed in this notice are being considered for listing or related actions in the National Register of Historic Places. Nominations for their consideration were received by the National Park Service before May 29, 2021. Pursuant to Section 60.13 of 36 CFR part 60, comments are being accepted concerning the significance of the nominated properties under the National Register criteria for evaluation.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

DEPARTMENT OF THE INTERIOR

Bureau of Ocean Energy Management

[Docket No. BOEM–2021–0041]

Request for Interest in Commercial Leasing for Wind Power Development on the Gulf of Mexico Outer Continental Shelf (OCS)

AGENCY: Bureau of Ocean Energy Management, Interior.

ACTION: Request for interest; commercial leasing for wind power development on the Gulf of Mexico OCS.

SUMMARY: The Bureau of Ocean Energy Management (BOEM) issues this request for interest (RFI) to assess interest in, and to invite public comment on, possible commercial wind energy leasing on the Gulf of Mexico OCS. BOEM will consider information received in response to this RFI to determine whether to schedule a competitive lease sale or to issue a noncompetitive lease for any portion of the area described in this RFI (RFI Area). Even if you are not interested in identifying specific acreage for leasing consideration, BOEM is interested in understanding potential opportunities for all types of renewable energy development throughout the Gulf of Mexico. Those interested in leasing within the RFI Area for a commercial wind energy project should provide detailed and specific information described in the section of this RFI entitled “Required Indication of Interest Information.” Those interested in providing public comments and information regarding site conditions, resources, and multiple uses in close proximity to, or within, the RFI Area should provide information requested in the section of this RFI entitled “Requested Information from Interested or Affected Parties.” As a result of this RFI, BOEM may or may not issue a lease for a commercial wind energy project within the RFI Area; a lease is the first step in BOEM’s process to review and approve a commercial wind energy project. See the section of this RFI entitled “BOEM’s Planning and Leasing Process.”

DATES: Submissions indicating your interest in or providing comments on
