message can be received without jeopardizing the safety or security of people, places or vessels.

**List of Subjects in 33 CFR Part 100**

Marine safety, Navigation (water), Reporting and recordkeeping requirements, Waterways.

For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 100 as follows:

**PART 100—SAFETY OF LIFE ON NAVIGABLE WATERS**

1. The authority citation for part 100 continues to read as follows:

   **Authority:** 46 U.S.C. 70034; 33 CFR 1.05–1.

2. Add § 100.501T05–0292 to read as follows:

   **§ 100.501T05–0292 1st Annual Shootout on the River Airshow—Sparrows Point, Back River, Baltimore County, MD.**

   (a) **Locations.** All coordinates are based on datum WGS 1984.

   (1) **Regulated area.** All navigable waters of Back River, within an area bounded by a line connecting the following points:

      From the shoreline at Lynch Point at latitude 39°14′46″ N, longitude 076°26′23″ W, thence northeast to Porter Point at latitude 39°15′13″ N, longitude 076°26′11″ W, thence north along the shoreline to Walnut Point at latitude 39°17′06″ N, longitude 076°27′04″ W, thence southwest to the shoreline at latitude 39°16′41″ N, longitude 076°27′31″ W, thence south along the shoreline to the point of origin, located in Baltimore County, MD. The aerobatics box and spectator area are within the regulated area.

   (2) **Aerobatics Box.** The aerobatics box is a polygon in shape measuring approximately 5,000 feet in length by 1,000 feet in width. The area is bounded by a line commencing at position latitude 39°16′01.2″ N, longitude 076°27′05.7″ W, thence east to latitude 39°16′04.7″ N, longitude 076°26′53.7″ W, thence south to latitude 39°15′16.9″ N, longitude 076°26′35.2″ W, thence west to latitude 39°15′13.7″ N, longitude 076°26′47.2″ W, thence north to the point of origin.

   (3) **Spectator Area.** The designated spectator area is a polygon in shape measuring approximately 1,000 yards in length by 500 feet in width. The area is bounded by a line commencing at position latitude 39°16′33.7″ N, longitude 076°26′40.7″ W, thence east to latitude 39°16′34.5″ N, longitude 076°26′34.7″ W, thence south to latitude 39°16′05.0″ N, longitude 076°26′31.1″ W, thence west to latitude 39°16′04.4″ N, longitude 076°26′37.4″ W, thence north to the point of origin.

   (b) **Definitions.** As used in this section—

      Aerobatics Box is an area described by a line bound by coordinates provided in latitude and longitude that outlines the boundary of a aerobatics box within the regulated area defined by this section. Captain of the Port (COTP) Maryland-National Capital Region means the Commander, U.S. Coast Guard Sector Maryland-National Capital Region or any Coast Guard commissioned, warrant or petty officer who has been authorized by the COTP to act on his behalf. Event Patrol Commander or Event PATCOM means a commissioned, warrant, or petty officer of the U.S. Coast Guard who has been designated by the Commander, Coast Guard Sector Maryland-National Capital Region. Official Patrol means any vessel assigned or approved by Command, Coast Guard Sector Maryland-National Capital Region with a commissioned, warrant, or petty officer on board and displaying a Coast Guard ensign. Participant means all persons and vessels registered with the event sponsor as participating in the “1st Annual Shootout on the River Airshow—Sparrows Point” event, or otherwise designated by the event sponsor as having a function tied to the event. Spectator means a person or vessel not registered with the event sponsor as participants or assigned as official patrols. Spectator Area is an area described by a line bound by coordinates provided in latitude and longitude that outlines the boundary of a spectator area within the regulated area defined by this part. Special local regulations. (1) The COTP Maryland-National Capital Region or Event PATCOM may forbid and control the movement of all vessels and persons, including event participants, in the regulated area. When hailed or signaled by an official patrol, a vessel or person in the regulated area shall immediately comply with the directions given by the patrol. Failure to do so may result in the Coast Guard expelling the person or vessel from the area, issuing a citation for failure to comply, or both. The COTP Maryland-National Capital Region or Event PATCOM may terminate the event, or a participant’s operations at any time the COTP Maryland-National Capital Region or Event PATCOM believes it necessary to do so for the protection of life or property.

   (2) Except for participants and vessels already at berth, a person or vessel within the regulated area at the start of enforcement of this section must immediately depart the regulated area.

   (3) A spectator must contact the Event PATCOM to request permission to either enter or pass through the regulated area. The Event PATCOM, and official patrol vessels enforcing this regulated area, can be contacted on marine band radio VHF–FM channel 16 (156.8 MHz) and channel 22A (157.1 MHz). If permission is granted, the spectator must enter the designated Spectator Area or pass directly through the regulated area as instructed by Event PATCOM. A vessel within the regulated area must operate at safe speed that minimizes wake. A spectator vessel must not loiter within the navigable channel while within the regulated area.

   (4) Only participant vessels are allowed to enter the aerobatics box.

   (5) A person or vessel that desires to transit, moor, or anchor within the regulated area must obtain authorization from the COTP Maryland-National Capital Region or Event PATCOM. A person or vessel seeking such permission can contact the COTP Maryland-National Capital Region at telephone number 410–576–2693 or on Marine Band Radio, VHF–FM channel 16 (156.8 MHz) or the Event PATCOM on Marine Band Radio, VHF–FM channel 16 (156.8 MHz).

   (6) The Coast Guard will publish a notice in the Fifth Coast Guard District Local Notice to Mariners and issue a marine information broadcast on VHF–FM marine band radio announcing specific event dates and times.

   (d) Enforcement officials. The Coast Guard may be assisted with marine event patrol and enforcement of the regulated area by other federal, state, and local agencies.

   (e) Enforcement period. This section will be enforced from 4 p.m. to 7 p.m. on July 9, 2021, from 1 p.m. to 4 p.m. on July 10, 2021, and, from 1 p.m. to 4 p.m. on July 11, 2021.

   Dated: June 30, 2021.

   David E. O’Connell.

   Captain, U.S. Coast Guard, Captain of the Port Maryland-National Capital Region.

   BILLING CODE 9110–04–P

**POSTAL SERVICE**

39 CFR Part 111

**Addressing Standards**

**AGENCY:** Postal Service™.

**ACTION:** Final rule.

**SUMMARY:** The Postal Service is extending its effort to improve the
delivery point validation and address standardization of mail receiving postage discounts by amending the Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM®) in various sections of 602, Addressing, to update addressing standards.

DATES: Effective Date: October 1, 2022.

FOR FURTHER INFORMATION CONTACT: James Wilson at (901) 681–4600, Kai Fisher at (901) 681–4634, or Garry Rodriguez at (202) 268–7281.

SUPPLEMENTARY INFORMATION: On February 22, 2021, the Postal Service published a revised notice of proposed rulemaking (86 FR 10507–10509) to update addressing standards. In response to the revised proposed rule, the mailing industry provided many valuable comments. Eleven formal responses were received. Several expressed concern that the change would create cost increases for lower volume mailers that currently process their lists quarterly and would be required to process more frequently, increasing the cost paid to mail service providers that offer the address matching services. Other comments questioned the 60-day requirement from address matching to the mailing date with a product release that is still valid for use beyond that time frame. This final rule will clearly outline the ways in which the addressing standard rules have changed.

Currently, DMM section 602.6.0, ZIP Code Accuracy Standards, provides that a ZIP Code™ may be used on a mail piece within 12 months after having been verified using a Postal Service approved method. Once a ZIP Code is used on a mailpiece, the address associated with that ZIP Code is considered to meet Postal Service addressing standards for an additional 12 months from the date first used in the mail.

DMM sections 602.7.0, Carrier Route Accuracy Standard, and 9.0, Coding Accuracy Support System (CASS), provide that Address Matching and Coding Update standards require coding to be performed within 90 days before the mailing date for carrier route mailings and 180 days for all non-carrier route mailings using the most current USPS database. The current product release schedule allows for use of a database that is valid for 105 days and may be used in generating discounted mailings for an additional 6 months beyond that timeframe. As such, an address added or modified in the database may not be updated on a mailing list for nearly 1 year after the change was made.

In 2012, the Postal Service implemented address management product fulfillment via an electronic product fulfillment method designed to provide subscription products to customers more efficiently. The database product updates are posted each month to a secure site where customers can log in to simply download the product files. A survey of licensed Address Management data products indicates that CASS and Multiline Accuracy Support System (MASS) Certified software and service providers are retrieving and using the monthly updates during the address matching and coding processes.

The Postal Service is implementing a database product cycle that aligns with the release of other mailing products. This will provide consistency across all mailing products and the method by which the data files are available and distributed. The USPS will now require the use of monthly updates for both carrier route and non-carrier route mailings and reduces the risk of using data that is no longer current.

The updated release schedule allows for 120 days of use for generating discounted mailings and an overlap in dates for product use. Mailers that currently process their lists quarterly would still be compliant as long as they do not mail beyond the “last permissible mailing date” for the “product date” as shown in the USPS Product Cycle in Exhibit 9.3.1. Mailers will be expected to update their systems with the latest data files as soon as practicable and should not wait until the “last permissible use” date.

The Postal Service is implementing this change effective October 1, 2022. This implementation date allows mailers eighteen months to adjust to the new update standards, however, mailers may opt to use the new monthly update cycles for both carrier route and non-carrier route mailings immediately. We believe this revision will provide customers with a more efficient process and will reduce the risk of using address information that is not current.

List of Subjects in 39 CFR Part 111

Administrative practice and procedure, Postal Service.

We will publish an appropriate amendment to 39 CFR part 111 to reflect these changes. Accordingly, 39 CFR part 111 is amended as follows:

PART 111—[AMENDED]

1. The authority citation for 39 CFR part 111 continues to read as follows:

2. Revise the Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM) as follows:

Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM)

* * * * *

600 Basic Standards for All Mailing Services

* * * * *

602 Addressing

* * * * *

6.0 ZIP Code Accuracy Standards

6.1 Basic Standards

Except for mail bearing a simplified address, addresses used on pieces in a mailing at all commercial First-Class Mail, nonbarcoded presorted Periodicals, USPS Marketing Mail, Parcel Select Lightweight, and Bound Printed Matter presorted and carrier route prices are subject to the ZIP Code accuracy standard and must meet these requirements:

[Revise the text of items a and b to read as follows:]

a. Each address and associated 5-digit ZIP Code on the mailpieces in a mailing must be verified and corrected within 6 months before the mailing date with one of the USPS-approved methods in 6.2.

b. If an address used on a mailpiece in a mailing at one class of mail and price is verified and corrected with an approved method, the same address may be used during the following 6 months to meet the ZIP Code accuracy standard required for mailing at any other class of mail and price.

6.2 USPS-Approved Methods

The following methods meet the ZIP Code accuracy standard:

* * * * *

b. For manually maintained lists or small computerized lists, options include the following:

[Delete item b1 and renumber items b2 through b5 as items b1 through b4.]

* * * * *

7.0 Carrier Route Accuracy Standard

7.1 Basic Standards

* * * Addresses used on pieces claiming any Periodicals carrier route
prices, any USPS Marketing Mail Enhanced Carrier Route prices (including DALs or DMLs used with Product Samples), or any Bound Printed Matter carrier route prices are subject to the carrier route accuracy standard and must meet the following requirements:

[Revise the text of item a to read as follows:]

a. Each address and associated carrier route code used on the mailpieces (or DALs or DMLs) in a mailing must be updated with one of the USPS-approved methods in 6.2 using a product release that is within the USPS Product Cycle as provided in Exhibit 9.3.1.

* * * * *

[Delete item c.]

9.0 Coding Accuracy Support System (CASS)

* * * * *

9.3 Date of Address Matching and Coding

9.3.1 Update Standards

[Revise the text of 9.3.1 to read as follows:]

Unless Z4CHANGE is used, all automation and carrier route mailings bearing addresses coded by any AIS product must be coded with current CASS-certified software and the current USPS database. Coding must be done using a product release that is within the USPS Product Cycle as provided in Exhibit 9.3.1. All AIS products may be used immediately on release. New product releases must be included in address matching systems no later than after the first of the month following the product date. The overlap in dates for product use allows mailers adequate time to install the new data files and test their systems. Mailers are expected to update their systems with the latest data files as soon as practicable and need not wait until the “last permissible use” date. The mailer’s signature on the postage statement certifies that this standard has been met when the corresponding mail is presented to the USPS. The “current USPS database” product cycle is defined by the table in Exhibit 9.3.1.

[Delete current table under 9.3.1 and add new table as Exhibit 9.3.1 to read as follows:]

BILLING CODE P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

Air Plan Approval; FL; Prevention of Significant Deterioration Infrastructure Elements

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving revisions to the Florida State Implementation Plan (SIP), submitted by the Florida Department of Environmental Protection (FDEP), Division of Air Resources Management, to EPA on August 26, 2020. The Clean Air Act (CAA or Act) requires that each state adopt and submit a SIP for the implementation, maintenance, and enforcement of each national ambient air quality standard (NAAQS) promulgated by EPA, commonly referred to as an “infrastructure SIP.” This submission addresses certain greenhouse gas (GHG) Prevention of Significant Deterioration (PSD) permitting requirements for the 2008 and 1997 8-hour Ozone and the 1997 Annual and 2006 24-hour Fine Particulate Matter (PM$_{2.5}$) NAAQS. Additionally, EPA is converting the previous disapprovals of Florida’s infrastructure SIPs related to the CAA GHG PSD permitting requirements for the above NAAQS to full approvals.

DATES: This rule is effective August 6, 2021.

ADDRESSES: EPA has established a docket for this action under Docket Identification No. EPA–R04–OAR–2020–0459. All documents in the docket are listed on the www.regulations.gov website. Although listed in the index, some information is not publicly available, i.e., Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through www.regulations.gov or in hard copy at the Air Regulatory Management Section, Air Planning and Implementation Branch, Air and Radiation Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW, Atlanta, Georgia 30303–8960. EPA requests that if at all possible, you contact the person listed in the FOR FURTHER INFORMATION CONTACT section to schedule your
