II. Registration Applications

EPA has received applications to register new uses for pesticide products containing currently registered active ingredients. Pursuant to the provisions of FIFRA section 3(c)(4) (7 U.S.C. 136a(c)(4)), EPA is hereby providing notice of receipt and opportunity for comment on these applications. Notice of receipt of these applications does not imply a decision by the Agency on these applications.

Product Cancellation Order for Certain Pesticide Registrations; Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA issued a notice in the Federal Register of June 8, 2021, concerning cryolite product cancellations voluntarily requested by the registrants and accepted by the Agency. This notice is being issued to correct Table 1 of the cancellation order by removing five entries that indicated an incorrect cancellation date and correcting the corresponding existing stocks provision date in Units IV and VI for the affected products.

FOR FURTHER INFORMATION CONTACT: Alexander Hazlehurst, Pesticide Reevaluation Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460–0001; telephone number: (703) 347–0221 email address: Hazlehurst.alexander@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action.

B. How can I get copies of this document and other related information?

AGENCY: Office of Pesticide Programs.

SUMMARY: This notice is being issued to correct a notice of receipt of requests by the Agency intended to accept this effective cancellation date, but inadvertently neglected to separate out these products with the correct effective date in the prior cancellation order. In addition, as requested, the registrant may continue to sell and distribute existing stocks of the cryolite products listed in Table 1A of Unit II. until March 31, 2024, which is 18 months after the effective date of the cancellations.

Prior to the issuance of the cancellation order, the registrant of the five cryolite product registrations in Table 1A, requested the cancellations to be effective on September 30, 2022. The Agency intended to accept this effective cancellation date, but inadvertently neglected to separate out these products with the correct effective date in the prior cancellation order. In addition, as requested, the registrant may continue to sell and distribute existing stocks of the cryolite products listed in Table 1A of Unit II. until March 31, 2024, which is 18 months after the effective date of the cancellations. Persons other than the registrants may sell, distribute, or use existing stocks of products listed in Table 1A of Unit II. until exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products.

ENVIRONMENTAL PROTECTION AGENCY

Atrazine, Simazine, and Malathion; Notice of Receipt of Requests to Voluntarily Cancel Certain Pesticide Registrations and/or Amend Registrations to Terminate Certain Uses

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In accordance with the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA is issuing a notice of receipt of requests by the registrants to voluntarily cancel their registrations of certain products containing the pesticides atrazine and simazine, and/or to amend their atrazine, simazine, or malathion product registrations to terminate or delete one or more uses. The requests would delete atrazine use in or on roadsides; Conservation Reserve Program (CRP) land; conifers, including Christmas tree plantings; timber and forestry; and miscanthus and other perennial bioenergy crops. The requests would delete simazine use in or on shelterbelts and all forestry uses except for Christmas tree plantings. The requests would delete malathion use as a mosquito larvicide and in or on cattle piles (including the terms cattle dumps, fruit dumps, and cattle fruit and vegetable dumps). The requests are limited to the product registrations specified in this notice and would not terminate all of the atrazine, simazine, or malathion products registered for use in the United States. EPA intends to grant these requests at the close of the comment period for this announcement unless the Agency receives substantive comments within the comment period that would merit its further review of the requests, or unless the registrants withdraw their requests. If these requests are granted, any sale, distribution, or use of products listed in this notice will be permitted after the registrations have been cancelled/uses deleted only if such sale, distribution, or use is consistent with the terms as described in the final order.

DATES: Comments must be received on or before July 23, 2021.
