**Automatic Identification System  
Channels**

**AGENCY:** Federal Communications  
Commission.

**ACTION:** Proposed rule.

**SUMMARY:** In this document, a Notice of  
Proposed Rulemaking (NPRM) adopted  
by the Federal Communications  
Commission (Commission) fulfils the  
Commission's statutory duty pursuant  
to Section 8416 of the National Defense  
Authorization Act for Fiscal Year 2021,  
which directs the Commission to  
initiate a rulemaking proceeding by June  
30, 2021 to consider whether to  
authorize devices used to mark fishing  
equipment for use on Automatic  
Identification System (AIS) channels.  
This document seeks comment on the  
extent to which the 1900-2000 kHz  
band is used to support fishing  
operations, the extent of unauthorized  
deployment of devices used to mark  
fishing equipment using AIS technology  
on AIS channels, and whether to  
authorize devices used to mark fishing  
equipment for use on current AIS  
channels. In addition, the NPRM  
explores whether 160.900 MHz is a  
viable alternative for devices used to  
mark fishing equipment. In the event  
the Commission were to authorize  
devices used to mark fishing equipment  
to use AIS channels or 160.900 MHz,  
the NPRM seeks comment on whether  
there are technical and operational  
constraints that could be imposed to  
maintain maritime safety and protect  
incumbents. Finally, the NPRM seeks  
comment on a consumer labeling  
approach for authorized equipment to  
provide consumers guidance on  
whether the equipment being purchased  
complies with both the Coast Guard's  
and the Commission's rules.

**DATES:** Interested parties may filed  
comments on or before August 6, 2021;
