8. **Project Sponsor:** Weaverland Valley Authority. **Project Facility:** Blue Ball Water System, East Earl Township, Lancaster County, Pa. Application for groundwater withdrawal of up to 0.144 mgd (30-day average) from Well 4 as well as recognizing historic withdrawals from wells 1, 2 and 3.

**Commission-Initiated Project Approval Modifications**

9. **Project Sponsor and Facility:** Municipal Authority of the Borough of Mansfield, Richmond Township, Tioga County, Pa. Conforming the grandfathered amount with the forthcoming determination for a withdrawal from Webster Reservoir up to 0.311 mgd (30-day average) (Docket No. 20130609).

10. **Project Sponsor and Facility:** Williamsport Municipal Water Authority, Williamsport City, Lycoming County, Pa. Conforming the grandfathered amounts with the forthcoming determination for withdrawals (30-day averages) from Well 3 up to 0.940 mgd, from Well 4 up to 0.940 mgd, from Well 5 up to 2.141 mgd, from Well 6 up to 0.687 mgd, from Well 7 up to 2.254 mgd, from Well 8 up to 0.987 mgd, from Well 9 up to 0.800 mgd, from Mosquito Creek up to 6.833 mgd, and from Hagersmans Run up to 4.926 mgd (Docket No. 20110628).

**Project Approval Tabled**

11. **Project Sponsor and Facility:** Pennsylvania State University, College Township, Centre County, Pa. Applications for renewal of groundwater withdrawal of up to 0.960 mgd (30-day average) from Well UN–37 and consumptive use of up to 0.960 mgd (peak day) (Docket No. 19890106–1).

**Project Withdrawn**

12. **Project Sponsor and Facility:** Beech Resources, LLC (Lycoming Creek), Lycoming Township, Lycoming County, Pa. Application for surface water withdrawal of up to 1.500 mgd (peak day).

**Project Terminated**

13. **Project Sponsor and Facility:** City of Aberdeen, Harford County, Md. Modifications to extend the approval term of the consumptive use, surface water withdrawal, and out-of-basin diversion approval (Docket No. 20021210) to allow additional time for evaluation of the continued use of the source for the Aberdeen Proving Ground-Aberdeen Area. (Authority: Pub. L. 91–575, 84 Stat. 1509 et seq., 18 CFR parts 806, 807, and 808.)

Dated: June 24, 2021.

Jason E. Oyler, General Counsel and Secretary to the Commission.

**DEPARTMENT OF TRANSPORTATION**

**Federal Railroad Administration**

**Proposed Agency Information Collection Activities; Comment Request**

**AGENCY:** Federal Railroad Administration (FRA), U.S. Department of Transportation (DOT).

**ACTION:** Notice of information collection; request for comment.

**SUMMARY:** Under the Paperwork Reduction Act of 1995 (PRA) and its implementing regulations, FRA seeks approval of the Information Collection Request (ICR) abstracted below. Before submitting this ICR to the Office of Management and Budget (OMB) for approval, FRA is soliciting public comment on specific aspects of the activities identified in the ICR.

**DATES:** Interested persons are invited to submit comments on or before August 30, 2021.

**ADDRESSES:** Written comments and recommendations for the proposed ICR should be submitted on regulations.gov to the docket, Docket No. FRA 2021–0006. All comments received will be posted without change to the docket, including any personal information provided. Please refer to the assigned OMB control number in any correspondence submitted. FRA will summarize comments received in response to this notice in a subsequent notice and include them in its information collection submission to OMB for approval.

**FOR FURTHER INFORMATION CONTACT:** Ms. Hodan Wells, Information Collection Clearance Officer, at email: hodan.wells@dot.gov or telephone: (202) 493–0440.

**SUPPLEMENTARY INFORMATION:** The PRA, 44 U.S.C. 3501–3520, and its implementing regulations, 5 CFR part 1320, require Federal agencies to provide 60-days’ notice to the public to allow comment on information collection activities before seeking OMB approval of the activities. See 44 U.S.C. 3506, 3507; 5 CFR 1320.8 through 1320.12. Specifically, FRA invites interested parties to comment on the following ICR regarding: (1) Whether the information collection activities are necessary for FRA to properly execute its functions, including whether the activities will have practical utility; (2) the accuracy of FRA’s estimates of the burden of the information collection activities, including the validity of the methodology and assumptions used to determine the estimates; (3) ways for FRA to enhance the quality, utility, and clarity of the information being collected; and (4) ways for FRA to minimize the burden of information collection activities on the public, including the use of automated collection techniques or other forms of information technology. See 44 U.S.C. 3506(c)(2)(A); 5 CFR 1320.8(d)(1).

FRA believes that soliciting public comment may reduce the administrative and paperwork burdens associated with the collection of information that Federal regulations mandate. In summary, FRA reasons that comments received will advance three objectives: (1) Reduce reporting burdens; (2) organize information collection requirements in a “user-friendly” format to improve the use of such information; and (3) accurately assess the resources expended to retrieve and produce information requested. See 44 U.S.C. 3501.

The summary below describes the ICR that FRA will submit for OMB clearance as the PRA requires:

**Title:** Hours of Service Regulations.

**OMB Control Number:** 2130–0005.

**Abstract:** FRA’s hours of service recordkeeping regulations (49 CFR part 228), amended as mandated by the Rail Safety Improvement Act of 2008, include substantive hours of service requirements for train employees (i.e., locomotive engineers and conductors) providing commuter and intercity rail passenger transportation (e.g., maximum on-duty periods, minimum off-duty periods, and other limitations). The regulations also require railroads to evaluate passenger train employee work schedules for risk of employee fatigue and implement measures to mitigate the risk, and to submit to FRA for approval certain schedules and mitigation plans. Finally, the regulations include recordkeeping and reporting provisions requiring railroads to keep hours of service records, and report excessive service, for train employees, signal employees, and dispatching service employees on both freight and passenger railroads.

FRA uses the information collected to verify that railroads do not require or allow their employees to exceed FRA’s maximum on-duty periods, and ensure that they abide by minimum off-duty periods, and adhere to other limitations.
in this regulation, to enhance rail safety and reduce the risk of accidents/ incidents caused, or contributed to, by train employee fatigue.

</tbody>
</table>

1 The current inventory exhibits a total burden of 3,421,290 hours while the total burden of this notice is 1,283,507 hours. FRA determined many of the estimates were initial estimates, outdated, or duplicates. Moreover, other estimates were not derived from PRA requirements, thus leading to the increased figures in the current inventory, which were decreased accordingly in this notice.

2 The dollar equivalent cost is derived from the Surface Transportation Board’s 2020 Full Year Wage A&B data series using the appropriate employee group hourly wage rate that includes a 75-percent overhead charge.

3 Totals may not add due to rounding.

Total Estimated Annual Responses: 18,660,400.

Total Estimated Annual Burden: 1,283,507 hours.

Under 44 U.S.C. 3507(a) and 5 CFR 1320.5(b) and 1320.8(b)(3)(vi), FRA informs all interested parties that a respondent is not required to respond to, conduct, or sponsor a collection of information that does not display a currently valid OMB control number.

Brett A. Jortland,
Acting Chief Counsel.
