BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2020-0642; Airspace Docket No. 19-AWP-98]

RIN 2120-AA66

Amendment of V-25, V-27, V-494, V-108, V-301, and T-257 in the Vicinity of Santa Rosa, CA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; correction.

SUMMARY: This action corrects a final rule published by the FAA in the **Federal Register** on June 4, 2021 that amends VHF Omnidirectional Range (VOR) Federal airways V-25, V-27, V-494, V-108, V-301, and United States Area Navigation route (RNAV) T-257 in the vicinity of Santa Rosa, CA. This action makes an editorial correction to include the Mendocino VOR, which was inadvertently deleted from the legal description for V-494. Amendments are due to the planned decommissioning of the Santa Rosa, CA VOR/Distance Measuring Equipment (DME) navigation aid (NAVAID) which provides navigation guidance for portions of the affected airways. The Santa Rosa VOR/DME is being decommissioned as part of the FAA's VOR Minimum Operational Network (MON) program.

DATES: Effective date 0901 UTC, August 12, 2021. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

ADDRESSES: FAA Order 7400.11E, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at https://www.faa.gov/air_traffic/publications/. For further information, you can contact the Rules and Regulations Group, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267-8783. The Order is also available for inspection at the National Archives and Records Administration (NARA). For information on the availability of FAA

Order 7400.11E at NARA, email: fedreg.legal@nara.gov or go to <https://www.archives.gov/federal-register/cfr/ibr-locations.html>.

FOR FURTHER INFORMATION CONTACT: Christopher McMullin, Rules and Regulations Group, Office of Policy, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267-8783.

SUPPLEMENTARY INFORMATION:

History

The FAA published a notice of proposed rulemaking for Docket No. FAA-2020-0642 in the **Federal Register** (85 FR 47928; August 7, 2020) and a final rule (86 FR 29946; June 4, 2021), amending VOR Federal airways V-25, V-27, V-494, V-108, V-301, and RNAV route T-257 in the vicinity of Santa Rosa, CA, due to the planned decommissioning of the Santa Rosa, CA, VOR/DME NAVAID. Subsequent to the publication, it was determined that Mendocino, CA, VOR was missing from the legal description of V-494. This rule corrects that error by including Mendocino, CA, VOR in its appropriate place in the V-494 legal description. This is an editorial change only and does not alter the alignment of the route as shown on aeronautical charts, and does not affect the use of the route by aircraft.

VOR Federal airways are published in paragraph 6010(a) of FAA Order 7400.11E dated July 21, 2020, and effective September 15, 2020, which is incorporated by reference in 14 CFR 71.1. The VOR Federal airway listed in this document will be subsequently published in the Order.

Availability and Summary of Documents for Incorporation by Reference

This document amends FAA Order 7400.11E, Airspace Designations and Reporting Points, dated July 21, 2020, and effective September 15, 2020. FAA Order 7400.11E is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11E lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

Correction to Final Rule

■ The description of VOR Federal Airway V-494, as published on page 29948, in column 1 beginning on line 10, in the **Federal Register** of June 4, 2021 (86 FR 29946), FR Doc. 2021-11651, is corrected as follows:

V-494 [Corrected]

From Crescent City, CA, via INT Crescent City 195° and Fortuna, CA, 345° radials;

Fortuna; INT Fortuna 170° and Mendocino, CA 321° radials; Mendocino; INT Point Reyes, CA 006° and Scaggs Island, CA 314° radials; Sacramento, CA; INT Sacramento 038° and Squaw Valley, CA, 249° radials; Squaw Valley; INT Squaw Valley 078° and Hazen, NV, 244° radials; Hazen.

46 CFR Chapter I

[Docket No. USCG-2021-0404]

Cancellation of Obsolete Navigation and Inspection Circulars

AGENCY: Coast Guard, DHS.

ACTION: Announcement of decision.

SUMMARY: The Coast Guard announces the cancellation of several obsolete Navigation and Vessel Inspection Circulars (NVIC). NVICs are guidance documents issued by the Coast Guard that do not have the force of law. However, NVICs ensure Coast Guard inspections and other regulatory actions conducted by field personnel are complete and consistent. Similarly, the marine industry and the general public rely on NVICs as a way to assess how the Coast Guard will enforce certain regulations or conduct various marine safety programs. Thus, it is important that the public is made aware when NVICs are cancelled so as to avoid confusion.

DATES: July 15, 2021.

FOR FURTHER INFORMATION CONTACT: For information about this document call or email LCDR Peter Bizzaro, Coast Guard; telephone 202-372-1135, email cg-cvc@uscg.mil.

SUPPLEMENTARY INFORMATION:

Background and Purpose

A Navigation and Vessel Inspection Circular (NVIC) provides detailed guidance about the enforcement or compliance with a certain Federal marine safety regulations and Coast Guard marine safety programs. While NVIC's are non-directive, meaning that they do not have the force of law, they are important "tools" for complying

with the law. To best serve the public and maritime industry, the Coast Guard is reviewing and actively managing its inspections policy to ensure that all published NVICs are consistent with current practices.

The Coast Guard is issuing this document under 5 U.S.C. 552(a)(1)(e). This document serves to inform the public about the cancellation and removal of certain obsolete and outdated Coast Guard NVICs. The Coast Guard wishes to reduce confusion to the public by removing NVICs that do not reflect current practices and that potentially conflict with more modern guidance.

NVICs Being Repealed

1. NVIC 09–83 provided guidance on the carriage of charts and publications. The regulations it references were amended in June 2001. Agencies mentioned in the NVIC no longer provide the services mentioned as charts have moved to digital formatting. Current policy can be found in the superseding NVIC 01–16.

2. NVICs 02–97 and 02–97CH–1 provided guidance on the implementation of operational measures for existing tank vessels without double hulls until 2015. The phase out ended on January 1, 2015. Since the phase out date of January 1, 2015 has passed the guidance no longer applies. Due to the obsolescence of the vessel classification this NVIC regulates, there is no longer a need for its publication.

3. NVICs 10–94, 10–94CH–1, and 10–94CH–2 provided guidance for the OPA 90 Phase-Out Schedule of single hull vessels carrying oil. The phase out ended on January 1, 2015. After January 1, 2015 any vessel carrying oil must be double hulled, except for those exceptions under 46 U.S.C. 3703a (b)(1)–(5). The phase out was final in 2015. Therefore, there are no more vessels operating lawfully which would need a determination for phase out. This eliminates the need for guidance in classifying them.

4. NVIC 10–83 provides guidance on the procedures for the issuance of stability letters to small passenger vessels (SPV) of less than 65'. The Coast Guard organizations referenced no longer exist and the SPV stability regulations have been updated twice since the date of issuance. This NVIC is outdated and confusing to the public. The current regulatory requirements for a stability letter can be found in 46 CFR part 170.

5. NVIC 00–13 provides guidance on the list of currently applicable NVICs as of January 1, 2013. This list is incomplete and outdated. The list of

currently applicable NVICs has not been updated since January 1, 2013. The Coast Guard provides all NVICs on its outward facing website where each NVIC entry's description indicates whether its currently applicable.

6. NVIC 05–71 provides an index of 46 CFR part 151 under subchapter O that concerns barges carrying bulk liquid hazardous material cargoes. The subchapter has been altered since the time of the NVIC's release. The information in this NVIC is no longer accurate or current. The current outline of subchapter O on certain bulk dangerous cargoes can be found as part of the eCFR, provided at no cost online.

7. NVIC 07–99 provides guidance regarding the Coast Guard's policy on ensuring maritime safety during the year 2000 (Y2K) date change. The year 2000 has passed and this policy is no longer applicable.

8. NVIC 13–92 provides guidance concerning the delineation of Captain of the Port (COTP) zone boundaries throughout the Exclusive Economic Zone (EEZ). NVIC 13–92 has out of date geographical limits to represent COTP zone boundaries and is obsolete. The current COTP boundaries are properly reflected in 33 CFR part 3.

Dated: June 14, 2021.

W.R. Arguin,

Captain, U.S. Coast Guard, Director of Inspection and Compliance (CG–5PC).

RIN 1625–AA08

Special Local Regulation; Breton Bay, McIntosh Run, Leonardtown, MD

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing special local regulations for certain waters of Breton Bay and McIntosh Run. This action is necessary to provide for the safety of life on these navigable waters located at Leonardtown, MD, during a high-speed power boat demonstration event on July 31, 2021, and August 1, 2021. Entry of vessels or persons into this regulated area is prohibited unless specifically authorized by the Captain of the Port

Maryland-National Capital Region or the Event Patrol Commander.

DATES: This rule is effective from 7 a.m. on July 31, 2021, through 6 p.m. on August 1, 2021.

ADDRESSES: To view documents mentioned in this preamble as being available in the docket, go to <https://www.regulations.gov>, type USCG–2021–0214 in the “SEARCH” box and click “SEARCH.” Next, in the Document Type column, select “Supporting & Related Material.”

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call or email MST1 Shaun Landante, Sector Maryland-National Capital Region Waterways Management Division, U.S. Coast Guard; telephone 410–576–2570, email Shaun.C.Landante@uscg.mil.

II. Background Information and Regulatory History

The Southern Maryland Boat Club of Leonardtown, MD, has notified the Coast Guard that it will be conducting the Southern Maryland Boat Club Wharf Summer Regatta from 9:30 a.m. to 4 p.m. on July 31, 2021, and from 10:15 a.m. to 4 p.m. on August 1, 2021. The high-speed boat event consists of approximately 50 participating vintage and historic race boats—including runabouts, v-bottoms, tunnel hulls, and hydroplanes—12 to 21 feet in length. The boats will be participating in an exhibition, operating in heats along a marked racetrack-type course 1 mile in length and 150 feet in width, located in Breton Bay and McIntosh Run at Leonardtown, MD. The Regatta is not a competition, but rather a demonstration of the vintage race craft. Hazards from the high-speed power boat demonstration event include participants operating within and adjacent to designated navigation channels and interfering with vessels intending to operate within those channels, as well as operating within approaches to local public boat landings. In response, on June 10, 2021, the Coast Guard published a notice of proposed rulemaking (NPRM) titled “Special Local Regulation; Breton Bay, McIntosh Run, Leonardtown, MD” (86 FR 30851). There we stated why we issued the NPRM, and invited comments on our proposed regulatory action related to this high-speed power
