

distribution grid, and (5) cybersecurity challenges and needs associated with electrifying the transportation sector. Specific questions can be found in the RFI. The RFI is available at: <https://eere-exchange.energy.gov/>.

**Confidential Business Information:** Pursuant to 10 CFR 1004.11, any person submitting information that he or she believes to be confidential and exempt by law from public disclosure should submit via email two well-marked copies: One copy of the document marked “confidential” including all the information believed to be confidential, and one copy of the document marked “non-confidential” with the information believed to be confidential deleted. Submit these documents via email. DOE will make its own determination about the confidential status of the information and treat it according to its determination.

**Signing Authority:** This document of the Department of Energy was signed on June 10, 2021, by David Howell, Acting Director, Vehicle Technologies Office, Office of Energy Efficiency and Renewable Energy, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC, on June 10, 2021.

### Federal Energy Regulatory Commission

[Project No. 3273-000]

#### Chittenden Falls Hydropower, Inc.; Notice of Authorization for Continued Project Operation

On May 31, 2019, Chittenden Falls Hydropower, Inc., licensee for the Chittenden Falls Hydroelectric Project No. 3273, filed an Application for a Subsequent License pursuant to the Federal Power Act (FPA) and the Commission’s regulations thereunder. The Chittenden Falls Hydroelectric Project is located on Kinderhook Creek, near the Town of Stockport, Columbia County, New York.

The license for Project No. 3273 was issued for a period ending May 31, 2021. Section 15(a)(1) of the FPA, 16 U.S.C. 808(a)(1), requires the Commission, at the expiration of a

license term, to issue from year-to-year an annual license to the then licensee(s) under the terms and conditions of the prior license until a new license is issued, or the project is otherwise disposed of as provided in section 15 or any other applicable section of the FPA. If the project’s prior license waived the applicability of section 15 of the FPA, then, based on section 9(b) of the Administrative Procedure Act, 5 U.S.C. 558(c), and as set forth at 18 CFR 16.21(a), if the licensee of such project has filed an application for a subsequent license, the licensee may continue to operate the project in accordance with the terms and conditions of the license after the minor or minor part license expires, until the Commission acts on its application. If the licensee of such a project has not filed an application for a subsequent license, then it may be required, pursuant to 18 CFR 16.21(b), to continue project operations until the Commission issues someone else a license for the project or otherwise orders disposition of the project.

If the project is subject to section 15 of the FPA, notice is hereby given that an annual license for Project No. 3273 is issued to Chittenden Falls Hydropower, Inc, for a period effective June 1, 2021 through May 31, 2022 or until the issuance of a new license under the project or other disposition under the FPA, whichever comes first. If issuance of a new license (or other disposition) does not take place on or before May 31, 2022, notice is hereby given that, pursuant to 18 CFR 16.18(c), an annual license under section 15(a)(1) of the FPA is renewed automatically without further order or notice by the Commission, unless the Commission orders otherwise.

If the project is not subject to section 15 of the FPA, notice is hereby given that Chittenden Falls Hydropower, Inc. is authorized to continue operation of the Chittenden Falls Hydroelectric Project, until such time as the Commission acts on its application for a subsequent license.

Dated: June 10, 2021.
