**SUPPLEMENTARY INFORMATION:****A. Purpose**

The Federal Hazardous Substance Act and Hazardous Material Transportation Act prescribe standards for packaging of hazardous substances. To meet the requirements of the Acts, the General Services Administration Regulation prescribes provision 552.223-72, Hazardous Material Information, to be inserted in solicitations and contracts that provides for delivery of hazardous materials on a Free On Board (FOB) origin basis.

This information collection will be accomplished by means of the provision which requires the contractor to identify for each National Stock Number (NSN), the DOT Shipping Name, Department of Transportation (DOT) Hazards Class, and whether the item requires a DOT label. Contracting Officers and technical personnel use the information to monitor and ensure contract requirements based on law and regulation.

Properly identified and labeled items of hazardous material allows for appropriate handling of such items throughout GSA's supply chain system. The information is used by GSA, stored in an NSN database and provided to GSA customers. Non-Collection and/or a less frequently conducted collection of the information resulting from GSAR provision 552.223-72 would prevent the Government from being properly notified. Government activities may be hindered from apprising their employees of; (1) All hazards to which they may be exposed; (2) Relative symptoms and appropriate emergency treatment; and (3) Proper conditions and precautions for safe use and exposure.
