SUPPLEMENTARY INFORMATION:
Authority for This Rulemaking

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it establishes Class E and modifies Class E airspace at Williston Basin International Airport, Williston, ND, to ensure the safety and management of IFR operations at the airport.

History

The FAA published a notice of proposed rulemaking in the Federal Register (86 FR 21672; April 23, 2021) for Docket No. FAA–2021–0292 to modify the Class E airspace at Williston Basin International Airport, Williston, ND. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

After the publication of the NPRM, the FAA determined that Class E4 airspace should be established versus modifying the Class E2 airspace. This action corrects the NPRM by establishing Class E4 airspace. This airspace area is designed to contain IFR aircraft descending below 1,000 feet above the surface on the VOR RWY 22 approach. The new Class E4 area is identical to the Class E2 modification that was proposed in the NPRM. The airspace is described as “That airspace extending upward from the surface within 2.4 miles each side of the 045° bearing from the airport, extending from the Class E2’s 4.2-mile radius to 6.8 miles northeast of the airport.”

Class E2, E4, and E5 airspace designations are published in paragraphs 6002, 6004, and 6005 of FAA Order 7400.11E, dated July 21, 2020, and effective September 15, 2020, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

Availability and Summary of Documents for Incorporation by Reference

This document amends FAA Order 7400.11E, Airspace Designations and Reporting Points, dated July 21, 2020, and effective September 15, 2020. FAA Order 7400.11E is publicly available as listed in the ADDRESSES section of this document. FAA Order 7400.11E lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This amendment to 14 CFR part 71 establishes a Class E airspace area, designated as an extension to a Class D or Class E surface area, at Williston Basin International Airport, Williston, ND. This airspace area is established northeast of the airport and is designed to contain arriving IFR aircraft descending below 1,000 feet above the surface on the VOR RWY 22 approach. Additionally, this action modifies the Class E airspace extending upward from 700 feet above the surface. This airspace is designed to contain arriving IFR aircraft descending below 1,500 feet above the surface and departing IFR aircraft until reaching 1,200 feet above the surface. An area northeast and
another southwest of the airport are added to contain IFR aircraft arriving and departing the airport.

Lastly, the action updates the geographic coordinates in the Class E2 and Class E5 text headers. The coordinates are updated to “lat. 48°15′35″ N, long. 103°45′02″ W,” to match the FAA database.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial, and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” paragraph 5–6.5a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant the preparation of an environmental assessment.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

§71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of FAA Order 7400.11E, Airspace Designations and Reporting Points, dated July 21, 2020, and effective September 15, 2020, is amended as follows:

Paragraph 6002 Class E Airspace Designated as a Surface Area.

* * * * *

AGL. ND E2 Williston, ND [Amended]
Williston Basin International Airport, ND (Lat. 48°15′35″ N, long. 103°45′02″ W)

That airspace extending upward from the surface within a 4.2-mile radius of the airport, and within 1.3 miles each side of the 135° bearing from the airport extending from the 4.2-mile radius to 4.7 miles southeast of the airport, and within 1.3 miles each side of the 339° bearing from the airport extending from the 4.2-mile radius to 4.7 miles north of the airport.

Paragraph 6004 Class E Airspace Areas Designated as an Extension to a Class D or Class E Surface Area.

* * * * *

AGL. ND E4 Williston, ND [New]
Williston Basin International Airport, ND (Lat. 48°15′35″ N, long. 103°45′02″ W)

That airspace extending upward from the surface within 2.4 miles each side of the 045° bearing from the airport extending from the Class E2’s 4.2-mile radius to 6.8 miles northeast of the airport.

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

AGL. ND E5 Williston, ND [Amended]
Williston Basin International Airport, ND (Lat. 48°15′35″ N, long. 103°45′02″ W)

That airspace extending upward from 700 feet above the surface within a 6.7-mile radius of the airport, and within 4.4 miles each side of the 044° bearing from the airport extending from the 6.7-mile radius to 9.8 miles northeast of the airport, and within 2 miles each side of the 053° bearing from the airport extending from the 6.7-mile radius to 12.4 miles northeast of the airport and within 3.3 miles each side of the 133° bearing from the airport extending from the 6.7-mile radius to 11.3 miles southeast of the airport, and within 2.1 miles each side of the 232° bearing from the airport extending from the 6.7-mile radius to 11.8 miles southwest of the airport, and within 3.8 miles each side of the 340° bearing from the airport extending from the 6.7-mile radius to 11 miles north of the airport; and that airspace extending upward from 1,200 feet above the surface within a 41-mile radius of the airport.
