Based on the analysis contained herein of Chevron’s proposed survey activity described in its LOA application and the anticipated take of marine mammals, NMFS finds that small numbers of marine mammals will be taken relative to the affected species or stock sizes and therefore is of no more than small numbers.

Authorization

NMFS has determined that the level of taking for this LOA request is consistent with the findings made for the total taking allowable under the incidental take regulations and that the amount of take authorized under the LOA is of no more than small numbers. Accordingly, we have issued an LOA to Chevron authorizing the take of marine mammals incidental to its geophysical survey activity, as described above.

Abstract: The purpose of the 21st Century Community Learning Centers (21st CCLC) program, as authorized under Title IV, Part B, of the Elementary and Secondary Education Act, as amended by the Every Student Succeeds Act (ESSA) (20 U.S.C. 7171–7176) is to create community learning centers that provide academic enrichment opportunities for children, particularly students who attend high poverty and low-performing schools, to meet State and local student standards in core academic subjects, to offer students a broad array of enrichment activities that can complement their regular academic programs, and to offer literacy and other educational services to the families of participating children. Present in all 50 states, the District of Columbia, Puerto Rico, US Virgin Islands, and the Bureau of Indian Education, academic enrichment and youth development programs are designed to enhance participants’ well-being and academic success. The Department of Education (ED) is requesting authorization for an extension with revision to collect data for 21st CCLC programs. The core purpose is to collect information on the Government Performance and Results Act (GPRA) performance indicators associated with the 21st CCLC program to report to Congress annually on the implementation and progress of 21st CCLC projects. All elements collected serve to meet the reporting requirements of the GPRA’s. These metrics delivered in the form of an Annual Performance Report (APR) are the primary way the federal government determines the success and progress of the 21st CCLC program based on the statutory requirements.

Dated: July 12, 2021.

Juliana Pearson,

PRA Coordinator, Strategic Collections and Clearance, Governance and Strategy Division, Office of Chief Data Officer, Office of Planning, Evaluation and Policy Development.
