You may contact the Information Management Division for copies of the proposed collection of information at email address: FEMA-Information-Collections-Management@fema.dhs.gov.

SUPPLEMENTARY INFORMATION: Pursuant to Executive Order (E.O.) 12148, as amended by E.O. 12673 and E.O. 13286, the President of the United States has delegated to the Department of Homeland Security (DHS), including FEMA, the authority to provide case management services as stated in the Robert T. Stafford Disaster Relief and Emergency Assistance Act (Stafford Act), 42 U.S.C. 5189d. Under the Stafford Act, FEMA may provide DCM services directly to survivors through financial assistance to state, tribal, or local government agencies or qualified private organizations. DCM services include identifying and addressing disaster-caused unmet needs of survivors through identification of, and referrals to, available resources. A disaster-caused unmet need is an un-resourced item, support, or assistance that has been assessed and verified as necessary for a survivor to recover from a disaster. This may include food, clothing, shelter, first aid, emotional and spiritual care, household items, home repair, or rebuilding.

When a case manager speaks to a survivor, they will ask the survivor to provide information through a series of questions (data elements), as outlined within the intake form. This will allow the case manager to better understand the survivor's disaster-caused unmet needs and to then assist them with obtaining the resources needed. The information gathered within this collection tool is used to determine the survivor's disaster-caused unmet needs, to identify what types of referrals the case manager may provide, and to decide whether there is a need to meet again to address continuing disaster-caused unmet needs. Case managers then type the responses to the data elements into their proprietary electronic secured case management database.

Collection of Information

Title: FEMA-Administered Disaster Case Management Intake Form.

Type of Information Collection: New information collection.

OMB Number: 1660-NW132.

FEMA Forms: FF-104-FY-21-146 and FF-104-FY-21-147.

Abstract: This collection tool will primarily be used as a guide to support FEMA-administered DCM case managers by outlining the allowable data elements they can collect from survivors on behalf of FEMA. While there will be a paper collection tool, the case managers will primarily be using the tool as a reference of data elements they can collect, and using their own case management database systems to guide the order in which the elements are collected. The elements within the tool are used to assess, screen, and refer disaster survivors to available resources that address their specific disaster-related unmet needs. Case managers then take the information from the intake form and manually upload the data into their secured case management database.

Prior to any data collection, survivors will complete and sign a FEMA-administered DCM Consent Form, authorizing FEMA, or its agent, to collect data from the survivor in order to effectively provide case management services.

Affected Public: Survivors of Presidentially declared major disasters where a FEMA-administered Disaster Case Management program is implemented.

Estimated Number of Respondents: 75,000.

Estimated Number of Responses: 75,000.

Estimated Total Annual Burden Hours: 48,000 burden hours.

Estimated Total Annual Respondent Cost: \$1,746,240.

Estimated Respondents' Operation and Maintenance Costs: \$0.

Estimated Respondents' Capital and Start-Up Costs: \$0.

Estimated Total Annual Cost to the Federal Government: \$51,640,374.
