Notice of Sunshine Act Meeting Held With Less Than Seven Days Advance Notice

TIME AND DATE: 10:02 a.m. on Tuesday, June 15, 2021.

PLACE: The meeting was held via video conference on the internet and was webcast to the public.

MATTERS TO BE CONSIDERED: Pursuant to the provisions of the Government in the Sunshine Act, notice is hereby given that the Federal Deposit Insurance Corporation’s Board of Directors met in open session at 10:02 a.m. on Tuesday, June 15, 2021, to consider the following matters:

Summary Agenda
- Disposition of Minutes of a Board of Directors’ Meeting Previously Distributed.
- Memorandum and resolution re: Final Policy Statement regarding Minority Depository Institutions.
- Memorandum and resolution re: Notice of Proposed Rulemaking on Real Estate Lending Standards.
- Report of actions taken pursuant to authority delegated by the Board of Directors.

Discussion Agenda
- Briefing: Restoration Plan Semiannual Update.

In calling the meeting, the Board determined, on motion of Director Martin J. Gruenberg, seconded by Director David Uejio (Acting Director, Consumer Financial Protection Bureau), concurred in by Director Michael J. Hsu (Acting Comptroller of the Currency), and Chairman Jelena McWilliams, that Corporation business required its consideration of the matters on less than seven days’ notice to the public; and that no earlier notice of the meeting than that previously provided on June 10, 2021, was practicable.

Dated this the 15th day of June, 2021.

Federal Deposit Insurance Corporation.

James P. Sheesley,
Assistant Executive Secretary.

SUPPLEMENTARY INFORMATION:

Proposed Project
Nursing Home Survey on Patient Safety Culture Database

In 1999, the Institute of Medicine called for health care organizations to develop a “culture of safety” such that their workforce and processes focus on improving the reliability and safety of care for patients (IOM, 1999; To Err is Human: Building a Safer Health System). To respond to the need for tools to assess patient safety culture in health care, AHRQ developed and pilot tested the Nursing Home Survey on Patient Safety Culture with OMB approval (OMB NO. 0935–0132; Approved July 5, 2007). The survey was designed to enable nursing homes to assess provider and staff perspectives about patient safety issues, medical error, and error reporting and includes 42 items that measure 12 composites of patient safety culture. AHRQ made the survey publicly available along with a Survey User’s Guide and other toolkit materials in November 2008 on the AHRQ website.

The AHRQ Nursing Home SOPS Database consists of data from the AHRQ Nursing Home Survey on Patient Safety Culture. Nursing homes in the U.S. can voluntarily submit data from the survey to AHRQ through its contractor, Westat. The Nursing Home SOPS Database (OMB NO. 0935–0195, last approved on November 5, 2018) was developed by AHRQ in 2011 in response to requests from nursing homes interested in viewing their organizations’ patient safety culture survey results. Those organizations submitting data receive a feedback report, as well as a report on the aggregated de-identified findings of the other nursing homes submitting data. These reports are used to assist nursing home staff in their efforts to improve patient safety culture in their organizations.

Rationale for the information collection. The Nursing Home SOPS and Nursing Home SOPS Database support AHRQ’s goals of promoting improvements in the quality and safety of health care in nursing home settings. The survey, toolkit materials, and database results are all made publicly available on AHRQ’s website. Technical assistance is provided by AHRQ through its contractor at no charge to nursing homes, to facilitate the use of these materials for nursing home patient safety and quality improvement.

To achieve the goal of this project the following activities and data collections will be implemented:

1. Eligibility and Registration Form—The nursing home (or parent organization) point-of-contact (POC) completes a number of data submission steps and forms, beginning with the completion of an online Eligibility and Registration Form. The purpose of this form is to collect basic demographic information about the nursing home and initiate the registration process.

2. Data Use Agreement—The purpose of the data use agreement, completed by the nursing home POC, is to state how data submitted by nursing homes will be used and provides privacy assurances.

3. Nursing Home Site Information Form—The purpose of the site information form, completed by the nursing home POC, is to collect background characteristics of the nursing home. This information will be used to analyze data collected with the Nursing Home SOPS survey.

4. Data File(s) Submission—POCs upload their data file(s) using the data file specifications, to ensure that users submit standardized and consistent data in the way the variables are named, coded and formatted. The number of submissions to the database is likely to vary each year because nursing homes do not administer the survey and submit data every year. Data submission is typically handled by one POC who is either a corporate level health care manager for a Quality Improvement Organization (QIO), a survey vendor who contracts with a nursing home to collect their data, or a nursing home Director of Nursing or nurse manager. POCs submit data on behalf of 3 nursing homes, on average, because many nursing homes are part of a QIO or larger nursing home or health system that includes many nursing home sites, or the POC is a vendor that is submitting data for multiple nursing homes.

Method of Collection

Exhibit 1 shows the estimated annualized burden hours for the respondents’ time to participate in the database. An estimated 40 POCs, each representing an average of 3 individual nursing homes each, will complete the database submission steps and forms. Each POC will submit the following:

- Eligibility and registration form (completion is estimated to take about 3 minutes).
- Data Use Agreement (completion is estimated to take about 3 minutes).
- Nursing Home Site Information Form (completion is estimated to take about 5 minutes).
- Survey data submission will take an average of one hour.

The total annual burden hours are estimated to be 54 hours.

Exhibit 2 shows the estimated annualized cost burden based on the respondents’ time to submit their data. The cost burden is estimated to be $2,509 annually.

*The wage rate in Exhibit 2 is based on May 2019 National Industry-Specific Occupational Employment and Wage Estimates, Bureau of Labor Statistics, U.S. Dept. of Labor. Mean hourly wages for nursing home POCs are located at [https://www.bls.gov/oes/current/naics3_623000.htm](https://www.bls.gov/oes/current/naics3_623000.htm). The hourly wage of $46.45 is the weighted mean of $47.32 (General and Operations Managers 11–1021; N=26) and $44.82 (Medical and Health Services Managers 11–9111; N=14).

### Request for Comments

In accordance with the Paperwork Reduction Act, 44 U.S.C. 3501–3520, comments on AHRQ’s information collection are requested with regard to any of the following: (a) Whether the proposed collection of information is necessary for the proper performance of AHRQ’s health care research and health care information dissemination functions, including whether the information will have practical utility; (b) the accuracy of AHRQ’s estimate of burden (including hours and costs) of the proposed collection(s) of information; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information upon the respondents, including the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the Agency’s subsequent request for OMB approval of the proposed information collection. All comments will become a matter of public record.

Dated: June 16, 2021.

Marquita Cullom,
Associate Director.
