

(OMB) extend approval, under the Paperwork Reduction Act, of a collection of information with modifications. The purpose of this information collection is to survey insurance companies that provide group annuities for premium rates and related information to calibrate actuarial interest rate assumptions. The American Council of Life Insurers conducts this voluntary survey for PBGC. This notice informs the public of PBGC's request and solicits public comment on the collection.

DATES: Comments must be submitted by July 14, 2021.

SUPPLEMENTARY INFORMATION: PBGC's regulations prescribe actuarial valuation methods and assumptions (including interest rate assumptions) to be used to determine the actuarial present value of benefits under single-employer plans in involuntary or distress terminations (29 CFR part 4044) and the value of benefits

and certain assets under multiemployer plans that undergo a mass withdrawal of contributing employers (29 CFR part 4281). In each month immediately preceding the start of a new calendar quarter, PBGC publishes the interest rates to be used under those regulations for plans terminating or undergoing mass withdrawal during the next quarter.

The interest rates are intended to reflect current conditions in the annuity markets. To determine these interest rates, PBGC gathers premium rate data from insurance companies that are providing group annuity contracts to terminating pension plans through a quarterly survey. The American Council of Life Insurers (ACLI) distributes the survey and provides PBGC with "blind" data (*i.e.*, PBGC is unable to match responses with the insurance companies that submitted them). PBGC also uses the information from the survey in determining the interest rates it uses to value benefits payable to participants and beneficiaries in PBGC-trusted plans for purposes of PBGC's financial statements.

PBGC is proposing several changes to the survey distributed by ACLI:

- Addition of a question asking for specific information about the interest assumptions underlying the annuity premium rates reported in parts I and II of the survey. This information is needed to allow PBGC to better analyze annuity price data provided in the survey.
- Increases to the dollar ranges in the questions on respondents' group annuity business in part III to allow the survey to continue to capture the variability and range of business accepted by respondents as the prices of plan termination annuity contracts increase with inflation.
- Changes to the instructions to clarify that respondents should provide pricing information only for full plan terminations (and transactions priced consistently with full plan terminations), that the annuity premium rates provided should include reductions for investment expenses but exclude administrative expenses, and that respondents should assume that plan provisions are straightforward and do not contain significant levels of anti-selection, expensive options, or subsidies.

- Addition of a confirmation that administrative expenses are excluded from pricing information and an option to comment on any exceptions. This is needed for PBGC to compare pricing information amongst survey responses when respondents are unable to

completely exclude administrative expenses from pricing information.

- Consolidation and simplification of former parts III and IV into a new part III and elimination of questions asking for information PBGC no longer uses. These changes streamline and simplify the response process.

- Modification of a question asking for the volume of respondents' plan termination annuity business so that it requests annual data instead of quarterly data to reduce volatility in survey responses.

- Addition of a question soliciting feedback on how PBGC could improve the survey process.

- Addition of flexibility to conduct the survey electronically.

This voluntary survey is directed at insurance companies most, if not all, of which are members of ACLI. The survey is conducted quarterly and approximately 20 insurance companies will be asked to participate.

The existing collection of information was approved under OMB control number 1212-0030 (expires August 31, 2021). On April 1, 2021, PBGC published in the **Federal Register** (at 86 FR 17217) a notice informing the public of its intent to request an extension of this collection of information, as modified. No comments were received. PBGC is requesting that OMB extend approval of the collection (with modifications) for three years. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

PBGC estimates that about 6 insurance companies will respond to the survey each quarter, and that each survey will require approximately 30 minutes to complete and return. The total burden is estimated to be 12 hours (30 minutes per survey × 4 surveys per year × 6 respondents per quarter).

SUPPLEMENTARY INFORMATION: Section 4043 of the Employee Retirement Income Security Act of 1974 (ERISA) requires plan administrators and plan sponsors to report certain plan and employer events to PBGC. The reporting requirements give PBGC notice of events that indicate plan or employer financial problems. PBGC uses the information provided in determining what, if any, action it needs to take. For example, PBGC might need to institute proceedings to terminate a plan (placing

it in trusteeship) under section 4042 of ERISA to ensure the continued payment of benefits to plan participants and their beneficiaries or to prevent unreasonable increases in PBGC's losses.

The provisions of section 4043 of ERISA have been implemented in PBGC's regulation on Reportable Events and Certain Other Notification Requirements (29 CFR part 4043).

Form 10

Subparts B and C of the regulation deal with reportable events. PBGC has issued Forms 10 and 10-Advance and related instructions under subparts B and C (approved under OMB control number 1212-0013). PBGC is modifying the Form 10 for the "Failure to make required contributions" reportable event to provide that if payment was made to satisfy a missed contribution, the filer must submit documentation of that payment, e.g., a copy of the cancelled check or wire transfer, etc.

Documentation is needed to give evidence that the missed contribution was made up and no risk to the plan remains before PBGC closes the event.

PBGC estimates that it will receive 573 reportable event notices per year under subparts B and C of the reportable events regulation using Forms 10 and 10-Advance and that the average annual burden of this collection of information is 1,800 hours and \$426,885.

Form 200

Section 303(k) of the Employee Retirement Income Security Act of 1974 (ERISA) and section 430(k) of the Internal Revenue Code of 1986 (Code) impose a lien in favor of an underfunded single-employer plan that is covered by PBGC's termination insurance program if (1) any person fails to make a required payment when due, and (2) the unpaid balance of that payment (including interest), when added to the aggregate unpaid balance of all preceding payments for which payment was not made when due (including interest), exceeds \$1 million. (For this purpose, a plan is underfunded if its funding target attainment percentage is less than 100 percent.) The lien is upon all property and rights to property belonging to the person or persons that are liable for required contributions (i.e., a contributing sponsor and each member of the controlled group of which that contributing sponsor is a member).

Only PBGC (or, at its direction, the plan's contributing sponsor or a member of the same controlled group) may perfect and enforce this lien. ERISA and the Code require persons that fail to make payments to notify PBGC within

10 days of the due date whenever there is a failure to make a required payment and the total of the unpaid balances (including interest) exceeds \$1 million.

PBGC Form 200, Notice of Failure to Make Required Contributions, and related instructions implement the statutory notification requirement. Submission of Form 200 is required by 29 CFR 4043.81 (Subpart D of PBGC's regulation on Reportable Events and Other Notification Requirements, 29 CFR part 4043). PBGC currently requires filers to report the due date of the required payment that triggered the notification to PBGC and to calculate the cumulative amount of unpaid balances. PBGC is modifying the form to include a separate field showing the payment amount that triggered the notification in order to better track missed contributions and identify the amount by which liens associated with missed contributions must be updated.

PBGC estimates that it will receive 88 Form 200 filings per year and that the average annual burden of this collection of information is 88 hours and \$63,800.

Method of Filing

PBGC's reportable events and certain other notification requirements regulation (29 CFR part 4043) provides that reportable event notices required under this part must be filed electronically in accordance with the instructions posted on PBGC's website. Those instructions currently provide two options for electronic filing:

- Using the 4043 module of PBGC's e-filing portal, or
- Emailing a completed form and any required attachments to post-event.report@pbgc.gov.

PBGC's e-filing portal, which has been available since 2016, offers a secure application for submitting Form 200 and Form 10 and 10-Advance information. The e-filing portal allows filers to review filings and generate a list of omissions and inconsistencies prior to submission to ensure completeness; save a partially completed filing; modify information any time prior to submission; pre-populate a filing with data from a previously submitted filing; route the filing as needed to facilitate e-certifications; and review prior filings submitted via the e-filing portal. PBGC is eliminating the email option for filings due after September 30, 2021. In other words, starting in October 2021, these filings would be submitted via PBGC's e-filing portal.

PBGC also is making other editorial changes to the forms and instructions in these collections.

OMB approval of the information collection under control number 1212-

0013 expires March 31, 2023, and of the information collection under control number 1212-0041 expires February 28, 2022. On November 5, 2019, PBGC published in the **Federal Register** (at 84 FR 59660) a notice informing the public of its intent to request approval of modifications to these currently-approved information collections. No comments were received. PBGC is requesting that OMB extend its approval of these information collections for three years, with modifications. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.
