

will engage its Driver Subcommittee for its consideration of workforce needs, at a meeting later this summer.

Additionally, MCSAC will resume consideration of the following issues:

- Task 20–2 will focus on the impact of the aging demographic of the commercial motor vehicle driver workforce on the truck and bus industries and whether this trend will exacerbate the driver shortage problem. Stakeholders have expressed concerns about the need to address the driver shortage, including options for allowing younger drivers to enter the industry. How would an aging workforce impact motor carriers' ability to deliver services and goods safely in interstate commerce? For this task, FMCSA will consider data by agency experts on the distribution of age among CMV drivers.

- Task 20–1 will provide the MCSAC with the opportunity to discuss changes to the package and small goods delivery sector. A number of companies are now using small vehicles (e.g., vehicles with a gross vehicle weight rating less than 10,000 pounds, etc.) to deliver goods and there appears to be a gap in safety oversight of both drivers and vehicles. For this task, members will hear from Agency experts on trends in the Fatality Analysis Reporting System (FARS) and Motor Carrier Management Information System (MCMIS) crash and highway safety data.
