D. Can CBI be submitted using CISS?

Yes, CISS enables the user to submit CBI and substantiate that CBI claim in an electronic format. All information sent by the user via CDX is transmitted securely to protect CBI. CISS also guides the user through the process of submitting CBI by prompting the user to check a CBI checkbox if using a form or by submitting a scanned document containing CBI by bracketing, underlining, or otherwise marking the confidential information on the document prior to scanning. As with paper-based submissions, a sanitized copy of any document containing CBI would be included by the user in the electronic submission. The CISS reporting guidance instructs users on how to submit CBI and substantiate CBI claims information using CISS.

E. How will CBI be protected when submitting via CDX?

The Agency ensures secure transmission of the data, reports, and other documents sent from the user through the internet via the Transport Layer Security (TLS) 1.0 protocol. TLS 1.0 is a widely used approach for securing internet transactions and is endorsed by the National Institute of Standards and Technology (NIST) as a means for protecting data sent over the internet. See NIST Special Publication 800-52, "Guidelines for the Selection and Use of Transport Layer Security (TLS) Implementations," available online at: <http://csrc.nist.gov/publications/nistpubs/800-52/SP800-52.pdf>.

In addition, CISS enables the submitter to electronically sign, encrypt, and transmit submissions, which the Agency subsequently provides back to the user as an unaltered copy of record. This assures the user that the Agency has received exactly what the user sent to the Agency. CISS encrypts using a module based on the 256-bit Advanced Encryption Standard (AES) adopted by NIST. Details about AES can be found on the NIST website at: <http://csrc.nist.gov/publications/fips/fips197/fips-197.pdf>. EPA may incorporate other encryption modules into future versions of CISS. Information submitted via CDX

is processed within EPA by secure systems certified for compliance with Federal Information Processing Standards (FIPS) that are available online at: <http://www.nist.gov/itl/fips.cfm>.

III. Paperwork Reduction Act (PRA)

According to PRA, 44 U.S.C. 3501 *et seq.*, an agency may not conduct or sponsor, and a person is not required to respond to a collection of information that requires OMB approval under the PRA, unless it has been approved by OMB and displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register**, are listed in 40 CFR part 9, and included on the related collection instrument or form, if applicable.

The information collection requirements associated with export notifications under TSCA section 12(b) and contained in 40 CFR part 707, subpart D are approved by OMB pursuant to the PRA under OMB Control No. 2070-0030 (EPA ICR No. 0795.16) on May 18, 2021. This action does not impose any burden requiring additional OMB approval. The annual paperwork burden per export notification is estimated to average 19 hours for hardcopy submissions and 12 hours for electronic submissions. This burden estimate includes the time needed to review instructions, search existing data sources, gather and complete, review, and submit the required export notification to EPA. For additional details, please see the Information Collection Request document that is available in the docket.

Send any comments about the accuracy of the burden estimate, and any suggested methods for further minimizing respondent burden, including through the use of automated collection techniques, to the Director, Regulatory Support Division, Office of Mission Support (2822T), Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001. Please remember to include the OMB control number in any correspondence, but do not submit any export notifications or related questions to this address.

Dated: June 8, 2021.
