

approximately 5,600. The significant decrease in the number of unique respondents since OFAC's last information collection submission regarding the Regulations in 2019 is due to OFAC's increased use of technology, which has enabled it to consolidate multiple filers within a single institution under one unique identification number assigned to the institution for all reports submitted to OFAC. Previously, OFAC did not have the ability to easily ascertain the number of unique respondents due to different identification numbers being selected for reports filed by different individuals within the same institution, or different branches or offices of the same institution. This inability to uniquely identify all reports associated with one institution led to counting numerous filers that were all associated with the same institution instead of counting the institutions themselves as unique respondents, resulting in an inflated number of respondents in past information collection submissions. OFAC is now adjusting its number of unique reporting respondents based on its more accurate data set.

Frequency of Response: The estimated annual frequency of responses is between 1 and 4,641, varying greatly by entity depending on the size, nature, and scope of business activities of each respondent, with the majority of filers providing a small number of responses and a small number of filers submitting a higher number of responses.

Estimated Total Number of Annual Responses: 30,051.

Estimated Time per Response: OFAC assesses that there is an average time estimate for reports associated with forms ranging from 15 minutes to 2 hours and for reports associated with general licenses and other miscellaneous reports ranging from 30 minutes to 5 hours.

Estimated Total Annual Burden Hours: 13,160 hours.
