

The questionnaire is available online for respondents to print when they choose to mail or fax. Most respondents choose to report their data online. In addition to reporting current quarter data, respondents may provide initial data for the previous seven quarters or submit revisions to their data submitted in the previous seven quarters.

Data are received each quarter from 70 to 80 percent of the systems canvassed. In those instances when we are not able to obtain a response, we conduct follow-up operations using email and phone calls. Imputations are developed for each of the remaining nonresponse systems in the panel from the latest available data.
