same subsidized entity for CVD cash deposit purposes as the predecessor company) where there is no evidence of significant changes in the respondent’s: (1) Operations; (2) ownership; and (3) corporate and legal structure during the relevant period (i.e., the “look-back window”) that could have affected the nature and extent of the respondent’s subsidy levels. Where Commerce makes an affirmative CVD successorship finding, the successor’s merchandise will be entitled to enter under the predecessor’s cash deposit rate.

In accordance with 19 CFR 351.216, we preliminarily determine that CFP LP and CFP Inc. are the SII s to Chaleur LP and Fornebu Inc., respectively. Record evidence, as submitted by the Chaleur Companies, indicates that CFP LP and CFP Inc. operate as essentially the same business entities as Chaleur LP and Fornebu Inc., respectively, with respect to the subject merchandise. For the complete SII analysis, refer to the accompanying Initiation and Preliminary Decision Memorandum. Commerce will issue its final results of the review in accordance with the time limits set forth in 19 CFR 351.216(e).

Should the final results remain the same as these preliminary results, we will instruct U.S. Customs and Border Protection to assign entries of subject merchandise exported by CFP LP and CFP Inc. the same subsidized entity as their predecessors. For the final results, refer to the accompanying Final Decision Memorandum. Commerce will issue its final results of the review in accordance with 19 CFR 351.216(e).

Public Comment

Pursuant to 19 CFR 351.310(c), and interested party may request a hearing within 30 days of publication of this notice. In accordance with 19 CFR 351.309(c)(1)(ii), interested parties may submit case briefs not later than seven days after the date of publication of this notice. Rebuttal briefs, limited to issues raised in the case briefs, may be filed no later than seven days after the case briefs, in accordance with 19 CFR 351.309(d). Parties who submit case or rebuttal briefs are requested to submit with each argument: (1) A statement of the issue; (2) a brief summary of the argument; and (3) a table of authorities. All comments are to be filed electronically using Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic System (ACCESS) available to registered users at https://access.trade.gov, and must also be served on interested parties. An electronically filed document must be received successfully in its entirety by ACCESS by 5:00 p.m. Eastern Time on the day it is due. Until further notice, Commerce has temporarily modified certain of its requirements for serving documents containing business proprietary information.

Final Results of the Changed Circumstances Review

Consistent with 19 CFR 351.216(e), Commerce will issue the final results of this CCR no later than 270 days after the date on which this review was initiated, or within 45 days of publication of these preliminary results, if all parties agree to our preliminary finding.

Notification to Interested Parties

This notice is published in accordance with sections 751(b)(1) and 777(i) of the Act, and 19 CFR 351.216(b) and 351.221(c)(3).

Dated: June 14, 2021.

Ryan Majerus,
Deputy Assistant Secretary for Policy and Negotiations.

BILLING CODE 3510–05–P

DEPARTMENT OF COMMERCE
National Oceanic and Atmospheric Administration

Evaluation of National Estuarine Research Reserve; Public Meeting; Request for Comments

AGENCY: Office for Coastal Management (OCM), National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

ACTION: Notice of public meeting and opportunity to comment.

SUMMARY: The National Oceanic and Atmospheric Administration (NOAA), Office for Coastal Management will hold a public meeting to solicit comments on the performance evaluation of the Apalachicola National Estuarine Research Reserve.

DATES: NOAA will consider all written comments received by Friday, August 13, 2021. A virtual public meeting will be held on Wednesday, August 4, 2021 at 12 p.m. EDT. To participate in the virtual public meeting, registration is required by Tuesday, August 3, 2021 at 5 p.m. EDT.

ADDRESSES: You may submit written comments on the national estuarine research reserve NOAA intends to evaluate by emailing Susie Holst Rice, Evaluator, NOAA Office for Coastal Management at Susie.Holst@noaa.gov. See SUPPLEMENTARY INFORMATION for other information about submitting comments.

Registration: To register for the virtual public meeting, visit https://docs.google.com/forms/d/e/1FAIpQLSef67CDjWit723zeknZ6WQ-FQhWm5n85–1NWD/JpPnnPATOR/AOAjam7spf/viewform?usp=sf_link. If you have difficulty registering, contact Susie Holst Rice by email at Susie.Holst@noaa.gov.

FOR FURTHER INFORMATION CONTACT: Susie Holst Rice, Evaluator, NOAA Office for Coastal Management by email at Susie.Holst@noaa.gov or call (603) 862–1205. Copies of the previous evaluation findings, reserve management plan, and reserve site profile may be viewed and downloaded on the internet at http://coast.noaa.gov/czm/evaluations. A copy of the evaluation notification letter and most recent progress report may be obtained upon request by contacting Susie Holst Rice.

SUPPLEMENTARY INFORMATION: Section 312 of the Coastal Zone Management Act (CZMA) requires NOAA to conduct periodic evaluations of federally approved national estuarine research reserves. The process includes one or more public meetings, consideration of written public comments, and consultations with interested Federal, state, and local agencies and members of the public. During the evaluation, NOAA will consider the extent to which the state of Florida has met the national objectives, adhered to the Reserve’s management plan approved by the Secretary of Commerce, and adhered to the terms of financial assistance under the CZMA. When the evaluation is completed, NOAA’s Office for Coastal Management will place a notice in the Federal Register announcing the
availability of the Final Evaluation Findings.

**Submitting Comments**

Timely comments received by the Office for Coastal Management are considered part of the public record and may be publicly accessible. Any personal information (e.g., name, address) submitted voluntarily by the sender may also be publicly accessible. NOAA will accept anonymous comments. You may also provide public comments during the virtual public meeting. You may participate online or by phone. If you would like to provide comment during the public meeting, please select “yes” during the online registration. The line-up of speakers will be based on the date and time of registration. Once you register, you will receive a confirmation of your registration. One hour prior to the start of the meeting on August 4, 2021, you will be emailed a link to the public meeting and information about participating.

**Keelin Kuipers,**
Deputy Director, Office for Coastal Management, National Ocean Service, National Oceanic and Atmospheric Administration.

BILLING CODE 3510–JE–P

**DEPARTMENT OF COMMERCE**

**National Oceanic and Atmospheric Administration**

**Notice of Availability of a Draft Programmatic Environmental Impact Statement for Surveying and Mapping Projects in U.S. Waters for Coastal and Marine Data Acquisition**

**AGENCY:** National Ocean Service (NOS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

**ACTION:** Notice of availability of a draft programmatic environmental impact statement; request for comments.

**SUMMARY:** The National Oceanic and Atmospheric Administration (NOAA), National Ocean Service (NOS) has prepared a draft programmatic environmental impact statement (PEIS) in accordance with the National Environmental Policy Act of 1969, as amended (NEPA), to analyze the potential environmental impacts associated with NOS’s recurring data collection projects to characterize submerged features (e.g., habitat, bathymetry, marine debris). The “action area” for these projects encompasses United States (U.S.) rivers, states’ offshore waters, the U.S. territorial sea, the contiguous zone, the U.S. Exclusive Economic Zone (U.S. EEZ), and coastal and riparian lands. As a part of the Proposed Action, NOS may use active acoustic equipment such as sub-bottom profilers, single beam and multibeam echo sounders, side-scan sonars, and Acoustic Doppler Current Profilers. The Draft PEIS analyzes NOS data collection projects for a time period of 6 years. Publication of this document begins the 60-day public comment period for the Draft PEIS.

**DATES:** Written comments on the Draft PEIS will be accepted on or before August 24, 2021.

**ADDRESSES:** The Draft PEIS can be viewed or downloaded from the NOS website at https://oceanservice.noaa.gov/about/environmental-compliance/surveying-mapping.html. You may submit comments on this document, identified by NOAA–NOS–2021–0055, by any of the following methods:

- **Electronic Submission:** Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to https://www.regulations.gov and enter NOAA–NOS–2021–0055 in the Search box. Click on the “Comment” icon, complete the required fields, and enter or attach your comments.
- **Mail:** Please direct written comments to DOC/NOAA/NOS Environmental Compliance Coordinator, SSOC4-Station 13612, 1305 East West Highway, Silver Spring, MD 20910.
  - **Email:** nosaa.ec@noaa.gov.
  - **Instructions:** Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NOAA. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NOAA will accept anonymous comments (enter “N/A” in the required fields if you wish to remain anonymous).

**FOR FURTHER INFORMATION CONTACT:** Giannina DiMaio, DOC/NOAA/NOS, Environmental Compliance Coordinator, SSOC4-Station 13612, 1305 East West Highway, Silver Spring, MD 20910. nosaa.ec@noaa.gov. 240–533–0948.

**SUPPLEMENTARY INFORMATION:** The Proposed Action analyzed in the Draft PEIS is to continue NOS’s surveying and mapping projects throughout the action area. The Draft PEIS has been prepared to: (1) Inform NOS and the public on the physical, biological, economic, and social impacts of NOS mapping and surveying projects; and (2) assist NOS in deciding how to execute its mapping and surveying program over the next 6 years.

The Draft PEIS assesses the direct, indirect, and cumulative environmental impacts of a suite of surveying and mapping data collection activities. NOS initially planned to address the environmental impacts of the Proposed Action through a Programmatic Environmental Assessment (PEA) and published a Notice of Intent to prepare a PEA in the Federal Register on December 19, 2016 (81 FR 91921). However, during preparation of the PEA, NOS determined that NOS and the public would be better served through the Environmental Impact Statement process due to the geographic scope of the mapping program and the complexities of the analysis.

The purpose of the Proposed Action is to gather accurate and timely data on the marine and coastal environment. The need for the Proposed Action is to ensure safety at sea, economic well-being, and the efficient stewardship of public trust resources. NOS projects would include surveys performed from crewed vessels and remotely-operated or autonomous vehicles, operated by NOS field crews, contractors, grantees, or permit/authorization holders. NOS may use echo sounders and other active acoustic equipment and employ other equipment, including bottom samplers and conductivity, temperature, and depth instruments to collect the needed data. A project could also involve supporting activities, such as the use of divers and the installation of tide buoys.

The Draft PEIS evaluates three alternatives:

- **Alternative A—No Action:** Under Alternative A, NOS would continue to operate a variety of equipment and technologies to gather accurate and timely data on the nature and condition of the marine and coastal environment. This alternative reflects the technology, equipment, scope, and methods currently in use by NOS, at the level of effort reflecting NOS fiscal year 2019 funding levels. (NOS operations were widely disrupted during the 2020 field season due to the COVID–19 pandemic. Therefore, the PEIS relies on 2019 as the baseline year for Alternative A, as it is the most recent example of typical field operations that would be enacted if NOS chose to continue historical levels of project effort.)
- **Alternative B:** This alternative consists of Alternative A plus the more
