Administrative Agency that Carries Out Services as a Public Library, and Assurances Provided in Support of Five-Year Plan.

The 60-Day Notice was published in the Federal Register on April 21, 2021 (86 FR 20743). One/No comment was received.

Title: 2022–2024 IMLS Grants to States Program State Program Reporting System Forms.

OMB Number: 3137–0071.

Frequency: 1 time per year.

Affected Public: State Library Administrative Agencies (SLAAs).

Number of Respondents: 59.

Estimated Average Burden per Response in Hours: 47.83.

Estimated Total Annual Burden in Hours: 2,821.97.

Total Annual Capital/Startup Costs: $0/a.

Total Annual Costs: $86,239.40.

Total Annual Federal Costs: $39,863.06.

Dated: June 30, 2021.

Kim Miller,
Senior Grants Management Specialist, Institute of Museum and Library Services.

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request; NSF Research Experience and Mentoring Survey

AGENCY: National Science Foundation.

ACTION: Submission for OMB review; comment request.

SUMMARY: The National Science Foundation (NSF) has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1995. This is the second notice for public comment; the first was published in the Federal Register, and no comments were received. NSF is forwarding the proposed submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice.

DATES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAmain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT:
Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314, or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including federal holidays).

Copies of the submission may be obtained by calling 703–292–7556.

SUPPLEMENTARY INFORMATION: NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Title of Collection: NSF Research Experience and Mentoring Survey. OMB Number: 3145–NEW.

Type of Request: Intent to seek approval to establish an information collection.

Abstract: The Research Experience and Mentoring (REM) Program supports the active involvement of research participants (RPs) that include high school students, Science, Technology, Engineering and Mathematics (STEM) teachers, undergraduate STEM students, faculty, and veterans, in hands-on research in order to bring participants into contact with STEM mentors and expose them to a summer research experience. Research participants are recruited as cohorts in order to facilitate mentoring and research activities, community building, and provide mutual student support.

The main goals of the REM Program are to provide research experiences and mentored opportunities to STEM students and/or educators that may ultimately enhance their career and academic trajectories while enhancing NSF research projects by the Emerging Frontiers in Research and Innovation (EFRI) program and the Engineering Research Centers (ERC). The REM Program may also enable the building of long-term collaborative partnerships among EFRI- and ERC-supported researchers, community colleges, local four-year colleges, and local school districts.

A REM supplement of maximum of $110,000 over a 1-year period. Activities that are innovative and site-specific are encouraged. Effective REM programs typically have many of the following characteristics, which are provided here as general guidelines: Mentorship training for researchers and affiliated graduate students or postdoctoral researchers; Well-designed, introductory training for RPs; Six to ten weeks of summer research (full time); Continued mentorship of RPs throughout the academic year; Participation of RPs in research team meetings and topic-related conferences or workshops; and Guidance for RPs in co-authoring publications and/or posters.

NSF is requesting OMB approval for the REM program to collect information from past and present research participants. The REM program seeks to collect data from research participants and to: (1) Inform REM programming (e.g., to identify areas of growth); and (2) conduct retrospective analysis of the REM program to assess the success of REM historically.

Use of the Information: The information collected is primarily for the use of the NSF REM program to assess the success of the program and for informing decisions NSF will make regarding future programming and support provided to research participants.

Estimate of Burden: Estimated at 180 hours for a one-time collection.

Respondents: All REM research participants will be invited to respond to the survey. The REM research participants include high school students, STEM teachers, undergraduate STEM students, and faculty.

Estimated Number of Responses: 540 (representing a 60% response rate).

Dated: June 30, 2021.

Suzanne H. Plimpton,
Reports Clearance Officer, National Science Foundation.

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Proposed Collection, Comment Request

AGENCY: National Science Foundation.

ACTION: Notice.

SUMMARY: The National Science Foundation (NSF) is announcing plans to request clearance for this collection. In accordance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, we are providing opportunity for public comment on this action. After obtaining and considering public comment, NSF will prepare the
of the organization submitting the proposal, special audiences (if any) that the project would target (e.g., women, underrepresented minorities, persons with disabilities), strategic foci (if any) of the project (e.g., research on teaching and learning, international activities, integration of research and education), and the number of students and faculty at different educational levels who would benefit from the project.

Respondents: Investigators who submit proposals to NSF’s Division of Undergraduate Education.

Estimated Number of Annual Respondents: 2,550.

Burden on the Public: 20 minutes (per response) for an annual total of 850 hours.

Dated: June 30, 2021.

Suzanne H. Plimpton,
Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555–01–P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50–456 and 50–457; NRC–2021–0128]

Exelon Generation Company, LLC; Braidwood Station, Units 1 and 2

AGENCY: Nuclear Regulatory Commission.

ACTION: Environmental assessment and finding of no significant impact; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of amendments to Renewed Facility Operating License Nos. NPF–72 and NPF–77, that were issued to Exelon Generation Company, LLC, (licensee) for operation of the Braidwood Station, Units 1 and 2. The proposed amendments are contained in the licensee’s letter dated May 27, 2021, and would change technical specifications (TSs) surveillance requirement (SR) 3.7.9.2 to allow an ultimate heat sink (UHS) temperature of less than or equal to 102.8 degrees Fahrenheit (°F) until September 30, 2021.

DATES: The environmental assessment and finding of no significant impact referenced in this document are available on July 7, 2021.

ADDRESS: Please refer to Docket ID NRC–2021–0128 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:
