NUCLEAR REGULATORY COMMISSION

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Indirect transfer of licenses; order.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing an Order approving the application dated November 19, 2020, as supplemented by letter dated April 13, 2021, filed by NorthStar Nuclear Decommissioning Company, LLC (NNDC) and ADP CR3, LLC (ADP CR3), on behalf of themselves, NorthStar Vermont Yankee, LLC (NVY), and their corporate parents related to NorthStar Group Services, Inc (NorthStar). The application sought NRC consent to the indirect transfer of (1) NNDC’s licensed authority under, and NVY’s licensed ownership of, Renewed Facility Operating License No. DPR–28 for the Vermont Yankee Nuclear Power Station (Vermont Yankee) and the general license for the Vermont Yankee independent spent fuel storage installation (ISFSI); and (2) ADP CR3’s licensed authority under Facility Operating License No. DPR–72 for the Crystal River Unit 3 Nuclear Generating Plant (CR3) and the general license for the CR3 ISFSI. Duke Energy Florida, LLC (DEF) will remain the licensed owner of CR3, and the application does not involve any direct or indirect transfer of DEF’s license or responsibilities. No physical changes to the Vermont Yankee or CR3 facilities or operational changes were proposed in the application. The application requested NRC consent to these indirect transfers in order to complete an internal reorganization with new intermediary holding companies that would acquire control of NorthStar.

Notices entitled “Vermont Yankee Nuclear Power Station; Consideration of Approval of Transfer of License” and “Crystal River Unit 3 Nuclear Generating Plant; Consideration of Approval of Transfer of License,” were published in the Federal Register (FR) on April 2, 2021 (86 FR 17415 and 86 FR 17412, respectively). The NRC did not receive any comments or hearing requests related to these notices.

Under 10 CFR 50.80 and 10 CFR 72.50, no license for a production or utilization facility or ISFSI, or any right thereunder, shall be transferred, either voluntarily or involuntarily, directly or indirectly, through transfer of control of the license to any person, unless the Commission gives its consent in writing. Upon review of the information in the application, and other information before the Commission, the NRC staff has determined that the Applicants can indirectly transfer their licenses via the intermediary holding company structure proposed in the application. The proposed transferees are qualified to have indirect control over the holders of the licenses and the indirect transfer of the licenses is otherwise consistent with applicable provisions of law.
