DEPARTMENT OF HOMELAND SECURITY

Transportation Security Administration

[DOCKET NO. TSA–2018–0001]

Request for Applicants for Appointment to the Surface Transportation Security Advisory Committee

AGENCY: Transportation Security Administration, DHS.

ACTION: Committee management; request for applicants.

SUMMARY: The Transportation Security Administration (TSA) is requesting applications from individuals who are interested in being appointed to serve on the Surface Transportation Security Advisory Committee (STSAC). All applicants must represent one of the constituencies specified below in order to be eligible for appointment. STSAC’s mission is to provide advice, consultation, and recommendations to the TSA Administrator on improving surface transportation security matters, including developing, refining, and implementing policies, programs, initiatives, rulemakings, and security directives pertaining to surface transportation security, while adhering to sensitive security guidelines. The STSAC will consider risk-based approaches in the performance of its duties.

DATES: Applications for membership must be submitted to TSA using one of the methods in the ADDRESSES section below on or before August 9, 2021.

ADDRESSES: Applications must be submitted by one of the following means:

• Email: STSAC@tso.dhs.gov.
• Mail: Judith Harron-Lord, STSAC Designated Federal Officer, Transportation Security Administration (TSA–28), 6595 Springfield Center Drive, Springfield, VA 20596–6028.

See SUPPLEMENTARY INFORMATION for application requirements.

FOR FURTHER INFORMATION CONTACT: Judith Harron-Lord, STSAC Designated Federal Officer, Transportation Security Administration (TSA–28), 6595 Springfield Center Drive, Springfield, VA 20596–6028, STSAC@tso.dhs.gov, 571–227–2283.

SUPPLEMENTARY INFORMATION: The STSAC is an advisory Committee established pursuant to section 1969, Division K, TSA Modernization Act, of the FAA Reauthorization Act of 2018 (Pub. L. 115–254, 132 Stat. 3186, Oct. 5, 2018). The Committee is composed of individual members representing key constituencies affected by surface transportation security requirements.

Membership

The STSAC is composed of no more than 40 voting members from among stakeholders representing each mode of surface transportation, such as passenger rail, freight rail, mass transit, pipelines, highways, over-the-road bus, school bus industry, and trucking; and may include representatives from—

1. Associations representing such modes of surface transportation;
2. Labor organizations representing such modes of surface transportation;
3. Groups representing the users of such modes of surface transportation, including asset manufacturers, as appropriate;
4. Relevant law enforcement, first responders, and security experts; and
5. Such other groups as the Administrator considers appropriate.

The STSAC also includes nonvoting members, serving in an advisory capacity, who are designated by the TSA; the Department of Transportation; the Coast Guard; and such other Federal department or agency as the Administrator considers appropriate.

The STSAC does not have a specific number of members allocated to any membership category and the number of members in a category may change to fit the needs of the Committee, but each organization is represented by a minimum of one individual. Members serve as representatives and speak on behalf of their respective constituency group. Membership on the Committee is personal to the appointee and a member may not send an alternate to a Committee meeting. The members of the Committee shall not receive any compensation from the Government by reason of their service on the Committee.

Committee members are appointed by and serve at the pleasure of the Administrator of TSA for a term of two years but a voting member may continue to serve until the Administrator appoints a successor. TSA evaluates committee appointees to determine suitability, which includes a background check.

Committee Meetings

The Committee shall meet as frequently as deemed necessary by the Designated Federal Officer in consultation with the Chairperson, but no less than two (2) scheduled meetings each year. At least one meeting will be open to the public. Unless the Designated Federal Officer decides otherwise, meetings will be held in person or through web conferencing in the Washington, DC, metropolitan area.

In addition, STSAC members are expected to participate on STSAC subcommittees that normally meet more frequently to deliberate and discuss specific surface transportation matters.

Application for Advisory Committee Appointment

TSA is seeking applications for up to 5 members with specific expertise in the pipeline mode of surface transportation and cybersecurity across all surface transportation modes. Any person wishing to be considered for appointment to STSAC must provide the following:

• Complete professional resume.
• Statement of interest and reasons for application, including the membership category and how you represent a significant portion of that constituency, and also provide a brief explanation of how you can contribute to one or more TSA strategic initiative, based on your prior experience with TSA, or your review of current TSA strategic documents that can be found at www.tsa.gov/about/strategy.
• Home and work addresses, telephone number, and email address.

Please submit your application to the Designated Federal Officer in ADDRESSES noted above by August 9, 2021.

Dated: June 30, 2021.

Eddie D. Mayenschein,
Assistant Administrator, Policy, Plans, and Engagement.

BILLING CODE 9110–05–P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Receipt of Incidental Take Permit Application and Proposed Habitat Conservation Plan for the Sand Skink, Putnam County, FL; Categorical Exclusion

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comment and information.

SUMMARY: We, the Fish and Wildlife Service (Service), announce receipt of an application from Vulcan Materials Company (applicant) to amend of an existing incidental take permit (TEB29568–0) under the Endangered Species Act. The applicant requests the...
amendment of an incidental take permit (ITP) to take an additional number of the federally listed sand skink incidental sand mining operation in Putnam County, Florida. We request public comment on the application, which includes the applicant’s proposed amended habitat conservation plan (HCP), and the Service’s preliminary determination that this HCP qualifies as “low-effect,” categorically excluded, under the National Environmental Policy Act. To make this determination, we used our environmental action statement and low-effect screening form, both of which are also available for public review.

DATES: We must receive your written comments on or before August 9, 2021.

ADDRESSES: Obtaining Documents: You may obtain copies of the documents online in Docket No. FWS–R4–ES–2021–0072 at http://www.regulations.gov. Submitting Comments: If you wish to submit comments on any of the documents, you may do so in writing by any of the following methods:

- Online: http://www.regulations.gov.

FOR FURTHER INFORMATION CONTACT: Erin M. Gawera, by telephone at 904–731–3121 or via email at erin_gawera@fws.gov. Individuals who are hearing impaired or speech impaired may call the Federal Relay Service at 800–877–8339 for TTY assistance.

SUPPLEMENTARY INFORMATION: We, the Fish and Wildlife Service, announce receipt of an application from Vulcan Materials Company for an amendment of an incidental take permit under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 et seq.). The applicant requests to modify the existing ITP to allow for take of the federally listed sand skink (Neoselaps reynoldsi) in an amount above that authorized by the existing permit. The take would be incidental to the activities associated with the operation of a sand mine (project) in Putnam County, Florida. We request public comment on both the application, which includes the applicant’s amended proposed habitat conservation plan (HCP), and the Service’s preliminary determination that this HCP qualifies as “low-effect,” categorically excluded, under the National Environmental Policy Act (NEPA; 42 U.S.C. 4231 et seq.). To make this determination, we used our environmental action statement and low-effect screening form, which are also available for public review.

Project

The applicant has an existing 20-year ITP that was issued on February 12, 2016, authorizing take of sand skinks via the conversion of an unspecified amount of the species’ occupied foraging and sheltering habitat within 1,183.62 acres that is part of a 6,815.79-acre tract. The tract is located within Sections 12–13, Township 9 south, Range 23 east, Sections 7–17, 28–33, Township 9 south, Range 24 east, and Sections 5–6, Township 10 south, Range 24 east in Putnam County, Florida. The parcel numbers are 07–09–24–0000–0020–0010, 12–09–23–0000–0010–0000, 13–09–23–0000–0030–0000, 17–09–24–0000–0040–0020, 17–09–24–0000–0010–0010, 18–09–24–0000–0010–0000, 18–09–24–0000–0020–0000, 19–09–24–0000–0010–0010, 19–09–24–0720–0000, and 20–09–24–0000–0020–0000. The applicant proposes to expand the current project boundary from 1,183.62 acres to 1,683.86 acres, for a net increase of 500.24 acres. The amount of occupied skink habitat within the expansion area is undetermined; however, based on the current USFWS guideline, approximately 452.4 acres of the site appear to be suitable for the skink. In advance of mining operations occurring within the entire area, quantitative surveys will be conducted to determine the extent of suitable area that is occupied by the sand skink. The surveys will be conducted in accordance with the Service’s then guidelines. The applicant will mitigate for take of the sand skink within the expansion area by purchasing mitigation credits at a 2:1 ratio (2 mitigation credits for every 1 acre of occupied skink habitat impacted by the project) from the Tiger Creek Conservation Bank or another Service-approved sand skink bank. The Service will require the applicant to purchase the required credits prior to engaging in activities associated with the project on occupied habitat within the expansion area.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, be aware that your entire comment—including your personal identifying information—may be made available to the public. While you may request that we withhold your personal identifying information, we cannot guarantee that we will be able to do so.

Our Preliminary Determination

The Service has made a preliminary determination that the applicant’s project, including earth moving, grading, and other land alteration and construction activities and the proposed mitigation, would individually and cumulatively have a minor or negligible effect on sand skinks and the environment. Therefore, we have preliminarily concluded that the ITP for this project would qualify for categorical exclusion and that the HCP is low effect under our NEPA regulations at 43 CFR 419.205 and 419.2010. A low-effect HCP is one that would result in (1) minor or negligible effects on federally listed, proposed, and candidate species and their habitats; (2) minor or negligible effects on other environmental values or resources; and, (3) impacts that, when considered together with the impacts of other past, present, and reasonably foreseeable similarly situated projects, would not over time result in significant cumulative effects to environmental values or resources.

Next Steps

The Service will evaluate the application and the comments received to determine whether to issue the requested permit. We will also conduct an intra-Service consultation pursuant to section 7 of the ESA to evaluate the effects of the proposed take. After considering the above findings, we will determine whether the criteria of section 10(a)(1)(B) of the ESA have been met to modify the existing ITP. If met, the Service will issue the modified permit, ITP number TE82956B–1, to Vulcan Materials Company.

Authority

The Service provides this notice under section 10(c) of the ESA (16 U.S.C. 1531 et seq.) and its implementing regulations (50 CFR 17.32) and NEPA (42 U.S.C. 4321 et seq.) and its implementing regulations (40 CFR 1506.6 and 43 CFR 46.305).

Gianfranco Basili,
Deputy State Supervisor, Florida Ecological Services State Office.
