

methodology for measuring patients' perceptions of their hospital experience. Since 2008, HCAHPS has allowed valid comparisons to be made across hospitals locally, regionally and nationally.

The national implementation of HCAHPS is designed to allow third-party CMS-approved survey vendors to administer HCAHPS using mail-only, telephone-only, mixed-mode (mail with telephone follow-up), or active IVR (interactive voice response). With respect to a telephone-only or mixed-mode survey, the CMS-approved survey vendors use electronic data collection or CATI systems. CATI is also used for telephone follow-up with mail survey non-respondents. With respect to IVR survey administration, the IVR technology gathers information from respondents by prompting respondents to answer questions by pushing the numbers on a touch-tone telephone. Patients selected for IVR mode are able to opt out of the interactive voice response system and return to a "live" interviewer if they wish to do so. *Form Number:* CMS-10102 (OMB control number: 0938-0981); *Frequency:* Occasionally; *Affected Public:* Individuals and Households; *Number of Respondents:* 2,843,617; *Total Annual Responses:* 2,843,617; *Total Annual Hours:* 347,648. Contents

This notice sets out a summary of the use and burden associated with the following information collections. More detailed information can be found in each collection's supporting statement and associated materials (see **ADDRESSES**).

CMS-10305 Medicare Part C and Part D Data Validation (42 CFR 422.516(g) and 423.514(j))

Under the PRA (44 U.S.C. 3501–3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires federal agencies to publish a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice.

Information Collection

1. Type of Information Collection Request: Revision of a currently approved collection; **Title of Information Collection:** Medicare Part C and Part D Data Validation (42 CFR 422.516(g) and 423.514(j)); **Use:** Sections 1857(e) and 1860D-12 of the Social Security Act ("the Act") authorize CMS to establish information collection requirements with respect to MAOs and Part D sponsors. Section 1857(e)(1) of the Act requires MAOs to provide the Secretary of the Department of Health and Human Services (DHHS) with such information as the Secretary may find necessary and appropriate. Section 1857(e)(1) of the Act applies to Prescription Drug Plans (PDPs) as indicated in section 1860D-12. Pursuant to statutory authority, CMS codified these information collection requirements in regulation at §§ 422.516(g) Validation of Part C Reporting Requirements, and 423.514(j) Validation of Part D Reporting Requirements respectively.

Data collected via Medicare Part C and Part D reporting requirements are an integral resource for oversight, monitoring, compliance and auditing activities necessary to ensure quality provision of Medicare benefits to beneficiaries. CMS uses the findings collected through the data validation process to substantiate the data reported via Medicare Part C and Part D reporting requirements. Data validation provides CMS with assurance that plan-reported data are credible and consistently collected and reported by Part C and D SOs. CMS uses validated data to

respond to inquiries from Congress, oversight agencies, and the public about Part C and D SOs. The validated data also allows CMS to effectively monitor and compare the performance of SOs over time. Validated plan-reported data may be used for Star Ratings, Display measures and other performance measures. Additionally, SOs can take advantage of the DV process to effectively assess their own performance and make improvements to their internal operations and reporting processes. *Form Number:* CMS-10305 (OMB control number: 0938-1115); *Frequency:* Yearly; *Affected Public:* State, Local, or Tribal Governments; *Number of Respondents:* 761; *Total Annual Responses:* 761; *Total Annual Hours:* 20,945.
