FEDERAL COMMUNICATIONS COMMISSION

[FRS 33845; DA 21-593]

Alert Reporting System Available for Filing of State Emergency Alert System Plans

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: The Federal Communications Commission (Commission or FCC) announces that its Alert Reporting System (ARS) is now open for the filing of State Emergency Alert System (EAS) Plans.

FOR FURTHER INFORMATION CONTACT:

David Munson, Attorney Advisor, Public Safety and Homeland Security Bureau, at (202) 418-2921, or by email at David.Munson@fcc.gov.

SUPPLEMENTARY INFORMATION: This is a summary of the Public Notice (DA 21-593), released May 25, 2021, announcing that the ARS, adopted in the State EAS Plan Order, PS Docket No. 15-94, FCC 18-39, adopted on March 28, 2018, released on April 10, 2018, and published at 83 FR 37750 (August 2, 2018), is now fully operational and available to receive State EAS Plan filings.

The EAS is a national public warning system used by state, local, federal, Tribal and territorial alert originators to deliver emergency alerts to the public. The ARS is an online filing system for the filing of State EAS Plans by State Emergency Communications Committees (SECCs). State EAS Plans must describe state and local EAS operations and contain guidelines that must be followed to activate the EAS.

In the State EAS Plan Order, in addition to adopting the ARS, the Commission amended sections 11.18 and 11.21, 47 CFR 11.18 and 11.21, respectively, of its rules governing EAS designations and State EAS Plan content, and stated that both the electronic submission of State EAS Plans by SECCs using the ARS, and compliance with the amendments adopted to sections 11.18 and 11.21, would be required “within one year of publication in the **Federal Register** of a Public Notice announcing: (i) Office of Management and Budget (OMB) approval of ARS information collection requirements or (ii) the availability of the ARS to receive such information, whichever is later.”

On July 23, 2019, notice of OMB’s approval of the information collection requirements associated with ARS was published in the **Federal Register**, Federal Communications Commission, Emergency Alert System; Wireless Emergency Alerts, 84 FR 35334 (July 23, 2019). Accordingly, publication of this Notice in the **Federal Register** of ARS’s availability to receive State EAS Plan filings triggers the one-year deadline for (i) electronic submission of State EAS Plans via ARS, and compliance with the amendments to Sections 11.18 and 11.21 adopted in the State EAS Plan Order. Accordingly, electronic submission of State EAS Plans using the ARS, and compliance with the EAS designations at 47 CFR 11.18 and the State EAS Plan content rules at 47 CFR 11.21, will be required on or by July 5, 2022. SECCs may access the ARS at <https://www.fcc.gov/licensing-databases/fcc-user-login>.

For further information about ARS and/or the filing process, please contact David Munson at (202) 418–2921 or David.Munson@fcc.gov.

Needs and Uses: On March 17, 2021, the Commission adopted the *Auction*

110 Comment Public Notice (FCC 21–33) in which it announced that an auction for licenses in the 3.45–3.55 GHz band will begin in early October 2021 and requested comment on proposed procedures for the auction. Among other things, the *Auction 110 Comment Public Notice* proposed that, in addition to making the certifications already required by the Commission’s rules in its FCC Form 175 auction application, each Auction 110 applicant also be required to certify that it has read the public notice adopting procedures for the auction and that it has familiarized itself both with the auction procedures and with the requirements for obtaining a license and operating facilities in the 3.45–3.55 GHz band. On May 19, 2021, the Commission’s Office of Economics and Analytics and Wireless Telecommunications Bureau released a Public Notice (DA 21–567) adopting the proposed additional certification requirement for applicants seeking to participate in Auction 110. The revised collection will enable the Commission to confirm that an auction applicant has read the public notice adopting procedures for the auction and has familiarized itself both with the auction procedures and with the requirements for obtaining a license and operating facilities in the 3.45–3.55 GHz band through the applicant’s certification to that effect in its FCC Form 175 application.

The Commission’s auction rules and related requirements are designed to ensure that the competitive bidding process is limited to serious qualified applicants, deter possible abuse of the bidding and licensing processes, and enhance the use of competitive bidding to assign Commission licenses and permits in furtherance of the public interest. The information collected on FCC Form 175 is used by the Commission to determine if an applicant is legally, technically, and financially qualified to participate in an auction for Commission licenses or permits. Additionally, if an applicant applies for status as a particular type of auction participant pursuant to Commission rules, the Commission uses information collected on FCC Form 175 to determine whether the applicant is eligible for the status requested. Commission staff reviews the information collected on FCC Form 175 for a particular auction as part of the pre-auction process, prior to the auction being held. Staff determines whether each applicant satisfies the Commission’s requirements to participate in the auction and, if an
