Appendix I—Scope of the Investigation

The merchandise covered by the scope of this investigation is seamless carbon and alloy steel pipe (other than stainless steel) and hollow seamless tubes (other than stainless steel) produced to the ASTM A–53, ASTM A–106, or API 51 standard, line, and pressure pipes produced to the ASTM A–40, ASTM A–55, ASTM A–550, ASTM A–795, ASTM A–1024, and the API 51 specifications, or comparable specifications, and meeting the physical parameters described above, regardless of application, with the exception of the exclusions discussed below.

Specifically excluded from the scope of the investigation are: (1) All pipes meeting aerospace, hydraulic, and bearing tubing specifications, including pipe produced to the ASTM A–822 standard; (2) all pipes meeting the mechanical requirements of ASTM A–335, whether finished or unfinished; and (3) unattached couplings. Also excluded from the scope of the investigation are: (1) all mechanical, boiler, condenser and heat exchange tubing, except when such products conform to the dimensional requirements, i.e., outside diameter and wall thickness, of ASTM A53, ASTM A–106 or API 51 specifications. Also excluded from the scope of the investigation are: (1) Oil country tubular goods consisting of drill pipe, casing, tubing and coupling stock; (2) all pipes meeting the chemical requirements of ASTM A–335 regardless of their conformity to the dimensional requirements of ASTM A–53, ASTM A–106 or API 5L; and (3) the exclusion for ASTM A335 applies to pipes meeting the comparable specifications GOST 17379.2000.

International Trade Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Collection Title: Survey of International Air Travelers (SIAT)

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. Public comments were previously requested via the Federal Register on March 18, 2021 during a 60-day comment period. This notice allows for an additional 30 minutes.

Comment 25: Survey of International Air Travelers (SIAT)

The SIAT assists NTTO in assessing the economic impact of international travel on state and local economies, providing visitation estimates, key market intelligence, and identifying traveler and trip characteristics. The U.S. Department of Commerce assists travel industry enterprises to increase international travel and passenger fare exports for the country as well as outbound travel on U.S. carriers. The Survey program provides the only available estimates of international travel and passenger consumption for states and cities within the United States, as well as U.S. resident travel abroad. The SIAT also assists NTTO in producing in-depth statistical reports, fact sheets and briefings on economic factors and policy issues affecting U.S. industries. With the SIAT statistical data not replicable by private sector trade associations or by private firms, Federal agencies, Congress and international organizations rely on these statistics-based tools, as do American businesses, state and local governments, and news organizations.

interested parties to comment on the Preliminary Determination. The mandatory respondent in this investigation is Interpipe, the collapsed entity which includes Interpipe Ukraine LLC (Interpipe Ukraine), PJSC Interpipe Niznedneprovsky Tube Rolling Plant (NTRP), and LLC Interpipe Niko Tube (Niko Tube). For a complete description of the events that followed the Preliminary Determination, see the Issues and Decision Memorandum. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at https://access.trade.gov. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at http://enforcement.trade.gov/frn.

Scope of the Investigation

The products covered by this investigation are seamless pipe from Ukraine. For a complete description of the scope of this investigation, see Appendix I.

Scope Comments

We did not receive comments from interested parties on the Preliminary Scope Decision Memorandum. As discussed in the Preliminary Scope Decision Memorandum, Commerce codified the scope language as it appeared in the Initiation Notice to clarify certain exclusions. See the scope in Appendix I to this notice.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs that were submitted by parties in this investigation are addressed in the Issues and Decision Memorandum. A list of the sections of the Issues and Decision Memorandum are in Appendix II of this notice.

Verification

Commerce was unable to conduct on-site verification of the information relied upon in making its final

determination in this investigation. However, we took additional steps in lieu of an on-site verification to verify the information relied upon in making this final determination, in accordance with section 782(i) of the Tariff Act of 1930, as amended (the Act).

Changes Since the Preliminary Determination

Based on our review and analysis of the comments received from parties and our findings related to our request for information in lieu of verification, we made certain changes to our calculations of the dumping margin for the sole respondent, Interpipe. For a complete discussion of these changes, see the Issues and Decision Memorandum and Final Analysis Memorandum.

All-Others Rate

Section 735(c)(5)(A) of the Act provides that the estimated weighted-average dumping margin for all other producers and exporters not individually investigated shall be equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated excluding rates that are zero, de minimis, or determined entirely under section 776 of the Act. Pursuant to section 735(c)(5)(B) of the Act, if the estimated weighted-average dumping margins established for all exporters and producers individually examined are zero, de minimis or determined based entirely on facts otherwise available, Commerce may use any reasonable method to establish the estimated weighted-average dumping margin for all other producers or exporters.

Because the only individually calculated dumping margin is not zero, de minimis, or based entirely on facts otherwise available, we assigned the estimated weighted-average dumping margin calculated for Interpipe to all other producers and exporters of subject merchandise, pursuant to section 735(c)(5)(A) of the Act.

Final Determination

The final estimated weighted-average dumping margins are as follows:
