[Docket No. APHIS-2021-0007]

Concurrence With OIE Risk Designation for Bovine Spongiform Encephalopathy

AGENCY: Animal and Plant Health Inspection Service, Agriculture (USDA).

ACTION: Notice.

SUMMARY: We are advising the public of our preliminary concurrence with the World Organization for Animal Health's (OIE) bovine spongiform encephalopathy (BSE) risk designation for Bolivia and the United Kingdom's zone of Jersey. The OIE recognizes this country and this zone as being of negligible risk for BSE. We are taking this action based on our review of information supporting the OIE's risk designation for Bolivia and the United Kingdom's zone of Jersey.

DATES: We will consider all comments that we receive on or before August 24, 2021.

ADDRESSES: You may submit comments by either of the following methods:

FOR FURTHER INFORMATION CONTACT: Mr. Javier Vargas, Senior Staff Officer,

Regionalization Evaluation Services, Veterinary Services, APHIS, 4700 River Road, Unit 38, Riverdale, MD 20737-1231; (301) 851-3316; email: AskRegionalization@usda.gov.

SUPPLEMENTARY INFORMATION: The regulations in 9 CFR part 92 subpart B, "Importation of Animals and Animal Products; Procedures for Requesting BSE Risk Status Classification With Regard To Bovines" (referred to below as the regulations), set forth the process by which the Animal and Plant Health Inspection Service (APHIS) classifies regions for bovine spongiform encephalopathy (BSE) risk. Section 92.5 of the regulations provides that all countries of the world are considered by APHIS to be in one of three BSE risk categories: Negligible risk, controlled risk, or undetermined risk. These risk categories are defined in § 92.1. Any region that is not classified by APHIS as presenting either negligible risk or controlled risk for BSE is considered to present an undetermined risk. The list of those regions classified by APHIS as having either negligible risk or controlled risk can be accessed on the APHIS website at [https://www.aphis.usda.gov/aphis/ourfocus/animalhealth/animal-and-animal-product-import-information/animal-health-status-of-regions](http://www.aphis.usda.gov/aphis/ourfocus/animalhealth/animal-and-animal-product-import-information/animal-health-status-of-regions). The list can also be obtained by writing to APHIS at Regionalization Evaluation Services, 4700 River Road, Unit 38, Riverdale, MD 20737-1238.

Under the regulations, APHIS may classify a region for BSE in one of two ways. One way is for regions that have not received a risk classification from the World Organization for Animal Health (OIE) to request classification by APHIS. The other way is for APHIS to concur with the classification given to a country or region by the OIE.

If the OIE has classified a region as either BSE negligible risk or BSE controlled risk, APHIS will seek information to support concurrence with the OIE classification. This information may be publicly available information, or APHIS may request that regions supply the same information given to the OIE. APHIS will announce in the **Federal Register**, subject to public comment, its intent to concur with an OIE classification.

In accordance with this process, we are giving notice in this document that APHIS intends to concur with the OIE risk classification of the country of Bolivia and the United Kingdom's zone of Jersey as regions of negligible risk for BSE.

The OIE recommendation regarding Bolivia and the United Kingdom's zone

of Jersey can be viewed at <https://www.oie.int/en/disease/bovine-spongiform-encephalopathy/>. The conclusions of the OIE scientific commission for Bolivia and the United Kingdom's zone of Jersey can be viewed at https://www.oie.int/fileadmin/Home/eng/International_Standard_Setting/docs/pdf/SCAD/A_SCAD_Feb2020.pdf (pages 53 for Bolivia and 56 for the United Kingdom's zone of Jersey).

After reviewing any comments that we receive, we will announce our final determination regarding the BSE classification of Bolivia and the United Kingdom's zone of Jersey in the **Federal Register**, along with a discussion of and response to pertinent issues raised by commenters. If APHIS recognizes Bolivia and the United Kingdom's zone of Jersey as negligible risk for BSE, the Agency will include this country and zone on the list of regions of negligible risk for BSE that is available to the public on the Agency's website at <https://www.aphis.usda.gov/aphis/ourfocus/animalhealth/animal-and-animal-product-import-information/animal-health-status-of-regions>.
