Foreign-Trade Zones Board

[B–11–2021]

Foreign-Trade Zone (FTZ) 38—Spartanburg County, South Carolina; Authorization of Production Activity; Bosch Security Systems, LLC; (Surveillance, Detection, Evacuation, and Management Systems); Greer, South Carolina

On February 17, 2021, Bosch Security Systems, LLC submitted a notification of proposed production activity to the FTZ Board for its facility within FTZ 38 in Greer, South Carolina.

The notification was processed in accordance with the regulations of the FTZ Board (15 CFR part 400), including notice in the **Federal Register** inviting public comment (86 FR 11496, February 25, 2021). On June 17, 2021, the applicant was notified of the FTZ Board's decision that no further review of the activity is warranted at this time.

The production activity described in the notification was authorized, subject to the FTZ Act and the FTZ Board's regulations, including Section 400.14.

Dated: June 17, 2021.

Elizabeth Whiteman,
Acting Executive Secretary.

Standard Steel Welded Wire Mesh From Mexico: Final Determination of Sales at Less Than Fair Value

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) determines that imports of standard steel welded wire mesh (wire mesh) from Mexico are being, or are likely to be, sold in the United States at less than fair value (LTFV) for the period of investigation April 1, 2019, through March 31, 2020.

DATES: Applicable June 23, 2021.

FOR FURTHER INFORMATION CONTACT: Alice Maldonado or Melissa Kinter, AD/CVD Operations, Office II, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-4682 or (202) 482-1413, respectively.

SUPPLEMENTARY INFORMATION:

Background

On February 1, 2021, Commerce published in the **Federal Register** its preliminary affirmative determination in the LTFV investigation of wire mesh from Mexico, in which we also postponed the final determination until June 16, 2021.¹ We invited interested parties to comment on the *Preliminary Determination*. A summary of the events that occurred since Commerce published the *Preliminary Determination*, as well as a full discussion of the issues raised by parties for this final determination, may be found in the Issues and Decision Memorandum.²

¹ See *Standard Steel Welded Wire Mesh from Mexico: Preliminary Affirmative Determination of Sales at Less Than Fair Value, Postponement of Final Determination, and, Extension of Provisional Measures*, 86 FR 7710 (February 1, 2021) (*Preliminary Determination*), and accompanying Preliminary Decision Memorandum.

Scope of the Investigation

The product covered by this investigation is wire mesh from Mexico. For a full description of the scope of this investigation, see the "Scope of the Investigation" in Appendix I of this notice.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs submitted by parties in this investigation are addressed in the Issues and Decision Memorandum. A list of the issues addressed in the Issues and Decision Memorandum is attached to this notice as Appendix II. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn/>.

Methodology—Adverse Facts Available (AFA)

For purposes of this final determination, we relied, in part, on facts available pursuant to section 776(a)(2)(A) of the Tariff Act of 1930, as amended (the Act). As discussed in the Issues and Decision Memorandum, because one respondent did not act to the best of its ability in responding to our requests for information, we drew adverse inferences, where appropriate, in selecting from among the facts otherwise available, pursuant to section 776(b) of the Act. The respondent, Deacero S.A.P.I. de C.V. (Deacero), did not respond to Commerce's initial antidumping duty questionnaire, and we have continued to use an adverse inference in selection of facts available for determining the dumping rate for this company, pursuant to section 776(d) of the Act. For further information, see the section "Use of Facts Otherwise Available and Adverse Inferences" in the accompanying Issues and Decision Memorandum.

Verification

Commerce was unable to conduct on-site verification of the information relied upon in making its final determination in this investigation. However, we took additional steps in

² See Memorandum, "Issues and Decision Memorandum for the Final Affirmative Determination in the Less-Than-Fair-Value Investigation of Standard Steel Welded Wire Mesh from Mexico," dated concurrently with, and hereby adopted by, this notice (Issues and Decision Memorandum).

lieu of an on-site verification to verify the information relied upon in making this final determination, in accordance with section 782(i) of the Act.³

Changes Since the Preliminary Determination

Based on our analysis of both the comments and information received in lieu of on-site verification, we made certain changes to the margin calculations for Aceromex, S.A. de C.V. (Aceromex). For a discussion of these changes, see the "Margin Calculations" section of the Issues and Decision Memorandum.

All-Others Rate

Section 735(c)(5)(A) of the Act provides that the estimated all-others rate shall be an amount equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated, excluding any zero or *de minimis* margins and margins determined entirely under section 776 of the Act. Section 735(c)(5)(B) of the Act provides that, if the estimated weighted-average dumping margins for all individually investigated exporters and producers are zero or *de minimis* or determined entirely under section 776 of the Act, then Commerce may use any reasonable method to establish the estimated all-others rate, including averaging the estimated weighted-average dumping margins determined for the individually investigated exporters and producers.

In this investigation, Commerce assigned an estimated weighted-average dumping margin based entirely on facts available, *i.e.*, under section 776 of the Act, to Deacero. Therefore, the only estimated weighted-average dumping margin that is not zero, *de minimis*, or based entirely on facts otherwise available is the margin calculated for Aceromex. Thus, the estimated weighted-average dumping margin calculated for Aceromex is the margin assigned to all other producers and exporters, pursuant to section 735(c)(5)(A) of the Act.

Final Determination

The final estimated weighted-average dumping margins are as follows:

³ See Commerce's Letter, In Lieu of Verification Questionnaire for Aceromex, dated February 26, 2021; and Aceromex's Letter, "Standard Steel Welded Wire Mesh from Mexico: Submission of Aceromex's Verification Response," dated March 8, 2021.
