products properly approved by the
NRTL to meet OSHA standards that
require testing and certification of the
products.

The agency processes applications by
a NRTL for initial recognition, or for
expansion or renewal of this
recognition, following requirements in
Appendix A to 29 CFR 1910.7. This
appendix requires that the agency
publish two notices in the Federal
Register in processing an application. In
the first notice, OSHA announces the
application and provides the
preliminary finding and, in the second
notice, the agency provides the final
decision on the application. These
notices set forth the NRTL’s scope of
recognition or modifications of that
scope. OSHA maintains an
informational web page for each NRTL
that details the scope of recognition.
These pages are available from the
agency’s website at
http://www.osha.gov/dts/otpca/nrtl/
index.html.

OSHA’s recognition of any NRTL for
a particular test standard is limited to
equipment or materials for which OSHA
standards require third-party testing and
certification before using them in the
workplace. Consequently, if a test
standard also covers any products for
which OSHA does not require such
testing and certification, a NRTL’s scope
of recognition does not include these
products.

The American National Standards
Institute (ANSI) may approve the test
standard listed above as American
National Standards. However, for
convenience, the use of the designation
of the standards-developing
organization for the standard as opposed
to the ANSI designation may occur.
Under the NRTL Program’s policy (see
OSHA Instruction CPL 1–0.3, Appendix
C, paragraph XIV), any NRTL
recognized for a particular test standard
may use either the proprietary version
of the test standard or the ANSI version
of that standard. Contact ANSI to
determine whether a test standard is
currently ANSI-approved.

A. Conditions

In addition to those conditions
already required by 29 CFR 1910.7, MET
must abide by the following conditions
of the recognition:

1. MET must inform OSHA as soon as
possible, in writing, of any change of
ownership, facilities, or key personnel,
and of any major change in their
operations as a NRTL, and provide
details of the change(s);

2. MET must meet all the terms of the
NRTL recognition and comply with all
OSHA policies pertaining to this
recognition; and

3. MET must continue to meet the
requirements for recognition, including
all previously published conditions on
MET’s scope of recognition, in all areas
for which it has recognition.

Pursuant to the authority in 29 CFR
1910.7, OSHA hereby expands the scope
of recognition of MET Inc., subject to
the limitations and conditions specified
above.

II. Final Decision and Order

OSHA staff examined MET’s
expansion application, the capability to

and conditions listed below. OSHA,
