*Type of Review:* Extension and revision of a currently approved information collection.

*Estimated Number of Respondents:* 3,567 respondents per year.

*Estimated Number of Responses:* 7,090 responses per year.

*Estimated Time per Response:* The USPTO estimates that it will take the public approximately 2 hours to complete a response. This includes the time to gather the necessary information, create the documents, and submit the completed item to the USPTO.

*Estimated Total Annual Respondent Burden Hours:* 14,180 hours.

*Estimated Total Annual Non-Hour Cost Burden:* \$0.

*Needs and Uses:* The Patent Prosecution Highway (PPH) is a framework in which an application whose claims have been determined to be patentable by an Office of Earlier Examination (OEE) is eligible to go through an accelerated examination in an Office of Later Examination (OLE) with a simple procedure upon an applicant's request. By leveraging the search and examination work product of the OEE, PPH programs (1) deliver lower prosecution costs, (2) support applicants in their efforts to obtain stable patent rights efficiently around the world, and (3) reduce the search and examination burden, while improving the examination quality, of participating patent offices.

In 2014, the USPTO and several other offices acted to consolidate and replace existing PPH programs, with the goal of streamlining the PPH process for both offices and applicants. To that end, the USPTO and other offices established the

Global PPH pilot program and the IP5 PPH pilot program. Both the Global PPH and the IP5 PPH pilot programs are running concurrently and are substantially identical, differing only with regard to their respective participating offices. The USPTO is participating in both the Global PPH pilot program and the IP5 PPH pilot program. For USPTO applications, the Global PPH and IP5 PPH pilot programs supersede any prior PPH program between the USPTO and each Global PPH and IP5 PPH participating office. Any existing PPH programs between the USPTO and offices that are not participating in either the Global PPH pilot program or the IP5 PPH pilot program remain in effect.

This information collection covers data gathered through the Request for Participation in the Patent Prosecution Highway (PPH) Pilot Program, which the public uses to request an accelerated examination within the PPH provisions (35 U.S.C. 119).

*Affected Public:* Private sector; individuals or households.
