SUPPLEMENTARY INFORMATION: The BLM is processing an application under section 209 of the Federal Land Policy and Management Act (FLPMA) to convey the federally owned mineral interests that total 3,548.41 acres situated in Tooele County, Utah. The location of the federally owned mineral interests proposed for conveyance is identical in location to the privately owned surface interest of the applicant, and is described as follows:

Sec. 4, S^{1/2};

The area described totals 3,548.41 acres.

Under certain conditions, Section 209(b) of FLPMA authorizes the sale and conveyance of the federally owned mineral interests in land when the surface estate is not federally owned. The objective is to allow consolidation of the surface and mineral interests when either one of the following conditions exist: (1) There are no known mineral values in the land; or (2) The reservation of the mineral rights in the United States is interfering with or precluding appropriate nonmineral development of the land and such development is a more beneficial use of the land than mineral development. The applicant has deposited a sufficient sum

of funding to cover the administrative costs of processing the application, including, but not limited to, the cost of the mineral potential report.

Subject to valid existing rights, on June 15, 2021 the federally owned mineral interests in the land described above is hereby segregated from all forms of appropriation under the public land laws, including the mining laws. The segregative effect will terminate upon: (1) Issuance of a patent or other document of conveyance as to the mineral interests; (2) Final rejection of the application; or (3) June 15, 2023, whichever occurs first.

SUPPLEMENTARY INFORMATION: Section 337 of the Tariff Act of 1930 provides that, if the Commission finds a violation, it shall exclude the articles concerned from the United States:
