SUPPLEMENTARY INFORMATION:
The purpose of the ICTAP Training Survey is to obtain anonymous feedback regarding several of the training courses offered by the ICTAP. The feedback and experience given by survey respondents will assist the ICTAP in improving, revising, and updating the course materials for future students. The three courses which the ICTAP would like to obtain feedback are for:

• Communications Unit Leader (COML);
• Communications Unit Technician (COMT); and
• Information Technology Service Unit Leader (ITTS).

COML is designed for all state/territory, tribal, regional, and local emergency response professionals and for support personnel with a communications background. It is designed to familiarize these professionals with the role and responsibilities of a COML under the National Incident Management System (NIMS) Incident Command System (ICS) and to provide hands-on exercises that reinforce the lecture materials. CISA and FEMA Emergency Management Institute (EMI) offer this course jointly as “L0969, NIMS ICS All-Hazards Communications Unit Leader Course.” Under the NIMS ICS structure, a COML is the focal point within the Communications Unit. This course provides DHS-approved and NIMS-compliant instruction to ensure that every state/territory has trained personnel capable of coordinating on-scene emergency communications during a multi-jurisdictional response or planned event.

COML is designed for all state/territory, tribal, regional, and local emergency response professionals and for support personnel with a communications background. It is designed to familiarize these professionals with the role and responsibilities of a COML under the National Incident Management System.

The ICTAP Training Survey will not collect any personal identifiable information (PII) from respondents (emergency communications stakeholders) of the survey. In collecting feedback regarding the ITSL, COML, and COMT courses, the survey will collect what state the respondent lives, where they took the course, did the course provide the information needed, should the course curriculum be updated, and any comments to improve the course material. The survey will encompass 10 questions regarding the former student’s experience, anything that they liked, disliked, or something new that they would like to see incorporated into the refreshed class. It is estimated that it will take each participant 10 minutes to complete the training survey. For 300 respondents annually, the burden is 50 hours. To estimate the cost of this collection, CISA uses the mean hourly wage of “All Occupations” of $25.72. CISA then applies a load factor of 1.4597 to this average wage to obtain a fully loaded average hourly wage of $37.54. The total respondent cost burden for this collection is $1,877 (50 hours x $37.54).
