SUMMARY:

ACTION:

AGENCY:

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

60-Day Notice of Proposed Information Collection: Single Family Premium Collection Subsystem—Periodic (SFPCS–P), OMB Control No.: 2502–0536

A. Overview of Information Collection

Title of Information Collection: Single Family Premium Collection Subsystem—Periodic (SFPCS–P).

OMB Approval Number: 2502–0536.

OMB Expiration Date: 2/28/2022.

Type of Request: Revision of a currently approved collection.

Form Number: None.

Description of the need for the information and proposed use: The Single Family Premium Collection Subsystem—Periodic (SFPCS–P) allows the lenders to remit the single-family periodic mortgagee insurance premium (PMIP) using funds obtained from the mortgagor during the collection of the monthly mortgage payment. The SFPCS–P strengthens HUD’s ability to manage and process PMIP collections and corrections to submitted data. It also improves data integrity for the Single Family Mortgage Insurance Program and enables FHA to track borrower’s insurance PMIP status. Therefore, the FHA approved lenders remit PMIP payments that are required by the authority for this collection of information in 24 CFR 203.264 and 24 CFR 203.269 and to comply with the Federal Credit Reform Act of 1990, 2 U.S.C. 661, et seq.

Respondents: Business or other profit.

Estimated Number of Respondents: 730.

Estimated Number of Responses: 8,760.

Frequency of Response: 12 per year/monthly.

Average Hours per Response: .15.

Total Estimated Burden: 1,314 hours.

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

The accuracy of the agency’s estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

HED encourages interested parties to submit comment in response to these questions.

C. Authority

January M. Golrick,
Acting, Chief of Staff for the Office of Housing, Federal Housing Administration.

ENDANGERED SPECIES ACT

Reviews for 37 Southeastern Species

AGENCY: Federal Housing Administration.

ACTION: Notice.
Species-Specific Information and Submission of Comments: Please refer to Request for New Information under SUPPLEMENTARY INFORMATION.

Individuals who are hearing impaired or speech impaired may call the Federal Relay Service at 1–800–877–8339 for TTY assistance.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service, are initiating 5-year status reviews under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 et seq.), for 17 plant and 20 animal species. A 5-year status review is based on the best scientific and commercial data available at the time of the review; therefore, we are requesting submission of any such information that has become available since the last review for the species, particularly information on the status, threats, and recovery of the species that may have become available.

Why do we conduct 5-year reviews?

Under the ESA, we maintain Lists of Endangered and Threatened Wildlife and Plants (which we collectively refer to as the List) in title 50 of the Code of Federal Regulations at 50 CFR 17.11(b) (for wildlife) and 50 CFR 17.12(b) (for plants). Listed wildlife and plants can also be found at: http://ecos.fws.gov/tess_public/pub/listedAnimals.jsp and http://ecos.fws.gov/tess_public/pub/listedPlants.jsp, respectively. Section 4(c)(2)(A) of the ESA requires us to review each listed species’ status at least once every 5 years. Our regulations at 50 CFR 424.21 require that we publish a notice in the Federal Register announcing species under active review. On the basis of such reviews under section 4(c) (2)(B), we determine whether any species should be removed from the list (i.e., delisted) or reclassified from endangered to threatened or from threatened to endangered (16 U.S.C. 1533(c)(2)(B)). Using the best scientific and commercial data available, we will consider a species for delisting if the data substantiate that the species is neither endangered nor threatened for one or more of the following reasons: (1) The species is considered extinct; (2) the species is considered to be recovered; and/or (3) the original data available when the species was listed, or the interpretation of such data, were in error. Any change in Federal classification would require a separate rulemaking process. For additional information about 5-year reviews, refer to our fact sheet at http://www.fws.gov/endangered/what-we-do/recovery-overview.html.

Which species are under review?

This notice announces our active 5-year status reviews of the species in the following table.

What information do we consider in our 5-year reviews?

A 5-year review considers all new information available at the time of the review. In conducting the review, we consider the best scientific and commercial data that have become available since the most recent status review. We are seeking new information specifically regarding:

1. Species biology, including but not limited to life history and habitat requirements and impact tolerance thresholds;
2. Historical and current population conditions, including but not limited to population abundance, trends, distribution, demographics, and genetics;
3. Historical and current habitat conditions, including but not limited to amount, distribution, and suitability;
4. Historical and current threats, threat trends, and threat projections in relation to the five listing factors (as defined in section 4(a)(1) of the ESA);
5. Conservation measures for the species that have been implemented or are planned; and
6. Other new information, data, or corrections, including but not limited to taxonomic or nomenclatural changes, identification of erroneous information contained in the List, and improved analytical methods.

Any new information received will be considered during the 5-year review and ongoing recovery programs for the species.

Request for New Information

To ensure that 5-year reviews are based on the best available scientific and commercial information, we request new information from all sources. Please use the contact information listed in the table above that is associated with the species for which you are submitting information. If you submit information, please support it with documentation such as maps, bibliographic references, methods used to gather and analyze the data, and/or copies of any pertinent publications, reports, or letters by knowledgeable sources.

How do I ask questions or provide information?

If you wish to provide information for any species listed above, please submit your comments and materials to the appropriate contact in the table above. If you wish to provide information, please support it with documentation such as maps, bibliographic references, methods used to gather and analyze the data, and/or copies of any pertinent publications, reports, or letters by knowledgeable sources.

Public Availability of Comments

Before including your address, phone number, electronic mail address, or other personal identifying information in your submission, you should be aware that your entire submission—including your personal identifying information—may be made publicly available at any time. Although you can request that personal information be withheld from public review, we cannot guarantee that we will be able to do so.

Authority

This document is published under the authority of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 et seq.).

Endangered and Threatened Wildlife and Plants; Draft Recovery Plan for the Alaska-Breeding Population of Steller’s Eider, First Revision

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability and request for public comment.

SUMMARY: We, the U.S. Fish and Wildlife Service, announce the availability of the draft first revision of the recovery plan for the threatened Alaska-breeding population of Steller’s eiders (Polysticta stelleri). We request review and comment on the revised plan from local, State and Federal agencies, Tribes, and the public. We will also accept any new information on the status of the Alaska-breeding population of Steller’s eiders throughout its range to assist in finalizing the recovery plan.

DATES: Comment submission: To ensure consideration, we must receive written comments on or before August 23, 2021. However, we will accept information about the species at any time.

ADDRESSES: Document availability: You may obtain a copy of the draft recovery plan by one of the following methods:

• Telephone: Neesha Stellrecht, 907–456–0297.

Comment submission: You may submit comments by one of the following methods:

• Mail or hand delivery: Submit written comments to the above U.S. mail address.
• Email: neesha_stellrecht@fws.gov. Please include “Steller’s eider recovery plan” in the subject line.

For additional information about submitting comments, see Availability of Public Comments in SUPPLEMENTARY INFORMATION.

For further information contact: Neesha Stellrecht, by one of the methods in ADDRESSES. Individuals who are hearing impaired or speech impaired may call the Federal Relay Service at 800–877–8339 for TTY assistance.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service (Service), announce the availability of the draft recovery plan, first revision (draft plan), for the threatened Alaska-breeding population of Steller’s eiders for public review and comment. The original recovery plan for this population was approved in 2002. The draft revised plan, when finalized, would replace the
