14 CFR Part 71

RIN 2120–AA66

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; correction.

**SUMMARY:** This action corrects a final rule published by the FAA in the Federal Register on June 4, 2021 that amends VHF Omnidirectional Range (VOR) Federal airways V–25, V–27, V–494, V–108, V–301, and United States Area Navigation route (RNAV) T–257 in the vicinity of Santa Rosa, CA. This action makes an editorial correction to include the Mendocino VOR, which was inadvertently deleted from the legal description for V–494. Amendments are due to the planned decommissioning of the Santa Rosa, CA VOR/Distance Measuring Equipment (DME) navigation aid (NAVAID) which provides navigation guidance for portions of the affected airways. The Santa Rosa VOR/DME is being decommissioned as part of the FAA’s VOR Minimum Operational Network (MON) program.

**DATES:** Effective date 0901 UTC, August 12, 2021. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

**History**

The FAA published a notice of proposed rulemaking for Docket No. FAA–2020–0642 in the Federal Register (85 FR 47928; August 7, 2020) and a final rule (86 FR 29946; June 4, 2021), amending VHF Omnidirectional Range (VOR) Federal airways V–25, V–27, V–494, V–108, V–301, and RNAV route T–257 in the vicinity of Santa Rosa, CA, due to the planned decommissioning of the Santa Rosa, CA, VOR/DME NAVAID. Subsequent to the publication, it was determined that Mendocino, CA, VOR was missing from the legal description of V–494. This rule corrects that error by including Mendocino, CA, VOR in its appropriate place in the V–494 legal description. This is an editorial change only and does not alter the alignment of the route as shown on aeronautical charts, and does not affect the use of the route by aircraft.

VOR Federal airways are published in paragraph 6010(a) of FAA Order 7400.11E dated July 21, 2020, and effective September 15, 2020, which is incorporated by reference in 14 CFR 71.1. The VOR Federal airway listed in this document will be subsequently published in the Order.

[Docket No. USCG–2021–0404]

Cancellation of Obsolete Navigation and Vessel Inspection Circulars

AGENCY: Coast Guard, DHS.

ACTION: Announcement of decision.

**SUMMARY:** The Coast Guard announces the cancellation of several obsolete Navigation and Vessel Inspection Circulars (NVIC). NVICs are guidance documents issued by the Coast Guard that do not have the force of law. However, NVICs ensure Coast Guard inspections and other regulatory actions conducted by field personnel are complete and consistent. Similarly, the marine industry and the general public rely on NVICs as a way to assess how the Coast Guard will enforce certain regulations or conduct various marine safety programs. Thus, it is important that the public is made aware when NVICs are cancelled so as to avoid confusion.

**DATES:** July 15, 2021.

**FOR FURTHER INFORMATION CONTACT:** For information about this document call or email LCDR Peter Bizzarro, Coast Guard; telephone 202–372–1135, email cg-cvc@uscg.mil.

**SUPPLEMENTARY INFORMATION:**

**Background and Purpose**

A Navigation and Vessel Inspection Circular (NVIC) provides detailed guidance about the enforcement or compliance with a certain Federal marine safety regulations and Coast Guard marine safety programs. While NVIC’s are non-directive, meaning that they do not have the force of law, they are important “tools” for complying
