BILLING CODE 6690–01–P

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–0228; OMB 3060–1162, OMB 3060–1215, FRS 33555]

Information Collections Being Submitted for Review and Approval to Office of Management and Budget

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal Agencies to take this opportunity to comment on the following information collection.

Pursuant to the Small Business Paperwork Relief Act of 2002, the FCC seeks specific comment on how it can further reduce the information collection burden for small business concerns with fewer than 25 employees.

DATES: Written comments and recommendations for the proposed information collection should be submitted on or before July 26, 2021.

ADDRESSES: Comments should be sent to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. Your comment must be submitted into www.reginfo.gov per the above instructions for it to be considered. In addition to submitting in www.reginfo.gov also send a copy of your comment on the proposed information collection to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov. Include in the comments the OMB control number as shown in the SUPPLEMENTARY INFORMATION below.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection, contact Cathy Williams at (202) 418–2916. To view a copy of this information collection request (ICR) submitted to OMB: (1) Go to the web page http://www.reginfo.gov/public/do/PRAMain, (2) look for the section of the web page called “Currently Under Review,” (3) click on the downward-pointing arrow in the “Select Agency” box below the “Currently Under Review” heading, (4) select “Federal Communications Commission” from the list of agencies presented in the “Select Agency” box, (5) click the “Submit” button to the right of the “Select Agency” box, (6) when the list of FCC ICRs currently under review appears, look for the Title of this ICR and then click on the ICR Reference Number. A copy of the FCC submission to OMB will be displayed.

SUPPLEMENTARY INFORMATION: The Commission may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

As part of its continuing effort to reduce paperwork burdens, as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501–3520), the FCC invited the general public and other Federal Agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission’s burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology. Pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107–198, see 44 U.S.C. 3506(c)(4), the FCC seeks specific comment on how it might “further reduce the information collection burden for small business concerns with fewer than 25 employees.”

OMB Control Number: 3060–0228.
Title: Section 80.59, Compulsory Ship Inspections and Ship Inspection Certificates, FCC Forms 806, 824, 827 and 829.
Form Numbers: FCC Forms 806, 824, 827 and 829.
Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities, not-for-profit institutions and state, local or tribal government.

Number of Respondents: 2,438
Number of Responses: 2,438

Estimated Time per Response: 0.084 hours (5 minutes)—4 hours per response.
Frequency of Response: On occasion, annual and every five-year reporting requirements, recordkeeping requirement and third party disclosure requirement.

Obligation To Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 4, 303, 309, 332 and 362 of the Communications Act of 1934, as amended.
Total Annual Burden: 10,333 hours.
Total Annual Cost: No cost.
Privacy Impact Assessment: No impact(s).

Needs and Uses: The requirements contained in 47 CFR 80.59 of the Commission’s rules are necessary to implement the provisions of section 362(b) of the Communications Act of 1934, as amended, which require the Commission to inspect the radio installation of large cargo ships and certain passenger ships at least once a year to ensure that the radio installation is in compliance with the requirements of the Communications Act.

Further, section 80.59(d) states that the Commission may, upon a finding that the public interest would be served, grant a waiver of the annual inspection required by section 362(b) of the Communications Act of 1934, for a period of not more than 90 days for the sole purpose of enabling the United States vessel to complete its voyage and proceed to a port in the United States where an inspection can be held. An information application must be submitted by the ship’s owner, operator or authorized agent. The application must be submitted to the Commission’s District Director or Resident Agent in charge of the FCC office nearest the port of arrival at least three days before the ship’s arrival. The application must provide specific information that is in rule section 80.59.

Additionally, the Communications Act requires the inspection of small passenger ships at least once every five years.

The Safety Convention (to which the United States is a signatory) also requires an annual inspection.

The Commission allows FCC-licensed technicians to conduct these inspections. FCC-licensed technicians certify that the ship has passed an inspection and issue a safety certificate. These safety certificates, FCC Forms 806, 824, 827 and 829 indicate that the vessel complies with the Communications Act of 1934, as amended and the Safety Convention. These technicians are required to
provide a summary of the results of the inspection in the ship’s log that the inspection was satisfactory.

Inspection certificates issued in accordance with the Safety Convention must be posted in a prominent and accessible place on the ship (third party disclosure requirement).

OMB Control Number: 3060–1162.
Title: Closed Captioning of Video Programming Delivered Using Internet Protocol, and Apparatus Closed Caption Requirements.
Form Number: N/A.
Type of Review: Extension of a currently approved collection.
Respondents: Individuals or Household, Businesses or other for-profit, Not-for-profit institutions, State, local, or tribal government, Federal Government.
Number of Respondents and Responses: 1,172 respondents; 3,341 responses.
Estimated Time per Response: 0.084–10 hours.
Frequency of Response: One time and on occasion reporting requirements; Recordkeeping requirement; Third party disclosure requirement.
Obligation To Respond: Mandatory; Required to obtain or retain benefits.
The statutory authority for this collection is contained in the Twenty-First Century Communications and Video Accessibility Act of 2010, Public Law 111–260, 124 Stat. 2751, and Sections 4(i), 4(j), 303, 330(b), 713, and 716 of the Communications Act of 1934, as amended (the Act), 47 U.S.C. 154(i), 154(j), 303, 330(b), 513, and 617.
Total Annual Burden: 9,197 hours.
Total Annual Cost: $95,700.
Privacy Act Impact Assessment: The FCC completed a Privacy Impact Assessment (PIA) on June 28, 2007. It may be reviewed at https://www.fcc.gov/general/privacy-act-information#ria. The Commission is in the process of updating the PIA to incorporate various revisions to it as a result of revisions to the FCC’s system of records notice (SORN).
Nature and Extent of Confidentiality: Confidentiality is an issue to the extent that individuals and households provide personally identifiable information, which is covered under the FCC’s SORN, FCC/CGB–1, “Informal Complaints, Inquiries and Requests for Dispute Assistance,” which became effective on September 24, 2014. We note that parties filing petitions for exemption based on economic burden, requests for Commission determinations of technical feasibility and achievability, requests for purpose-based waivers, or responses to complaints alleging violations of the Commission’s rules may seek confidential treatment of information they provide pursuant to the Commission’s existing confidentiality rules. The Commission is not requesting that individuals who file complaints alleging violations of our rules (complainants) submit confidential information (e.g., credit card numbers, social security numbers, or personal financial information) to us. We request that complainants submit their names, addresses, and other contact information, which enables us to process complaints. Any use of this information is covered under the routine uses listed in the Commission’s SORN, FCC/CGB–1.
Needs and Uses: The Twenty-First Century Communications and Video Accessibility Act of 2010 (CVAA) directed the Commission to revise its regulations to mandate closed captioning on video programming delivered via internet Protocol (IP) that was published or exhibited on television with captions after the effective date of the regulations. Accordingly, the Commission requires video programming owners (VPOs) to send program files to video programming distributors and providers (hereinafter VPDs) with required captions, and it requires VPDs to enable the rendering or pass through of all required captions to the end user. The CVAA also directed the Commission to revise its regulations to mandate that all apparatus designed to receive, play back, or record video programming be equipped with in-closed caption decoder circuitry or capability designed to display closed-captioned video programming, except that apparatus that use a picture screen that is 13 inches or smaller and recording devices must comply only if doing so is achievable. These rules are codified at 47 CFR 79.4 and 79.100–79.104.
The information collection requirements consist of:
(a) Mechanism for information about video programming subject to the IP closed captioning requirements. Pursuant to 47 CFR 79.4(c)(1)(ii) and (c)(2)(iii) of the Commission’s rules, VPOs and VPDs must agree upon a mechanism to make information available to VPDs about video programming that becomes subject to the requirements of 47 CFR 79.4 on an ongoing basis. VPDs must make a good faith effort to identify video programming that must be captioned when delivered using IP using the agreed upon mechanism.
For example, VPOs and VPDs may agree on a mechanism whereby the VPOs provide captions or certifications that captions are not required, and update those certifications and provide captions when captions later become required. A VPD may rely in good faith on a certification by a VPO that the programming need not be captioned if: (1) The certification includes a clear and concise explanation of why captions are not required; and (2) the VPD is able to produce the certification to the Commission in the event of a complaint. VPOs may provide certifications for specific programming or a more general certification, for example, for all programming covered by a particular contract.
VPDs may seek Commission determinations that other proposed mechanisms provide adequate information for them to rely on in good faith by filing an informal request and providing sufficient information for the Commission to make such determinations.
(b) Contact information for the receipt and handling of written closed captioning complaints. Pursuant to 47 CFR 79.4(c)(2)(iii), VPDs must make their contact information available to end users for the receipt and handling of written IP closed captioning complaints. The required contact information includes the name of a person with primary responsibility for IP captioning issues and who can ensure compliance with these rules, as well as the person’s title or office, telephone number, fax number, postal mailing address, and email address. VPDs must keep this information current and update it within 10 business days of any change. The Commission expects that such contact information will be prominently displayed in a way that it is accessible to all end users. A general notice on the VPD’s website with such contact information, if provided, must be provided in a location that is conspicuous to viewers.
(c) Petitions for exemption based on economic burden. Pursuant to 47 CFR 79.4(d), a VPO or VPD may petition the Commission for a full or partial exemption from the closed captioning requirements for IP-delivered video programming based upon a showing that they would be economically burdensome. Petitions for exemption must be supported with sufficient evidence to demonstrate economic burden (significant difficulty or expense). The Commission will consider four specific factors when determining economic burden and any other factors the petitioner deems relevant, along with available alternatives that might constitute a reasonable substitute for the closed
captioning requirements. The Commission will evaluate economic burden with regard to the individual outlet. Petitions and subsequent pleadings must be filed electronically.

The Commission will place such petitions on public notice. Comments or oppositions to the petition may be filed electronically within 30 days after the close of the period for filing comments or oppositions, and replies must include a certification that the comment or opposition was served with a copy. The petitioner may reply to any comments or oppositions filed within 20 days after the close of the comment or opposition period.

Upon a finding of good cause, the Commission may lengthen or shorten any comment period and waive or establish other procedural requirements.

The complaint must be filed within 60 days after the date the complainant experienced a problem with captioning. Complaints should include a detailed, full showing, supported by affidavit, of any facts or considerations relied on.

Complaints alleging violations of the closed captioning rules for IP-delivered video programming.

Pursuant to 47 CFR 79.4(e), a written complaint alleging a violation of the closed captioning rules for IP-delivered video programming may be filed with the Commission or with the VPD responsible for enabling the rendering or pass through of the closed captions for the video programming. Complaints must be filed within 60 days after the date the complainant experienced a problem with captioning. Complaints should include certain information.

If the complaint is filed first with the VPD, the VPD must respond in writing to the complainant within 30 days after receipt of the complaint. If a VPD fails to respond timely, or the response does not satisfy the consumer, the complainant may file the complaint with the Commission within 30 days after the time allotted for the VPD to respond. If a consumer files the complaint with the Commission (after filing with the VPD) and the complaint satisfies the requirements, the Commission will forward the complaint to the named VPD, as well as to any other VPD and/or VPO that Commission staff determines may be involved, who then must respond in writing to the Commission and the complainant within 30 days after receipt of the complaint from the Commission.

If the complaint is filed first with the Commission, the complaint satisfies the requirements, the Commission will forward the complaint to the named VPD and/or VPO, and to any other VPD and/or VPO that Commission staff determine may be involved, who must respond in writing to the Commission and the complainant within 30 days after receipt of the complaint from the Commission. In response to a complaint, a VPD and/or VPO must provide the Commission with sufficient records and documentation. The Commission will review all relevant information provided by the complainant and the subject VPDs and/or VPOs, as well as any additional information the Commission deems relevant from its files or public sources. The Commission may request additional information from any relevant entities when, in the estimation of Commission staff, such information is needed to investigate the complaint or adjudicate potential violation(s) of Commission rules. When the Commission requests additional information, parties to which such requests are addressed must provide the requested information in the manner and within the time period the Commission specifies.

Requests for Commission determination of technical feasibility of apparatus closed caption requirements.

Pursuant to 47 CFR 79.103(a), as of January 1, 2014, all digital apparatus designed to receive or play back video programming that uses a picture screen of any size must be equipped with built-in closed caption decoder circuitry or capability designed to display closed-captioned video programming, if technically feasible. If new apparatus or classes of apparatus for viewing video programming emerge on which it would not be technically feasible to include closed captioning, parties may raise that argument as a defense to a complaint or, alternatively, file a request under 47 CFR 1.41 for a Commission determination of technical feasibility before manufacturing or importing the product.

Requests for Commission determination of achievability of apparatus closed caption requirements.

Pursuant to 47 CFR 79.103(a), as of January 1, 2014, all digital apparatus designed to receive or play back video programming that use a picture screen less than 13 inches in size must be equipped with built-in closed caption decoder circuitry or capability designed to display closed-captioned video programming, only if doing so is achievable. In addition, pursuant to 47 CFR 79.104(a), as of January 1, 2014, all apparatus designed to record video programming must enable the rendering of the passed closed captions such that viewers are able to activate and de-activate the closed captions as the video programming is played back, only if doing so is achievable.

Manufacturers of such apparatus may petition the Commission, pursuant to 47 CFR 1.41, for a full or partial exemption from the closed captioning requirements before manufacturing or importing the apparatus or may assert as a response to a complaint that these requirements, in full or in part, are not achievable. Pursuant to 47 CFR 79.103(b)(3), such a petition or response must be supported with sufficient evidence to demonstrate that compliance is not achievable (meaning with reasonable effort or expense) and the Commission will consider four specific factors when making such determinations.

Petitions for purpose-based waivers of apparatus closed caption requirements.

Manufacturers seeking certain prior to the sale of a device may petition the Commission, pursuant to 47 CFR 79.103(b)(4), for a full or partial waiver of the closed captioning requirements based on one of the following provisions:

(i) The apparatus is primarily designed for activities other than receiving or playing back video programming transmitted simultaneously with sound; or

(ii) The apparatus is designed for multiple purposes, capable of receiving or playing back video programming transmitted simultaneously with sound but whose essential utility is derived from other purposes.

(h) Complaints alleging violations of the apparatus closed caption requirements.

Consumers may file written complaints alleging violations of the Commission’s rules, 47 CFR 79.101–79.104, requiring apparatus designed to receive, play back, or record video programming to be equipped with built-in closed caption decoder circuitry or capability designed to display closed captions. A written complaint filed with the Commission must be transmitted to the Consumer and Governmental Affairs Bureau through the Commission’s online informal complaint filing system, U.S. Mail, overnight delivery, or facsimile. Such complaints should include certain information about the complainant and the alleged violation. The Commission may forward such complaints to the named manufacturer or provider, as well as to any other entity that Commission staff determines may be involved, and may request additional information from any relevant parties when, in the estimation of Commission staff, such information is needed to investigate the complaint or
adjudicate potential violations of Commission rules.

OMB Control Number: 3060–1215.

Title: Use of Spectrum Bands Above 24 GHz for Mobile Radio Services.

Form Number: N/A.

Type of Review: Revision of an existing collection.

Respondents: Business or other for-profit, not-for-profit institutions, and state, local and tribal government.

Number of Respondents: 1,670 respondents; 1,670 responses.

Estimated Time per Response: 5–10 hours.

Frequency of Response: On occasion reporting requirement; third party disclosure requirement; upon commencement of service, or within 3 years of effective date of rules; and at end of license term, or 2024 for incumbent licensees.

Total Annual Burden: 790 hours.

Annual Cost Burden: $581,250.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Needs and Uses: On November 19, 2020, the Commission released a Report and Order, FCC 20–159, in IB Docket No. 18–314, titled, “Further Streamlining Part 25 Rules Governing Satellite Services.” In this Report and Order, among other rule changes, the Commission adopted an optional, extended build-out period for earth station licensees. The optional build-out period increases the allowable time for an earth station to be brought into operation from within one year after licensing, to within: Up to five years and six months for earth stations operating with geostationary satellites; or, up to six years and six months for earth stations operating with non-geostationary satellites. As a companion provision to this new build-out period option, the Commission adopted a requirement for earth station licensees subject to 47 CFR 25.136 to re-coordinate with licensees of Upper Microwave Flexible Use Service (UMFUS) stations if the earth station is brought into operation later than one year after the date of the license grant. The earth station licensee must complete re-coordination within one year before its commencement of operation. The re-coordination should account for any demographic or geographic changes as well as changes to the earth station equipment or configuration. A re-coordination notice must also be filed with the Commission before commencement of earth station operations.

This information collection is used by UMFUS licensees to provide accurate information on the earth station operations notwithstanding the substantially longer earth station build-out period that was adopted. The collection also counterbalances the potential chilling of some UMFUS developments that might otherwise result from the extended earth station build-out periods, and thereby serves as an important check on potential warehousing. Without such information, the Commission would not be able to regulate the shared use of radio frequencies among earth stations and UMFUS stations in the public interest, in accordance with the Communications Act of 1934, as amended.

Federal Communications Commission.

Marlene Dortch,
Secretary, Office of the Secretary.

BILLING CODE 6712–01–P

FEDERAL DEPOSIT INSURANCE CORPORATION

[OMB No. 3064–0006; –0015; –0019 and –0097]

Agency Information Collection Activities: Proposed Collection Renewal; Comment Request

AGENCY: Federal Deposit Insurance Corporation (FDIC).

ACTION: Agency information collection activities: Submission for OMB Review; comment request.

SUMMARY: The FDIC, as part of its obligations under the Paperwork Reduction Act of 1995, invites the general public and other Federal agencies to take this opportunity to comment on the request to renew the existing information collections described below (OMB Control No. 3064–0006; –0015; –0019; and—0097).

DATES: Comments must be submitted on or before July 26, 2021.

ADDRESSES: Interested parties are invited to submit written comments to the FDIC by any of the following methods:

• Agency Website: https://www.fdic.gov/resources/regulations/federal-register-publications/.

• Email: comments@fdic.gov. Include the name and number of the collection in the subject line of the message.

• Hand Delivery: Comments may be hand-delivered to the guard station at the rear of the 17th Street NW building (located on F Street), on business days between 7:00 a.m. and 5:00 p.m.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION:

Proposal to renew the following currently approved collections of information:

OMB Number: 3064–0006.

Form Number: 6200/06.

Affected Public: Individuals or households; business or other for profit; insured state nonmember banks and state savings associations.

Buran Estimate:
