[WT Docket No. 21-230; FCC 21-69; FR ID

**Automatic Identification System
Channels**

AGENCY: Federal Communications
Commission.

ACTION: Proposed rule.

SUMMARY: In this document, a Notice of
Proposed Rulemaking (NPRM) adopted
by the Federal Communications
Commission (Commission) fulfils the
Commission's statutory duty pursuant
to Section 8416 of the National Defense
Authorization Act for Fiscal Year 2021,
which directs the Commission to
initiate a rulemaking proceeding by June
30, 2021 to consider whether to
authorize devices used to mark fishing
equipment for use on Automatic
Identification System (AIS) channels.
This document seeks comment on the
extent to which the 1900-2000 kHz
band is used to support fishing
operations, the extent of unauthorized
deployment of devices used to mark
fishing equipment using AIS technology
on AIS channels, and whether to
authorize devices used to mark fishing
equipment for use on current AIS
channels. In addition, the NPRM
explores whether 160.900 MHz is a
viable alternative for devices used to
mark fishing equipment. In the event
the Commission were to authorize
devices used to mark fishing equipment
to use AIS channels or 160.900 MHz,
the NPRM seeks comment on whether
there are technical and operational
constraints that could be imposed to
maintain maritime safety and protect
incumbents. Finally, the NPRM seeks
comment on a consumer labeling
approach for authorized equipment to
provide consumers guidance on
whether the equipment being purchased
complies with both the Coast Guard's
and the Commission's rules.

DATES: Interested parties may file
comments on or before August 6, 2021;
and reply comments on or before
September 7, 2021.
