multiply-listed equity options 46 for the month of June 2021, and the Exchange believes that the ever-shifting market share among exchanges from month to month demonstrates that market participants can discontinue or reduce use of certain categories of products, or shift order flow, in response to fee changes. In such an environment, the Exchange must continually adjust its fees to remain competitive with other exchanges and to attract order flow to the Exchange.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act, 15 U.S.C. 78s(b)(3)(A)(ii), and Rule 19b–4(f)(2) thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission’s internet comment form (http://www.sec.gov/rules/sro.shtml);
- Send an email to rule-comments@sec.gov. Please include File Number SR–PEARL–2021–32 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090. All submissions should refer to File Number SR–PEARL–2021–32.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.

J. Matthew DeLesDernier, Assistant Secretary.

[Billing Code 8011–01–P]

SECURITIES AND EXCHANGE COMMISSION

Self-Regulatory Organizations; MIAX PEARL, LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change by MIAX PEARL, LLC To Amend the MIAX Pearl Options Fee Schedule

July 9, 2021.

Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act") 1 and Rule 19b–4 thereunder, 2 notice is hereby given that on July 1, 2021, MIAX PEARL, LLC ("MIAX Pearl" or "Exchange") filed with the Securities and Exchange Commission ("Commission") a proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is filing a proposal to amend the MIAX Pearl Options Fee Schedule (the "Fee Schedule"). The text of the proposed rule change is available on the Exchange’s website at http://www.miaxoptions.com/rule-filings/pearl at MIAX Pearl’s principal office, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend the Add/Remove Tiered Rebates/Fees set forth in Section 1(a) of the Fee Schedule that apply to the MIAX Pearl Market Maker 3 Origin, to modify the volume threshold for the alternative Volume Criteria in Tier 3.

Background

The Exchange currently assesses transaction rebates and fees to all market participants which are based upon the total monthly volume

- "Market Maker" means a Member registered with the Exchange for the purpose of making markets in options contracts traded on the Exchange and that is vested with the rights and responsibilities specified in Chapter VI of Exchange Rules. See the Definitions Section of the Fee Schedule.
executed by the Member 4 on MIAX Pearl in the relevant, respective origin type (not including Excluded Contracts) 5 (as the numerator) expressed as a percentage of (divided by) TCV 6 (as the denominator). In addition, the per contract transaction rebates and fees are applied retroactively to all eligible volume for that origin type once the respective threshold tier ("Tier") has been reached by the Member. The Exchange aggregates the volume of Members and their Affiliates. Members that place resting liquidity, i.e., orders resting on

4 "Member" means an individual or organization that is registered with the Exchange pursuant to Chapter II of the Exchange Rules for purposes of trading on the Exchange as an "Electronic Exchange Member" or "Maker." Members are also "members" under the Exchange Act. See the Definitions Section of the Fee Schedule and Exchange Rule 100.

5 "Excluded Contracts" means any contracts routed to an away market for execution. See the Definitions Section of the Fee Schedule.

6 "TCV" means total consolidated volume calculated as the total volume in those classes listed on MIAX Pearl for the month for which the fees apply, excluding consolidated volume executed during the period of time in which the Exchange experiences an "Exchange System Disruption" (solely in the option classes of the affected Matching Engine (as defined below)). The term Exchange System Disruption, which is defined in the Definitions Section of the Fee Schedule, means an outage of a Matching Engine or collective Matching Engines for a period of two consecutive hours or more, during trading hours. The term Matching Engine, which is also defined in the Definitions Section of the Fee Schedule, is a port of the MIAX Pearl electronic system that processes options orders and trades on a symbol-by-symbol basis. Some Matching Engines will process option classes with multiple root symbols, and other Matching Engines may be dedicated to a single option root symbol (for example, options on SPY may be processed by a single Matching Engine that is dedicated only to SPY). A particular root symbol may only be assigned to a single designated Matching Engine. A particular root symbol may not be assigned to multiple Matching Engines. The Exchange believes that it is reasonable and appropriate to select two consecutive hours as the amount of time necessary to constitute an Exchange System Disruption, as two hours equates to approximately 1.4% of available trading time per month. The Exchange notes that the term "Exchange System Disruption" and its meaning have no applicability outside of the Fee Schedule, as it is used solely for purposes of calculating volume for the threshold tiers in the Fee Schedule. See the Definitions Section of the Fee Schedule.

7 "Affiliate" means (i) an affiliate of a Member of at least 50% common ownership between the firms as reflected on each firm's Form BD, Schedule A, or (ii) the Appointed Market Maker of an Appointed EEM (or, conversely, the Appointed EEM of an Appointed Market Maker). An "Appointed Market Maker" is a MIAX Pearl Market Maker (who does not otherwise have a corporate affiliation based upon common ownership with a MIAX Pearl Market Maker) that has been appointed by a MIAX Pearl Market Maker, pursuant to the process described in the Fee Schedule. See the Definitions Section of the Fee Schedule.

8 The term "System" means the automated trading system used by the Exchange for the trading of securities. See Exchange Rule 100.

9 "ABBO" means the best bid(s) or offer(s) disseminated by other Eligible Exchanges (defined in Exchange Rule 1400(g) and calculated by the Exchange based on market information received by the Exchange from OPRA. See the Definitions Section of the Fee Schedule and Exchange Rule 100.

11 "SPY TCV" means total consolidated volume in SPY calculated as the total national volume in SPY for the month for which the fees apply, excluding consolidated volume executed during the period of time in which the Exchange experiences an Exchange System Disruption (solely in SPY options). See the Definitions Section of the Fee Schedule.
determined to level-set this threshold amount so that it is more reflective of the current type and amount of volume executed on the Exchange.

The Exchange cannot predict with certainty how many Market Makers would achieve the alternative Tier 3 Volume Criteria with the decreased threshold percentage, but anticipates that each Market Maker that is currently in Tier 3 with that alternative method will likely continue to reach that Tier due to that change.

The Exchange has designated these changes to be operative on July 1, 2021.

2. Statutory Basis

The Exchange believes that its proposal to amend its Fee Schedule is consistent with Section 6(b)(6) of the Act in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanisms of a free and open market and a national market system and, in general, to protect investors and the public interest.

The Exchange believes its proposal to modify the volume threshold for the alternative Volume Criteria in Tier 3 provides for the equitable allocation of reasonable dues, fees and other charges among Exchange members and issuers and other persons using its facilities, and that the Exchange has taken into consideration the costs of the alternative method to be competitive over the current method.

The Commission has repeatedly expressed its preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. In Regulation NMS, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system “has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies.” There are currently 16 registered options exchanges competing for order flow. Based on publicly-available information, and excluding index-based options, no single exchange has more than approximately 15% of the market share of executed volume of multiply-listed equity and ETF options trades as of June 29, 2021, for the month of June 2021. Therefore, no exchange possesses significant pricing power in the execution of multiply-listed equity and ETF options order flow. More specifically, as of June 29, 2021, the Exchange had an approximately 5.32% market share of executed volume of multiply-listed equity and ETF options for the month of June 2021.

The Exchange believes that the ever-shifting market shares among the exchanges from month to month demonstrates that market participants can shift order flow, or discontinue or reduce use of certain categories of products, in response to transaction and/or non-transaction fee changes. For example, on February 28, 2019, the Exchange filed with the Commission a proposal to increase Taker fees in certain Tiers for options transactions in certain Penny classes for Priority Customers and decrease Maker rebates in certain Tiers for options transactions in Penny classes for Priority Customers (which fee was to be effective March 1, 2019). The Exchange experienced a decrease in total market share between the months of February and March of 2019, after the fees were in effect. Accordingly, the Exchange believes that the March 1, 2019 fee change may have contributed to the decrease in the Exchange’s market share and, as such, the Exchange believes competitive forces constrain options exchange transaction fees and market participants can shift order flow based on fee changes instituted by the exchanges.

The Exchange believes its proposal to modify the volume threshold for the alternative Volume Criteria in Tier 3 is reasonable, equitable, and not unfairly discriminatory for the following reasons. The Exchange operates in a highly competitive market. The Commission has repeatedly expressed its preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. In Regulation NMS, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system “has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies.”

Additionally, as the amount and type of volume that is executed on the Exchange has shifted since it first established the alternative Volume Criteria in Tier 3, the Exchange has determined to level-set this threshold amount so that it is more reflective of the current type and amount of volume executed on the Exchange.

The Exchange believes the alternative Volume Criteria in Tier 3 is reasonable, equitable, and not unfairly discriminatory because it is a form of pricing already adopted by the Exchange and a form of pricing based upon trading activity in a select group of symbols, which is a common practice on many U.S. options exchanges as a means to incentivize order flow to be sent to an exchange for execution in actively traded options classes. The Exchange’s affiliate, Miami International Securities Exchange, LLC (“MIAX”), offers differentiated pricing for transactions in options underling certain select symbols.

Other options exchanges’ fee schedules distinguish by symbol and specifically assess different fees and rebates for transactions in select symbols for the same market participants.

The Exchange also believes that its proposal is not unfairly discriminatory as all Market Makers can continue to qualify for the alternative Volume Criteria in Tier 3 by meeting the lowered threshold amount, which is designed to incentivize Market Makers to maintain quality markets. In addition, the Exchange continues to believe that it is not unfairly discriminatory to offer rebates pursuant to this proposal to only Market Makers because Market Makers add value through continuous quoting and are subject to additional requirements and obligations (such as quoting obligations) that other market participants are not.

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule changes will impose

\[17\) U.S.C. 78f(b)(1) and (b)(5).
\[19\) See generally, Section (1)(a) of the Fee Schedule for Market Maker Origin.
\[20\) See MIAX Options Fee Schedule, Section (1)(a)(ii).
\[21\) See Nasdaq ISE, LLC (“ISE”) Fee Schedule, Section 3, Regular Order Fees and Rebates. The ISE Fee Schedule provides for a “Market Maker Plus” program for Select and Non-Select Symbols, with tiered incentives for Market Makers. Further, the ISE Fee Schedule provides for a linked maker rebate for SPY, QQQ and IWM, in which the linked maker rebate applies to executions in SPY, QQQ, and IWM if the ISE Market Maker does not achieve the applicable tier in that symbol but achieves the tier (i.e., any of the Market Maker Plus Tiers 2–4) for any hedge/suffix combination in the other linked symbol, in which case the higher tier achieved applies to both symbols.

37390 Federal Register / Vol. 86, No. 133 / Thursday, July 15, 2021 / Notices
any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

The Exchange believes its proposal will not impose any burden on intramarket competition because the Exchange believes that its proposal will not place any category of Exchange market participant at a competitive disadvantage. The proposal to modify the volume threshold for the alternative Volume Criteria in Tier 3 is intended to improve market quality. The Exchange believes that its proposal will encourage Market Makers to improve market quality by providing the additional incentive to Market Makers in SPY, QQQ and IWM options for Market Makers that send additional SPY orders, which results in narrower bid-ask spreads and increased depth of liquidity. This in turn will attract additional order flow to the Exchange. Accordingly, the Exchange believes that the proposed changes will continue to attract order flow to the Exchange, thereby encouraging additional volume and liquidity to the benefit of all market participants.

The Exchange believes its proposal will not impose any burden on intermarket competition because the Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive, or rebate opportunities available at other venues to be more favorable. In such an environment, the Exchange must continually adjust its fees to remain competitive with other options exchanges. Because competitors are free to modify their own fees in response, and because market participants may readily adjust their order routing practices, the Exchange believes that the degree to which fee changes in this market may impose any burden on competition is extremely limited. The Exchange believes that the proposed rule changes reflect this competitive environment because they modify the Exchange’s fees in a manner that encourages market participants to continue to provide liquidity and to send order flow to the Exchange.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act,21 and Rule 19b–4(f)(2)22 thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission’s internet comment form (http://www.sec.gov/rules/sro.shtml); or
- Send an email to rule-comments@sec.gov. Please include File Number SR–PEARL–2021–31 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE, Washington, DC 20549–1090.

All submissions should refer to File Number SR–PEARL–2021–31 on the subject line. The Commission will post all comments on the Commission’s internet website (http://www.sec.gov/rules/sro.shtml). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission’s Public Reference Room, 100 F Street NE, Washington, DC 20549 on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change. Persons submitting comments are cautioned that we do not redact or edit personal identifying information from comment submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR–PEARL–2021–31, and should be submitted on or before August 5, 2021.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.24

J. Matthew DeLesDernier,
Assistant Secretary.

BILLING CODE 8011–01–P

SECURITIES AND EXCHANGE COMMISSION

[Investment Company Act Release No. 34326; 812–15175]

Fidelity Beach Street Trust, et al.

July 9, 2021.

AGENCY: Securities and Exchange Commission ("Commission").

ACTION: Notice of an application to amend a prior order for exemptive relief.

SUMMARY OF APPLICATION: Applicants request an order ("Amended Order") that would amend a prior order to permit the Funds, as defined below, to use Creation Baskets (as defined below) that include instruments that are not included, or are included with different weightings, in the Fund’s Tracking Basket (as defined below).

APPLICANTS: Fidelity Beach Street Trust ("Beach Street"), Fidelity Management & Research Company LLC ("FMR"), Fidelity Distributors Company LLC ("FDC") and Fidelity Covington Trust ("New Applicant" and, together with Beach Street, FMR and FDC, the "Applicants").

FILING DATES: The application was filed on October 30, 2020, and amended on April 2, 2021, June 11, 2021 and June 30, 2021.

HEARING OR NOTIFICATION OF HEARING: An order granting the requested relief will be issued unless the Commission orders a hearing. Interested persons may
