II. Exemption From Notice-and-Comment Procedures

OSHA has determined that these corrections are not subject to the procedures for public notice and comment specified in the Administrative Procedure Act (5 U.S.C. 553) or Section 6(b) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 655(b)). This rulemaking only corrects minor errors in the published rule and does not affect or change any existing rights or obligations. No stakeholder is likely to object to these corrections.

Therefore, the agency finds good cause that public notice and comment are unnecessary under 5 U.S.C. 553(b)(3)(B), 29 U.S.C. 655(b), and 29 CFR 1911.5.

We, the Office of Surface Mining Reclamation and Enforcement (OSMRE), are approving an amendment to the Montana abandoned mine land (AML) reclamation plan (Montana Plan) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA or the Act). Montana proposed to repeal and replace its existing AML Plan in response to OSMRE’s request to amend the Plan and to improve the readability and efficiency of the document. Montana also submitted a statutory provision enacted by the State legislature in 2007 regarding its AML account for OSMRE approval.

I. Background on the Montana Plan

The Abandoned Mine Land Reclamation Program was established by Title IV of the Act (30 U.S.C. 1201 et seq.) in response to concerns over extensive environmental damage caused by past coal mining activities. The program is funded by a reclamation fee collected on each ton of coal that is produced. The money collected is used to finance the reclamation of abandoned coal mines and for other authorized activities. Section 405 of the Act allows States and Indian Tribes to assume exclusive responsibility for reclamation activity within the State or on Indian lands if they develop and submit to the Secretary of the Interior for approval a program (often referred to as a plan) for the reclamation of abandoned coal mines.

On October 24, 1980, the Secretary of the Interior approved the Montana Plan. You can find general background information on the Montana Plan, including the Secretary’s findings and the disposition of comments, in the October 24, 1980, Federal Register (45 FR 70445). OSMRE announced in the July 9, 1990, Federal Register (55 FR 28022) the Director’s decision accepting certification by Montana that it had addressed all known coal-related impacts in the State that were eligible for funding under the Montana Plan. You can also find later actions concerning Montana’s AML Program and Plan amendments at 30 CFR 926.25. II. Submission of the Amendment

Under the authority of 30 CFR 884.15, OSMRE directed Montana to update its Plan by letter dated March 6, 2019 (Document ID No. OSM–2020–0004–0003). OSMRE indicated that the Montana Plan required revisions to meet the requirements of SMCRA as revised on December 20, 2006, under the Tax Relief and Health Care Act of 2006 (Pub. L. 109–432), and in response to changes made to the implementing Federal regulations as revised on November 14, 2008 (73 FR 67576) and February 5, 2015 (80 FR 6435). By letter dated August 4, 2020 (Administrative Record No. OSM–2020–0004–0002), Montana sent us an amendment to its State Plan under SMCRA (30 U.S.C. 1201 et seq.). Montana’s amendment is intended to address all required amendments identified in OSMRE’s letter dated March 6, 2019. The State also proposed additional changes as part of the State’s initiative to improve the Plan’s readability and operational efficiency. The State also proposed a statutory addition enacted by its legislature in 2007. Montana’s amendment will repeal and replace the State’s existing Abandoned Mine Lands (AML) Plan.

We announced receipt of the proposed amendment in the December
