§ 165.T09–0510 Bear Birthday Celebration, Lake Charlevoix, Boyne City, MI.

(a) Location. The following area is a temporary safety zone: All navigable water within 500 feet of the fireworks launching location in position 45°15′20.60″ N 85°03′50.33″ W (NAD 83).

(b) Definitions. As used in this section, designated representative means a Coast Guard Patrol Commander, including a Coast Guard coxswain, petty officer, or other officer operating a Coast Guard vessel and a Federal, State, and local officer designated by or assisting the Captain of the Port Sault Sainte Marie (COTP) in the enforcement of the safety zone.

(c) Regulations. (1) In accordance with the general regulations in § 165.23, entry into, transiting, or anchoring within the safety zone described in paragraph (a) of this section is prohibited unless authorized by the Captain of the Port, Sault Sainte Marie or his designated representative.

(2) Before a vessel operator may enter or operate within the safety zone, they must obtain permission from the Captain of the Port, Sault Sainte Marie, or his designated representative via VHF Channel 16 or telephone at (906) 635–3233. Vessel operators given permission to enter or operate in the safety zone must comply with all orders given to them by the Captain of the Port, Sault Sainte Marie or his designated representative.

(d) Enforcement period. This section will be enforced from 9 p.m. until 11 p.m. on July 31, 2021.

Dated: July 8, 2021.

A.R. Jones,
Captain of the Port Sault Sainte Marie.

DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

33 CFR Part 273

RIN 0710–AB36

Aquatic Plant Control

AGENCY: U.S. Army Corps of Engineers, Department of Defense.

ACTION: Final rule.

SUMMARY: This final rule removes the U.S. Army Corps of Engineers part titled Aquatic Plant Control. This part is redundant and otherwise covers internal agency operations that have no public compliance component or adverse public impact. Therefore, this part can be removed from the Code of Federal Regulations (CFR).

DATES: This rule is effective on July 14, 2021.

FOR FURTHER INFORMATION CONTACT: Mr. Jeremy Crossland at (202) 761–4259 or by email at Jeremy.M.Crossland@usace.army.mil.

SUPPLEMENTARY INFORMATION: This final rule removes from the CFR part 273 of title 33, “Aquatic Plant Control,” which prescribes policies, procedures and guidelines for research, planning and operations for the Aquatic Plant Control Program of the Corps under authority of section 104 of the Rivers and Harbors Act of 1958, as amended by section 104 of the Rivers and Harbors Act of 1962 and Section 302 of the Rivers and Harbors Act of 1965. This law, codified at 33 U.S.C. 610 has been amended several more times, most recently by section 1039(d) of the Water Resources Reform and Development Act of 2014 and section 1178(b) of the Water Resources Development Act of 2016. The Aquatic Plant Control Program is designed to deal primarily with weed infestations of major economic significance including those that have reached that stage and those that have potential in navigable waters, tributaries, streams, connecting channels and allied waters. The regulation governs a program that manages cost-share authority between the Federal government and another governmental agency. This rule was initially published on June 3, 1976 (41 FR 22346). While the rule applies only to the Corps’ Aquatic Plant Program, it was published, at that time, in the Federal Register to aid public accessibility. The solicitation of public comment for this removal is unnecessary because the rule is out-of-date, duplicative of existing internal agency guidance, and otherwise covers internal agency operations that have no public compliance component or adverse public impact. For current public accessibility purposes, updated internal agency policy on this topic may be found in Engineer Regulation 1130–2–500, “Project Operations Partners and Support (Work Management Policies)” (available at https://www.publications.usace.army.mil/Portals/76/Publications/EngineerRegulations/ER_1130–2–500.pdf). The agency policy is only applicable to field operating activities having responsibility for the Aquatic Plant Program projects and provides guidance specific to the Corps’ control of aquatic plants.

This rule removal is being conducted to reduce confusion for the public as well as for the Corps regarding the current policy which governs the Corps’ Aquatic Plant Program. Because the rule does not place a burden on the public, its removal does not provide a reduction in public burden or costs.

This rule is not significant under Executive Order (E.O.) 12866, “Regulatory Planning and Review.”

List of Subjects in 33 CFR Part 273

Aquatic plant control, Pesticides and pests, Waterways.

PART 273—[REMOVED]

Accordingly, by the authority of 5 U.S.C. 301, 33 CFR part 273 is removed.

Date: July 1, 2021.

Jaime A. Pinkham,
Acting Assistant Secretary of the Army (Civil Works).

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

Air Plan Approval; Connecticut; Definitions of Emergency and Emergency Engine

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving a State Implementation Plan (SIP) revision submitted by the State of Connecticut on December 20, 2019. This revision amends the State’s definitions of emergency and emergency engine in its air quality regulations. The intended effect of this action is to approve the December 20, 2019, submittal into the Connecticut SIP. This action is being taken in accordance with the Clean Air Act.

DATES: This rule is effective on August 13, 2021.

ADDRESSES: EPA has established a docket for this action under Docket Identification No. EPA–R01–OAR–2021–0042. All documents in the docket
